

8" slim Selectable Night Light LED

Add a touch of brightness to your indoor space with the 8" Down Light with Nightlight by Sunco. Receive greater coverage with softer, diffused light and apply the nightlight feature for a darker ambiance. Dimming levels range from 10%-100%, and its grooved interior creates a nice touch to your environment.

We highly recommend using a ELV (electronic low voltage) dimmer compatible with LED lights. Buzzing or flickering is typically an indication that the dimmer and lights used are not compatible. Please consult dimmer manufacturer for maximum wattage capacity.

*May experience "pop-on" behavior, in which lights cannot be turned on immediately to their minimum level. To resolve this issue, first raise the slider switch above the minimum level to turn the lights on, then dim to a lower light level as needed.
