

Product Certificate

Product Name: pRCDCMRP-CMV-MCS-2A-TagRFP-2A-Puro cDNA Cloning and Expression Vector

Catalog #: PRCDMP

Size: 10 µg; 0.5 µg/µl, 20 µl

Shipping Conditions: Blue Ice

Shipment Contents: Standard, cloneable plasmid — Store at -20°C

Shelf Life: 2 years from date of receipt

Product Details:

Cellecta's cDNA cloning and expression vectors are third-generation lentiviral vectors designed to clone and express an ORF or ORFs from a constitutive Pol II promoter or promoters. The plasmid cDNA vectors or generated constructs can be packaged into VSV-G pseudotyped viral particles using most commercially-available second or third-generation packaging mixes or Cellecta's second-generation psPAX2/pMD2.G packaging plasmid mix (Cat# CPCP-K2A).

Catalog #	Description
PRCDMP	pRCDCMRP-CMV-MCS-2A-TagRFP-2A-Puro Lentiviral cDNA Cloning and Expression Vector (Plasmid) 10 µg, 0.5 µg/µl (20 µl × 1 tube)

Lot #s: 190521019
