Parts Washers

Ultrasonic Parts Cleaner 6 Litre

Product Code: 1036T

The TradeQuip "Made for the Trade" ultrasonic parts cleaner makes it easy to clean items like carbies, calipers, nuts & bolts, most small metal parts - even jewellery. Just fill the cleaner with water, mix in a desirable ultrasonic cleaning additive (sold separately), set the timer and walk away to get on with another job. The ultrasonic cleaner works with or without heat and provides deep cleaning using ultrasound technology and water. The adjustable temperature and timer gives you a variety of cleaning performance options.

All TradeQuip "Made for the Trade" ultrasonic parts cleaners incorporate Lateral Oscillation Technology for fast and effective cleaning results. The internal basket system allows the lid to seal the working solution avoiding evaporation and reducing ultrasonic acoustic levels. The clear and easy design with compact and quiet operation make these products the market leaders. All TradeQuip tanks are manufactured from professional 304 grade 2mm stainless steel, with added thickness and increased corrosion resistance to alleviate problems associated with the use of citric acid. Regular cleaning is still necessary to provide longevity of the ultrasonic tank. Electropolishing passivates stainless steel to a greater extent than any other process. It applies an invisible protection oxide fill on the surface which imparts a condition of maximum resistance to attack and corrosion. The tank is fitted with a convenient drain valve to empty and thoroughly clean any traces of cleaning solution and contaminants that are left over from cleaning cycle. This should be carried out at the end of each cleaning cycle and the tank be stored empty, clean and dry.

Particularly useful for mechanical, panel repair, small engine, electronics, jewellery, metal parts, assemblies, optical, electronic tools, circuit boards and other high performance cleaning applications.

The TradeQuip "Made for the Trade" ultrasonic parts cleaner is the most effective and efficient method for object cleaning slits, grooves, deep hole, blind hole, surface cleaning, removing oil, rust, oxides, etc.

Please note: Dependant on the setting of your temperature, solution ratio and power level, a cool down period of up to 30minutes may be required between cycles. Dependant on your application, complete cleaning result and cool down period requirements will vary. To reduce cycle times, use hot water at around 50°C instead of cold water.

Features

- Adjustable timer from 1-30 minutes for perfect results
- Cleaning basket included for cleaning batches of smaller parts
- Remove more dirt with 20°- 80°C adjustable temperature
- Sound-reducing cover
- For use with water base solutions
- High ultrasonic power for more cleaning action
- Easy to read digital timer
- Heated water function for improved cleaning when needed
- Professional electroplated tank
- Turbo ultrasonic power option to meet more cleaning needs
- One-button power switch on the back, double security
- Time setting: 0-30 minutes can be adjustable
- Adjustable temperature control
- Innovative heating mode, match thermostat sensor, improves the cleaning effect
- New prevent water leak technology, guarantees product safety and service life
- High efficiency conversion circuit, ultrasonic performance than similar products more than 20%, higher cleaning efficiency
- Cylindrical LED light display for time and temperature adjusting
- User-friendly and clear panel
- 304 Grade stainless steel tank
- High-performance transducer systems
- All spare parts available!

Specifications

- Tank Capacity: 6 Litres
- Ultrasonic Power: 150W
- Ultrasonic Frequency: 40KHz
- Ultrasonic Transducers: 3x50W
- Heating Power: 300W
- Heating Temperature: 20-80 C
- Timer Range: 0-30 Minutes
- Tank Material: 304 Grade 2mm thick
- Tank Size: 300(L) x 155(W) x 150(H)mm
- Internal Dimension of Basket (including handles): 280 x 130 x 110mm
- Dimensions: 330(L) x 180(W) x 310(H)mm
- Carton: 470 x 270 x 410mm
- Weight: 8.6kg

- User-friendly and clear panel
- 304 Grade stainless steel tank
- High-performance transducer systems
- Fitted with (4) swivel castors (2 with brakes) for easy maneuverability

Specifications

- Tank Capacity: 36 Litres
- Ultrasonic Power: 600W (Adjustable)
- Ultrasonic Frequency: 28/40KHz
- Ultrasonic Transducers: 12x50W
- Heating Power: 800W
- Heating Temperature: 20-80 C
- Timer Range: 0-30 Minutes
- Tank Material: 304 Grade 2mm thick
- Tank Size: 500(L) x 290(W) x 250(H)mm
- Internal Dimension of Basket: 460 x 270 x 140 mm
- Internal Dimension of Basket taking handles into consideration: 400 x 270 x 140 mm
- Dimensions: 570(L) x 360(W) x 450(H)mm
- Carton: 740 x 535 x 600mm
- Weight: 35kg

MADE FOR THE TRADE

Parts Washer - 90 Litre

Product Code: 1003

This top quality TradeQuip "Made for the Trade" Parts Washer is perfect for cleaning down most components prior to assembly. It is designed and manufactured to TradeQuip Quality Standards and has a very sturdy steel construction and quality enamelled finish. The "Quick Close" fire safe lid mechanism ensures operator protection in case of fire. The unit has a built in replacement cleaning fluid filter and easy maintenance 240V 'High Volume' cleaning fluid pump. Fitted with "Standards Australia Approved" 10Amp plug and cable.

Features

- Sturdy metal construction
- Quality enamelled gloss finish
- Enclosed "High Volume" electric pump and fully screened pump housing
- Built-in replaceable pump inlet filter
- Chromed flexible metal fluid delivery pipe
- Large removable parts cleaning shelf for inspection and drying
- Immersion soaking when parts cleaning shelf removed
- Non welded one-piece tank
- Quick Close fire safe lid mechanism
- Suitable for use with aqueous water based cleaning fluids
- Replacement parts available

Specifications

- Tank Volume: 90Litres
- Pump Power: 240V/50Hz/0.5A
- Pump Output: 3.15 Litres per minute
- Tank Dimensions: 758(L) x 527(W) x 275(H)mm
- Minimum Cleaning Fluid Capacity: 18Litres
- Maximum Cleaning Fluid Capacity: 45 Litres
- Overall Dimensions: 780(L) x 540(W) x 908(H)mm
- Nett Weight: 23kg

***Warning:** For use with aqueous (water) based solutions only. Petroleum based cleaning fluids are harmful and will damage the pump and void the warranty.

About the brand

Our Flagship brand of garage and workshop equipment, TradeQuip is designed for use in a demanding garage and workshop environment by trade users. With proven and trusted "Made for the Trade" reliability, TradeQuip branded products offer the very best in performance for an affordable price. The TradeQuip range is covered by a 12 month trade use warranty.

Parts Washer - 180 Litre

Product Code: 1004T

This top quality TradeQuip "Made for the Trade" Large Parts Washer is perfect for cleaning down most components prior to assembly. It is designed and manufactured to TradeQuip Quality Standards and has a very sturdy steel construction and quality enamelled finish. The "Quick Close" fire safe lid mechanism ensures operator protection in case of fire. The unit has a built in replacement cleaning fluid filter and easy maintenance 240V 'High Volume' cleaning fluid pump. Fitted with "Standards Australia Approved" 10Amp plug and cable.

Features

- Sturdy metal construction
- Quality enamelled gloss finish
- Enclosed "High Volume" electric pump and fully screened pump housing
- Built-in replaceable pump inlet filter
- Chromed flexible metal fluid delivery pipe
- Large removable parts cleaning shelf for inspection and drying
- Immersion soaking when parts cleaning shelf removed
- Non welded one-piece tank
- Suitable for use with aqueous water based cleaning fluids
- Fire Safety Auto Drop Down Lid
- Replacement parts available

Specifications

- Tank Volume: 180Litres
- Pump Power: 240V/50Hz/0.5A
- Pump Output: 3.15 Litres per minute
- Tank Dimensions: 1135(L) x 545(W) x 320(H)mm
- Minimum Cleaning Fluid Capacity: 33Litres
- Maximum Cleaning Fluid Capacity: 90 Litres
- Overall Dimensions: 1150(L) x 560(W) x 1430(H)mm
- Nett Weight: 42kg

**Warning: For use with aqueous (water) based solutions only. Petroleum based cleaning fluids are harmful and will damage the pump and void the warranty.*

Engine Cleaning/Degreasing Gun

Product Code: EC1

This powerful TradeQuip "Made for the Trade" engine cleaning gun is lightweight, easy to handle and reaches deep into engine compartments and machinery. Removes grime and cleans in hard to reach areas. The cleaning gun kit includes a 1000cc Aluminium Pot for . The pneumatic engine cleaning gun works with engine cleaners, degreasers, detergents, and solvents. Features an 200mm wand, quick release tank and 1/4" NPT air inlet.

Features

- Adds cleaning solution to high pressure air stream for maximum cleaning power
- Siphon control valve regulates the amount of cleaning solution used
- Trigger controls air and solution flow
- Brass nozzle
- Polished finish surface

Specifications

- Aluminium Pot: 1000cc
- Wand length: 200mm
- Average air consumption: 1.6-4 CFM
- Working pressure: 30-90 PSI
- Air Inlet: 1/4" NPT
- Carton: 360 x 240 x 120mm
- Weight: 1kg

Mini Parts Washer

Product Code: BPW1803

The Borum Industrial Mini Parts Washer has a wall or bench mounting system with an enclosed cabinet ensuring compact efficient storage when not in use. This unit has a pump fed washing gun with a replaceable brush suitable for rapid cleaning. Included in the Mini Parts Washer is a fluorescent lighting system, ensuring excellent illumination for working with smaller parts.

This parts washer is perfect for industrial or workshop use. Made from a heavy gauge steel construction & seamless one piece steel tub, the metal cleaning gun and flex hose makes for easy operation.

This machine is the ideal way to keep your tools & parts clean from dirt & grease. With a built in filtration system, this parts washer is designed to clean anything small and intricate.

Features

- Both benchtop or wall mount systems included
- Constructed of high-grade steel and built to exacting standards for quality and durability
- Lead-free paint finish is applied after a thorough chemical wash to ensure a long-lasting finish and to help prevent rust
- Paint is oil, grease and dirt-resistant for easy cleanup
- Pump fed gun with replaceable brush head
- Fluorescent lighting system for brilliant illumination
- Recommended for use with water based TradeQuip Parts Cleaning Concentrate

Specifications

- Recirculation Flow Rate: 1.9 Litres per minute
- Solvent Capacity: 14 Litres
- Power: 240V/50HZ
- Dimensions: 560 x 545 x 630mm
- Nett Weight: 24kg
- Carton: 580 x 280 x 660mm
- Gross Weight: 26kg

Jet Blast Parts Washer

Product Code: BPW1804

This Borum Industrial Parts Washer has a large enclosed cabinet ensuring high protection from solvent splash and vapours. This unit has a pneumatic washing gun suitable for rapid cleaning. Included in the Parts Washer is a fluorescent lighting system, external extraction fan @ 5CFM ensuring excellent ventilation. Recommended air pressure requirement is 70-120psi.

Features

- 'Jet Blast' wash in large enclosed cabinet, with highly protection from solvent splash and odor;
- Pneumatic washing gun suitable for rapid cleaning;
- Tough steel construction;
- Flourescent lighting system for bright view;
- External air fan brings excellent ventilation;
- Ideal for busy garages, engineering shops, crash repairers
- Designed for fast professional cleaning of parts and assemblies.
- Recommended for use with water based TradeQuip Parts Cleaning Concentrate
- Air Hose to connect to compressor not included.

Specifications

- Washing Pressure: 70-120psi
- Circulation Flow Rate: 0.8 Litres/min
- Cleaning Fluid Capacity: 4-9 Litres
- Air Requirement: 70-120psi @ 5CFM
- Internal working area: 736W x 559D x 452H mm
- Workpiece maximum dimensions: 700W x 420D x 320H mm
- Overall dimensions: 783W x 594D x 697H mm
- Nett Weight: 29.5kg
- Crate: 790 x 610 x 530mm
- Gross Weight: 32kg

Parts Washer Concentrate

Product Code: 5082T, 5083T

TradeQuip "Made for the Trade" Parts Washer Concentrate is a water-based, safer alternative to solvent based degreasers. It is specifically formulated for cleaning and degreasing automotive, engineering and industrial parts in TradeQuip Parts Washers, Ultrasonic Cleaners and washable surfaces. - 10Litres makes 50Litres

The TradeQuip Parts Washer Concentrate rapidly solubilises grease deposits and oily films in the presence of heavy grime loads. Free from petroleum, solvents, aromatic compounds, phenols, chlorinated solvents and biologically hard ingredients. When used as recommended, TradeQuip Parts Washer Concentrate will not affect rubber, plastics, glass, fully cured paintwork and most metals. It inhibits ferrous metal corrosion, exhibits excellent detergency and does not form stable emulsions, making it suitable for oil and solvent recovery equipment.

Direction for Use

Dilute the concentrate with cold or warm water. Apply solution with brush or dip the parts in the immersion wash tank for a few minutes. Brush and scrubbing may be required for difficult shapes and heavy soiled surfaces. Rinse with clean water and dry completely. Rust protection coating is required after washing process for ferrous metals before storage. Always wear PPE and safety glasses.

Features

Dilution Rate: 1part concentrate to 5parts water
Adjust the concentration to achieve desired result
Free from petroleum, solvents and biologically hard ingredients
Will not affect rubber, plastic, glass, fully cured paintwork and most metals
Specifically formulated for use with TradeQuip "Made for the Trade" parts washers brush and hose

Environmentally Friendly

Non-toxic
Non-caustic
Non-flammable
Bio-degradable
Non-hazardous

First Aid Information:
If poisoning occurs, contact doctor or poisons information centre
If swallowed, do not induce vomiting give a glass of water
If in eyes, hold eyes open, flood eye with water for at least 15mins and see doctor

Code	5082T	5083T
Contents	20L	10L
Creates	100L	50L

Parts Washer Brush & Hose

Product Code: 1806

This top quality TradeQuip "Made for the Trade" parts washer brush is perfect for cleaning down most components prior to assembly. It is designed and manufactured to TradeQuip Quality Standards and has a very stiff and sturdy poly/plastic bristles. The TradeQuip Parts Washer Brush is a replacement brush for most TradeQuip Parts Washers. Features poly/plastic bristles designed to work with water based solvents to remove grease and grime.

Features

Sturdy polymer construction
Poly/plastic bristles work with solvent to remove grease and grime
Suits parts washers with chromed flexible metal fluid delivery pipes
Suitable for use with aqueous water based cleaning fluids
Not suitable for solvent or petroleum based fluids
Includes brush and hose
Works with TradeQuip parts washers (Code/s 1003, 1004 and 1050, sold separately)

Specifications

Polymer Brush and Handle Length: 260mm
Rubber Hose Length: 670mm
Hose Nipple ID: 15mm
Bristle Length: 75mm
Bristle Diameter: 35mm
Weight: 300g

Parts Washer Pump

Product Code: 1005

This top quality TradeQuip "Made for the Trade" submersible Parts Washer Pump is a direct replacement for the pumps fitted to 15Litre 90Litre & 180Litre TradeQuip Parts Washers. Suitable for use with TradeQuip Parts Cleaning Concentrate 5082T, 5083T, 5084T and 5085T as well as other water based parts cleaning fluids.

Flexible pipe nozzle also available separately

Features

- Sturdy poly/plastic body
- Stainless steel shaft
- Suits parts washers with chromed flexible metal fluid delivery pipes
- Snap off inlet grill for easy cleaning
- Suitable for use with aqueous water based cleaning fluids
- Works with TradeQuip parts washers (Code/s 1003, 1004 and 1050, sold separately)

Specifications

- Power: 230V 50Hz 26W 0.6Amp
- Cable Length: 305mm
- HeadMax: 1.8m
- Flowrate: 3.15 Litres per minute
- Outlet Thread: 1/2" NPT Female
- Dimensions: 100(L) x 85(H) x 65(W) mm
- Weight: 1kg

Parts Washer Flexible Pipe Nozzle

Product Code: 1003-1

This replacement Flexible Parts Washer Nozzle suits the TradeQuip "Made for the Trade" 15Litre, 90Litre and 180Litre Parts Washers. Accurately points the cleaning solution to where you need it, this 600mm flexible nozzle is chrome-plated for extra long life. OEM Replacement for 1003, 1004T 1050 TradeQuip "Made for the Trade" Parts Washers.

Features

- Manufactured using quality steel
- Bend it into any position and it stays in place
- Quality chromed finish for extra long life
- Puts the cleaning solution where you need it
- Works with TradeQuip parts washers (Code/s 1003, 1004 and 1050, sold separately)

Specifications

- Length: 600mm
- Thread: 1/4" NPT
- Spray Pattern: Stream
- Bend Radius: 120mm

About the brand

Our Flagship brand of garage and workshop equipment, TradeQuip is designed for use in a demanding garage and workshop environment by trade users. With proven and trusted "Made for the Trade" reliability, TradeQuip branded products offer the very best in performance for an affordable price. The TradeQuip range is covered by a 12 month trade use warranty.

TQB Brands Pty Ltd

TQB Brands has grown to become one of the most respected garage equipment suppliers in Australia and markets the recognised leading brands TradeQuip, TQ Pro, Borum and Red Label Nationally through 1000+ distributors. We offer an extensive range of products including Garage & Workshop, Industrial, Agricultural and Vehicle Service Equipment. We continually strive to introduce new and innovative garage and workshop tools and equipment for the professional, which comply with mandatory Australian Standards. TQB Brands aims to achieve great value for money whilst not compromising on quality. TQB Brands prides itself on offering fit for purpose product through our tiered brand offerings.

Our **Flagship** brand of garage and workshop equipment, **TradeQuip** is designed for use in a demanding **garage and workshop** environment by trade users. With proven and trusted **"Made for the Trade"** reliability, **TradeQuip** branded products offer the very best in performance for an affordable price. The **TradeQuip** range is covered by a **12 month trade use warranty**.

Our **"heavy duty commercial"** range of **Borum Industrial** equipment has been manufactured to exacting standards for the past **37 years**. We specify industrial quality components and design to ensure a long and durable working life in **commercial transport, mining, earthmoving and railway** environments. Our **Borum Industrial** range of equipment is focused on achieving superior professional standards, reliability, quality, and are covered by a **12 month trade use warranty**.

Professional
Reputable
Outstanding

**LATEST APPLIED
TECHNOLOGIES**

TQ Pro top quality Tools and Equipment are designed and manufactured for specialist professional use in a garage and workshop environment. **TQ Pro** products are strong, reliable, and well finished for the **expert tool user** who appreciates professional design, reliability, and attention to detail. Covered by our **12 month trade use warranty**, our **TQ Pro** Tools & Equipment are made with pride to deliver the best combination of professional performance, presentation, and reliability.

Our price competitive range of tools & equipment is offered under the brand **"Red Label"**. This short range of popular products, offers a **"Great Price"** whilst maintaining 'fit for purpose' quality assurance standards. Not designed to withstand everyday use, **"Red Label"** branded products are covered by a **1 year domestic use warranty** and a **3 month trade use warranty**.
