Product: CloneTracker XP™ 10M Barcode-3' Library with rLuciferase-Puro (Packaged)  
Cat. #: BCXP10M3LP-V

### CloneTracker XP™ 10M Barcode-3' Library with rLuciferase-Puro

**Shipment Contents:** CloneTracker XP™ 10M Barcode-3' Library with rLuciferase-Puro (Packaged)  
— Store at -20°C

#### Description:

Cellecta's CloneTracker XP™ 10M Barcode-3' Library with rLuciferase-Puro is a pooled barcode library that enables the tracking of individual clones derived from a population of cells using either RNA-Seq or PCR/NGS from genomic DNA. The library contains up to 10 million lentiviral constructs, each expressing a unique barcode sequence. When a cell population is transduced with this barcode library, the barcodes integrate into the genomic DNA of the cells. The result is a founder population where almost every cell has a different DNA-sequenceable barcode that is both integrated into its DNA and expressed on an RNA transcript. Since the barcode is stably integrated, it is passed onto any cell progeny when genomic DNA is replicated. This feature enables identification of all the progeny derived from each individual cell.

When used in conjunction with single-cell RNA-Seq, the expressed barcode may be used to identify expression profiles and activated genes in different cells so that distinct clonal populations of cells from a single progenitor, as well as sub-populations of cells with distinct pathway activations or expression profiles, can be readily identified.

The CloneTracker XP Barcode Library is constructed in a third-generation lentiviral vector that expresses the rLuciferase marker and Puro resistance gene under an EF1a core (EFS) promoter. The specially-designed, optimized barcodes facilitate Next-Gen Sequencing (NGS) data analysis and barcode identification. Using the Illumina NextSeq or HiSeq NGS platform, barcode sequences can be identified either by RNA-Seq or PCR/NGS from genomic DNA and converted to lists with enumerated data.

The titer of packaged libraries provided by Cellecta is functionally determined by transduction of 293T cells at low MOI and selection of Puro-positive cells.

**Luciferase Marker:** rLuciferase\*  
**Biosafety Level:** BSL-2  
**Storage:** -80°C  
**Shelf Life:** 1 year from date of receipt  
**Shipping Conditions:** Dry Ice

#### Product Information

The user manual and vector map/sequence are available on our website:  
<https://www.cellecta.com/clonetracker-xp-expressed-barcode-libraries/>

The barcode library sequences file with NGS QC is provided by email upon shipment.  
Please contact Cellecta at [orders@cellecta.com](mailto:orders@cellecta.com) if you have not received it.

## Product Analysis Certificate

Product: CloneTracker XP™ 10M Barcode-3' Library with rLuciferase-Puro (Packaged)  
Cat. #: BCXP10M3LP-V

### Contents:

Part #	Description
BCXP10M3LP-V	<b>CloneTracker XP™ 10M Barcode-3' Library with rLuciferase-Puro (packaged)</b> in pScribe6-EFS-rLuc-2A-Puro-bc-3LTR <u>Packaged, <math>&gt;2 \times 10^8</math> TU:</u> <b><math>2.38 \times 10^8</math> TU, <math>7.67 \times 10^8</math> TU/ml</b> (310 $\mu$ l total; 50 $\mu$ l $\times$ 6 tubes, 5 $\mu$ l $\times$ 2 tubes) Lot# 181212009; Store at $-80^\circ\text{C}$

### Library Barcode Sequence Files (sent with PAC):

30nt Barcodes (BC30): Collecta-SEQ-CloneTracker-XP-Barcode-Libraries-100K\_x\_BC30.xlsx

14nt Barcodes (BC14): Collecta-SEQ-CloneTracker-XP-Barcode-Libraries-100\_x\_BC14.xlsx

**NOTE:** The **CloneTracker XP™ 10M Barcode-3' Library with rLuciferase-Puro** uses all 100 of the 14nt barcodes (BC14) in the file above.

### Quality Control

#### Individual Clone Sequencing Data

	Library:	CloneTracker XP™ 10M Barcode-3' Library with rLuciferase-Puro
Plasmid Lot #:		181025001
Library Complexity (number of clones):		$210 \times 10^6$
Number of good clones picked:		23
Correct Structure:		>95%
Number of clones with at least one mutation, deletion, or insertion:		0
Mutation / Deletion / Insertion Rate:		0.00%
Estimated % of Inserts without any mutations, deletions, or insertions in <u>barcode</u> portion (Based on Clone QC):		>95%
Estimated % of Inserts without any mutations, deletions, or insertions in <u>barcode</u> portion (Based on NGS QC):		>95%

## NGS Barcode Cassette Diagram (in pScribe6 Vector)

Example NGS cassette diagram for the bc14-001\_bc30-010000 construct in pScribe6-EFS-rLuc-2A-Puro-bc-3LTR, from the CloneTracker XP™ 10M Barcode-3' Library with rLuciferase-Puro. RNA-Seq primer **FSeqRNA-BC14-XP** (not included) is also shown and is required in order to read CloneTracker XP barcode sequences on most single-cell Drop-Seq systems.

### Expressed barcode structure (sense): BC14-TGGT-BC30-3LTR-Poly(A)signal

Primer*	Sequence	Purpose
Forward-XP Primer	ACCGAACGCAACGCACGCA	1st Round PCR
Reverse-XP Primer	ACGACCACGACCCGACCCGACCCAGCA	1st Round PCR
NFwd-XP Primer	AGCAGAAGACGGCATAACGAGATAGCACCGAACGCAACGCACGCA	2nd Round PCR
NRev-XP Primer	AGATACGGCGACCACCGAGATCTACACGACGACGAGACGCAATACGACACGACGACCACCCGACCCAGCA	2nd Round PCR

\* Primers and reagents for multiplexing up to 12 samples available in Collecta's NGS Prep Kit (See Page 5)

Product: CloneTracker XP™ 10M Barcode-3' Library with rLuciferase-Puro (Packaged)  
 Cat. #: BCXP10M3LP-V

### Diagram of PCR Amplicon

Example Second-Round (Nested) PCR amplicon diagram for a barcode-3' library construct in pScribe6, from the CloneTracker XP™ 10M Barcode-3' Library. The **NFwd-XP Primer** contains the minimal sequence of P7 (5' end, sequence in orange) and **NRev-XP Primer** contains the minimal sequence of P5 (3' end, sequence in orange) required for compatibility with all Illumina flow cells.

- Size of Second-Round (Nested) PCR amplicon: **227 bp**
- Starting library concentration (see NGS Sample Purification step): **10 nM**

NGS Primer*	Sequence	Purpose
Seq-XP NGS Primer	AGACGACCTGCTCCAGCTGCACCA	NGS of barcode (reverse)

\* Primers and reagents for multiplexing up to 12 samples available in Collecta's NGS Prep Kit (See below)

### NGS Prep of Screening Samples

Collecta provides the following NGS products and services. For pricing, please inquire.

Cat.#	Description	Quantity
LNGS-300	NGS Prep Kit for Barcode Libraries in pScribe (CloneTracker XP)	Kit for 6-48 samples (48 preps of 50 µg each, 12 multiplex)
LNGS-300-SP	Supplementary Primer Set for LNGS-300 (12 Additional Index Primers)	48 Reactions (12 Index Primers x 4 reactions each)
CANA-SQD	NGS of DNA from Genetic Screen	Service (per DNA sample)

## Terms and Conditions

### Cellecta, Inc. Limited License

Cellecta grants the end user (the "Recipient") of the CloneTracker XP™ 10M Barcode-3' Library (the "Product") a non-transferable, non-exclusive license to use the reagents for internal research use only as described in the enclosed protocols; in particular, research use only excludes and without limitation, resale, repackaging, or use for the making or selling of any commercial product or service without the written approval of Cellecta, Inc. -- separate licenses are available for non-research use or applications. The Product is not to be used for human diagnostics or included/used in any drug intended for human use. Care and attention should be exercised in handling the Product by following appropriate research laboratory practices.

Cellecta's liability is expressly limited to replacement of Product or a refund limited to the actual purchase price. Cellecta's liability does not extend to any damages arising from use or improper use of the Product, or losses associated with the use of additional materials or reagents. This limited warranty is the sole and exclusive warranty. Cellecta does not provide any other warranties of any kind, expressed or implied, including the merchantability or fitness of the Product for a particular purpose. Use of the Product for any use other than described expressly herein may be covered by patents or subject to rights other than those mentioned. Cellecta disclaims any and all responsibility for injury or damage that may be caused by the failure of the Recipient or any other person to use the Product in accordance with the terms and conditions outlined herein.

The Recipient may refuse these licenses by returning the enclosed Product unused. By keeping or using the enclosed Product, you agree to be bound by the terms of these licenses. The laws of the State of California shall govern the interpretation and enforcement of the terms of these Licenses.

Terms and Conditions are available online at <https://www.cellecta.com/company/legal-information/terms-and-conditions/>.
