

# 5/6” SMOOTH SELECTABLE RETROFIT

## Dimmer Compatibility Guide

This compatibility list is based on testing conducted by the manufacturer in a lab simulated environment. Actual results may vary.

## MODELS

DL\_SMDR56-13W-27K\_5K

BRAND	MODEL
LEGRAND	RHCL453PW
LEGRAND	6674-P0W
LUTRON	CASETA SMART PD-6WCL
LUTRON	CASETA SMART P-PKG1W
LUTRON	MACL-153M
LUTRON	CTCL-153PDH
LUTRON	DVELV-300P
LUTRON	DVCL-153PR
LUTRON	DVCL-153P
LUTRON	MACL-153MH
LUTRON	RRD-6CL
LUTRON	SLV-600P
LUTRON	TGCL-153PH

We highly recommend using a ELV (electronic low voltage) dimmer compatible with LED lights. Buzzing or flickering is typically an indication that the dimmer and lights used are not compatible. Please consult dimmer manufacturer for maximum wattage capacity.

\*May experience “pop-on” behavior, in which lights cannot be turned on immediately to their minimum level. To resolve this issue, first raise the slider switch above the minimum level to turn the lights on, then dim to a lower light level as needed.
