

6" LED Disk Night Light Dimmer Compatibility Guide

This compatibility list is based on testing conducted by the manufacturer in a lab simulated environment. Actual results may vary.

BRAND	MODEL
LEGRAND	RHCL453PNICCV4
LEVITON	06674-002-10W
LEVITON	06674-POT
LEVITON	DSL06-1LZ
LEVITON	LIGH ALMOND NO.6672 600W
LEVITON	RDL06-10Z
LEVITON	RNL06-TW
LEVITON	STCL-153PH-WH
LUTRON	LGCL-153P
LUTRON	MACL-153M-WH
LUTRON	MACL-153MH
LUTRON	PD-6WCL
LUTRON	P-PKG1W-WH-R
LUTRON	DVCL-153P
LUTRON	DVCL-153PH
LUTRON	DVCL-153PR-WH
Comm. Elec.	HPDA311CWB

We highly recommend using a ELV (electronic low voltage) dimmer compatible with LED lights. Buzzing or flickering is typically an indication that the dimmer and lights used are not compatible. Please consult dimmer manufacturer for maximum wattage capacity.

*May experience “pop-on” behavior, in which lights cannot be turned on immediately to their minimum level. To resolve this issue, first raise the slider switch above the minimum level to turn the lights on, then dim to a lower light level as needed.
