

SLIDER IFAK SMALL

The TPG BLACK™ Slider Individual First Aid Kit (IFAK) Small was specifically designed to be a low profile pouch. It has a two (2) piece design allowing ambidextrous access. The external pouch can be attached to most PALS platform or used on a belt up to 2.25" wide and its retention and size can be adjusted by shock cord located on the top and bottom. The shock cord can also be used to secure other items for quick access like tourniquets. The internal pouch is equipped with pull straps located on both sides and is secured with Velcro® hook and loop.
