- Min 167°F. supply conductors.
- Suitable for mounting within 1.2 m (4 ft) of the ground
- This product is not available for several special environments, such as places with corrosive gas liquids or high pressure water vapor.

INSTALLATION

1/2" NPS Knuckle Mount (Optional ground stake mount)

1. Install the fixture by knuckle bracket on the weatherproof Junction Box (supplied by others), and secure it by 1/2" locknut.
2. Make electrical connections from the supply ground (L/N/GND) lead to fixture ground (L/N/GND) lead respectively, making sure to follow all National Electrical Code and all applicable local codes and ordinances.
3. Aim fixture by loosening screw on knuckle of fitter and rotating fixture to desired tilt angle. Re-tighten screw.
4. While making electrical connections, ensuring water does not enter fixture through 1/2" fitter.
5. Installation and service of luminaires should be performed by a qualified licensed electrician.

CAUTION: Seal the 1/2" NPS thread using weatherproof silicone sealant while installing. This is especially important.

TROUBLESHOOTING

Turn off power before continuing.

1. Light does not come ON.
 - A. Check if circuit breaker tripped.
 - B. Confirm wall switch is ON.
 - C. Check that if the wiring to the unit is loose.
 - D. Check that the line voltage at the fixture is correct.
 - E. Confirm wiring is properly secured.

If light still does not work after checking, contact customer service.
