

A15 LED Bulb with Bug Repellent Technology

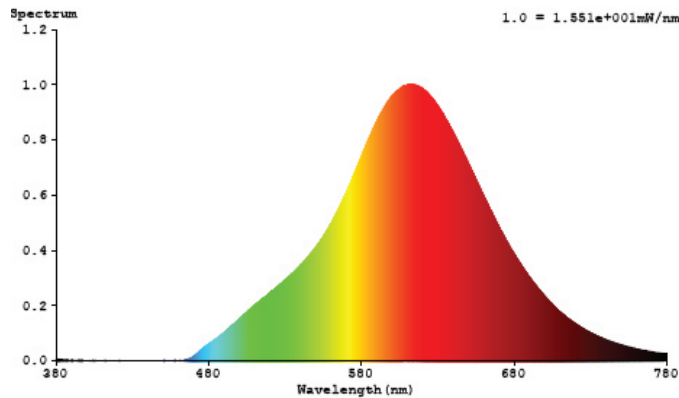

Use this specialty A15 LED Yellow Bulb as a bug light or as a night light to promote your body's natural sleep cycle, while you avoid the blue light spectrum prior to sleep. The yellow hue keeps pesky insects away from necessary light fixtures near entrances, instead of attracting them. Ideal for patios, restaurants, and outdoor dining areas.

SPECIFICATIONS

Voltage	120V
Wattage	8W
Current	0.090A
Power Factor	0.7

LIGHTING PERFORMANCE

Lumens	600
Equivalency	40W
Color Temperature Changing	2000K
Color Rendering Index (CRI)	80
Beam Angle	240°
Dimmable	Yes
Efficiency (lm/w)	80
Frequency	60Hz

ENVIRONMENT

Operating Temperature	4°F to 104°F
Suitable for Damp Locations Ingress	Yes

CONSTRUCTION

Housing	Aluminum+PC
Weight	0.061lbs

LIFESPAN

Average Life (Hours)	15,000+
Warranty	5 years
Switching Time	>30,000
