

SLIDER IFAK POUCH

The TPG BLACK™ Slider Individual First Aid Kit (IFAK) is a two (2) piece design allowing ambidextrous access. The external pouch can be attached to most PAL webbing/platform or used on a belt up to 2.25" wide. Retention and size can be adjusted by the shock cord located on the top and bottom. The shock cord can also be used to secure other items for quick access such as tourniquets. The internal pouch is equipped with pull straps located on both sides and is secured with Velcro brand hook and loop. With various lengths and positions of elastic on the inside, the IFAK can accommodate to the end user's needs.
