

GERMICIDAL UVC LIGHT

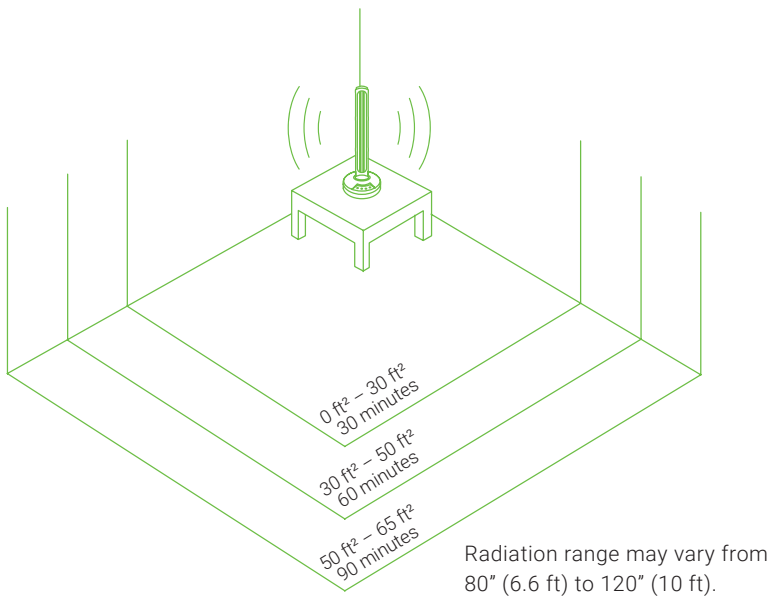

Ultraviolet light provides 99.9% efficacy to clean surfaces. UVC light can inactivate DNA and RNA microorganisms to render them sterile and unable to reproduce. This light has been tested as effective on:

- Escherichia coli (ecoli)
- Staphylococcus aureus
- Candida albicans

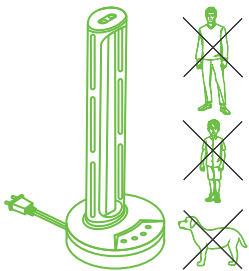

MODELS

GL01-36W-#

STERILIZATION TIME PER AREA

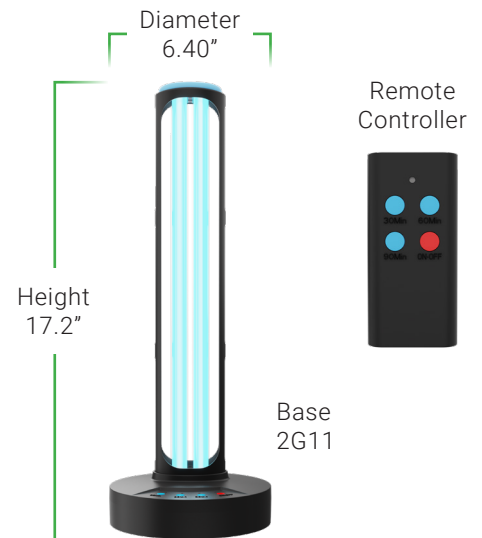

WARNING

Do not look at UVC light when illuminated. UVC is harmful to skin and eyes; it should never be used on people or pets. Review all stated warnings and important notes in installation manual.

CERTIFICATIONS

SPECIFICATIONS

Voltage	120V
Wattage	36W
Current	0.56A
Power Factor	0.5

LIGHTING PERFORMANCE

Typical Irradiance	253.7nm
Beam Angle	360°
Cleaning Angle	360°
Irradiance Source	Mercury
Efficacy	99.9%
Frequency	60Hz

ENVIRONMENT

Operating Temperature	4°F to 104°F
Suitable for Damp Locations Ingress	Yes

REMOTE CONTROLLER

Range	0-16.4 ft
Battery	Included: CR2032

CONSTRUCTION

Housing	Plastic+Quartz
Weight	1.10lbs

LIFESPAN

Average Life (Hours)	10,000+
Warranty	1 year

*Be sure to read the important information and warnings in the installation manual prior to use
