

A19 FILAMENT BULB

Dimmer Compatibility Guide

This compatibility list is based on testing conducted by the manufacturer in a lab simulated environment. Actual results may vary.

BRAND	MODEL	A19
EATON/COOPER	SAL06P3	
	AAL06-C1	
LEGRAND RADIA	RHCL453PW	
LEVITON	6674-POW	
	IPL06-10Z	
	DW6HD-1BZ	
	DDL06-BLZ	
	DSL06-1LZ	
	DDL06-1LZ	
	IPL06-10Z	
	IPI06-1LZ 600W	
	TSM10-1L	
	RDL06-10Z	
	DSE06-10Z	
	DDMX1-BLZ	
	DDE06-BLZ	

BRAND	MODEL	A19
LUTRON	PD-6WCL	
	MACL-153MH	
	TGCL-153PH	
	DVCL-153PR	
	CTCL-153PDH	
	P-PKG1W-WH	
	DVELV-300P	
	NLV-1000	
	SLV-600P	
	RRD-6CL	
	MACL-153M	
	DVCL-153P	
	MRF2S-6ND-120	
TP LINK	HS220	
WATTSTOPPER	DCD267	
WEMO	F7C059	

We highly recommend using an ELV (electronic low voltage) dimmer compatible with LED lights. Buzzing or flickering is typically an indication that the dimmer and lights used are not compatible. Please consult dimmer manufacturer for maximum wattage capacity.

*May experience "pop-on" behavior, in which lights cannot be turned on immediately to their minimum level. To resolve this issue, first raise the slider switch above the minimum level to turn the lights on, then dim to a lower light level as needed.
