STEP 1

Insert 'Bertello Wood Burning Tray for Propane Gas Burner' through the front of the oven
(WITH THE BAKING STONE REMOVED)

STEP 2

Pull tray all the way to the back of the oven

STEP 3

Insert propane gas burner into back of oven

STEP 4

Tighten bolts on each side of gas burner

STEP 5
Insert Baking Stone

STEP 6

Attach and tighten gas burner regulator to propane tank

STEP 7

Turn propane valve to open position

STEP 8

Press in, and turn gas burner knob counter clockwise to 'high'. Hold in for 5 seconds to ignite flame. Leave burner on high to preheat the oven for approximately 20 minutes, Or until you have reached your desired stone temperature.

STEP 9

Turn burner to 'low' once your desired stone temperature has been reached.

STEP 10

Insert wood into the back of the oven. You can use wood kindling, chunks pellets, or charcoal.

STEP 11

Close back access hatch door. After wood has ignited and you see a flame rolling across the ceiling of your oven, you are ready to cook!
