

6" Canless Disk Downlight, Selectable CCT

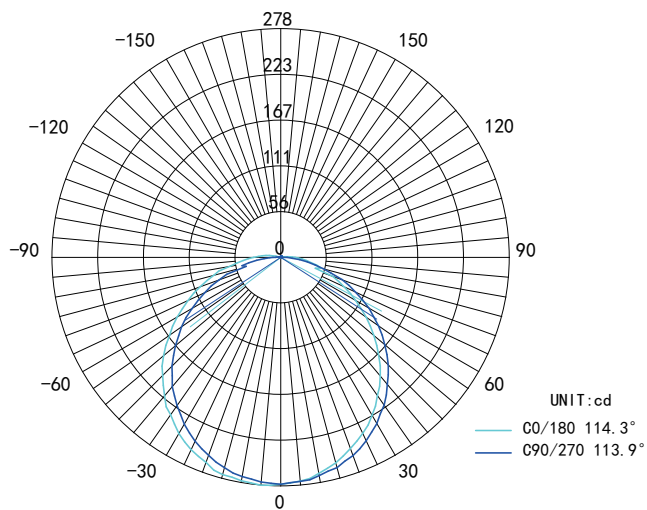

The 6" Canless Disk Downlight is ideal for your living space or home office and easy to install. Whether you're installing into a single drywall, double drywall, or soffit, you can speed up the process thanks to the spring-loaded brackets. There is no need for a recessed can since our LED downlights come with a junction box.

MODELS

CL_DK6_CLS-WH-2760K

LIGHT DISTRIBUTION ANGLE

AVERAGE BEAM ANGLE (50%) : 114.1°

NOTE: The curves indicate the illuminated area and the average illumination at different distances.
