HOW TO INSTALL POWERCHUTE ON A BAT

Powerchute
handle

Powerchute
center circle

Powerchute
bottom circle

1.   Hold Powerchute unit handle at approximately chest height.

2.   Hold bat with other hand near the ball striking area of bat.

3.   Align bat handle with Powerchute center circle and slide bat handle thru the center.

4.   Align bat to slide thru the Powerchute bottom circle and drop bat, at the same time lift up on the handle of the Powerchute. This will provide a snug fit to the bat. Grab handle of the bat and start swinging.
