CERTIFICATIONS

SPECIFICATIONS

Voltage	120V
Wattage	12w
Power Source	Hardwired
Contains Battery	No
Power Factor	0.90

LIGHTING PERFORMANCE

Lumens	1500lm
Selectable CCT	2700K,3000K,4000K,5000K,6000K
CRI	80+
Beam Angle	120°
Dimmable	Yes
Efficacy	117lm/w

ENVIRONMENT

Operating Temperature	-4°F - 113°F
Moisture Rating	Damp

CONSTRUCTION

Lens Material	PS
---------------	----

LIFETIME

Average Lifetime	LED 35,000 Hrs
Warranty	7 Year

6"LED Recessed Slim Downlight

Dimmer Compatibility Guide

This compatibility list is based on testing conducted by the manufacturer in a lab simulated environment. Actual results may vary.

We highly recommend using a Triac (forward-phase) dimmer that is compatible with LED lights. Buzzing or flickering is typically an indication that the dimmer and lights used are not compatible. Please consult dimmer manufacturer for maximum wattage capacity.

May experience "pop-on" or "dropout" behavior if the dimmer's low-end trim is not adjusted to match the driver. To resolve this issues, adjust the low or high-end trim on the dimmer to maximize the dimming range. If needed, first raise the slider switch above the minimum level to turn the lights on, then dim to a lower light level as desired.
