

A15 LED X FILAMENT BULB

Dimmer Compatibility Guide

This compatibility list is based on testing conducted by the manufacturer in a lab simulated environment. Actual results may vary.

BRAND	MODEL
GEN 2.0	DC CONTROL 120VAC 60Hz
GEN1.9	CONTROL 120VAC 60Hz
LEVITON	DW6HD-1BZ
LEVITON	IPL06-011-10Z
LEVITON	LIGH ALMOND NO.6672 600W
LEVITON	RDL06-001-10Z
LEVITON	WHITE NO.6674 600W
LEVITON	WHITE NO.IPL06 600W
LUTRON	CASEFA WIRELESS
LUTRON	CTCL-153PDH-WH
LUTRON	DIVA CL
LUTRON	DIVA DVELV-300P-WH
LUTRON	DVCL-153P-WH

We highly recommend using a ELV (electronic low voltage) dimmer compatible with LED lights. Buzzing or flickering is typically an indication that the dimmer and lights used are not compatible. Please consult dimmer manufacturer for maximum wattage capacity.

*May experience “pop-on” behavior, in which lights cannot be turned on immediately to their minimum level. To resolve this issue, first raise the slider switch above the minimum level to turn the lights on, then dim to a lower light level as needed.
