

Antibodies against 13,000 different human proteins

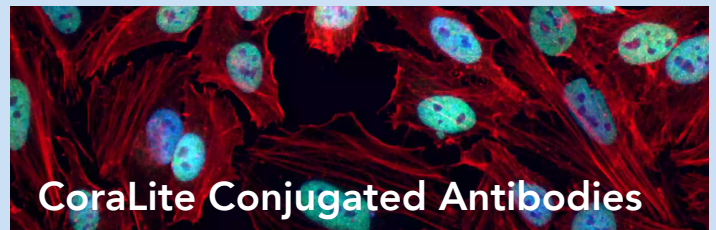

Try a 20ul antibody for just €129 or order a 150ul vial for €349.
All antibodies are in-stock for next day delivery.

Explore the antibody range:

Primary Antibodies

Polyclonal, monoclonal and recombinant antibodies manufactured and validated in-house.

CoraLite Conjugated Antibodies

Proteintech offers the largest portfolio of fluorophore conjugated antibodies, developed and validated for IF.

PROMO €169 Tag/Control Antibodies

Special offer on highly cited loading and isotype controls.

NEW Flow Cytometry Antibodies

Top cited clones for CD markers and intracellular proteins conjugated to several dyes.

Secondary Antibodies

Conjugated to HRP, biotin, fluorescent dyes and more.

Neutralising Antibodies

For pre-clinical and academic studies involving the neutralisation of cytokines.

4,700+ Antibodies verified by KO/KD validation

KO/KD validation

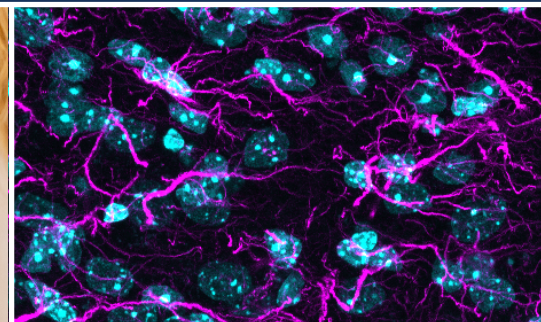

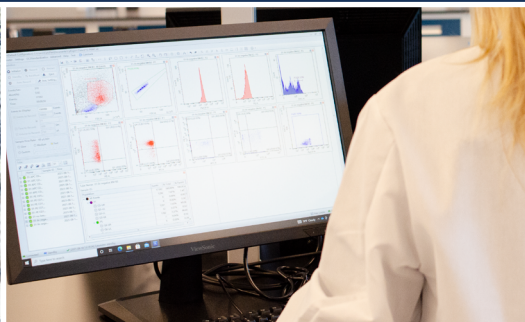

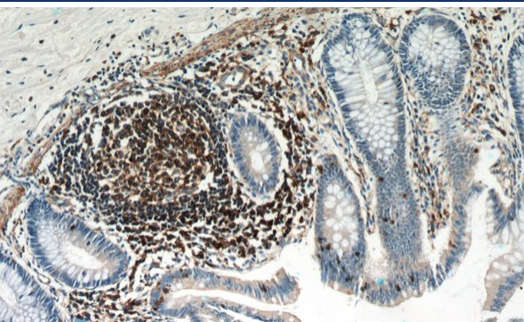

Every Proteintech antibody is extensively validated in-house, including the use of siRNA knockout/knockdown (KO/KD) to demonstrate specificity.

Over 4,700 Proteintech antibodies have been verified by KO/KD validation.

Antibodies for every application

Proteintech antibodies are validated in-house in a variety of applications.

- Western blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow cytometry
- Neutralisation

Proteintech Guarantee

The Proteintech guarantee covers its antibodies in any species and any application. If the antibody doesn't meet your expectations, you can receive a refund or replacement.
