

# SPUTNIK LED CEILING LIGHT

## Dimmer Compatibility Guide

This compatibility list is based on testing conducted by the manufacturer in a lab simulated environment. Actual results may vary.

BRAND	MODEL	
<b>EATON</b>	AAL06-C1	😊
<b>LEGRAND</b>	RHCL453PW	😊
<b>LEVITON</b>	DW6HD-1BZ	😊
	DDE06-BLZ	😊
	DDL06-1LZ	😊
	DDMX1-BLZ	😊
	DSE06-10Z	😊
	DSL06-1LZ	😊
	IPL06-10Z	😊
	RDL06-10Z	😊
	TSM10-1L	😊
<b>MARTIN JERRY</b>	MARTIN JERRY SMART MJ-SD01	😊
<b>TP LINK</b>	KASA SMART	😊

BRAND	MODEL	
<b>LUTRON</b>	CASETA SMART PD-6WCL	😊
	CASETA SMART P-PKG1W	😊
	DVCL-153P	😊
	MACL-153M	😊
	CTCL-153PDH	😊
	DVELV-300P	😊
	DVCL-153PR	😊
	MACL-153MH	😊
	NLV-1000-LA	😊
	SLV-600P	😊
	TGCL-153PH	😊
<b>WEMO</b>	WIFI LIGHT SWITCH F7C059	😊
<b>WATTSTOPPER</b>	MICO DETECTOR DCD267-W	😊

We highly recommend using a ELV (electronic low voltage) dimmer compatible with LED lights. Buzzing or flickering is typically an indication that the dimmer and lights used are not compatible. Please consult dimmer manufacturer for maximum wattage capacity.

\*May experience “pop-on” behavior, in which lights cannot be turned on immediately to their minimum level. To resolve this issue, first raise the slider switch above the minimum level to turn the lights on, then dim to a lower light level as needed.
