

Targus®

Pro-Tek Case for iPad®

High performance, shock-absorbing protection

Available for
**New iPad®
2022**
(Gen 10)

Engineered Protection for iPad®

Wrap your iPad in rugged, military grade drop protection. Engineered for durability, this case features a flexible tray with wrap-around bezel and reinforced corners to ward off bumps and dings. Precision cutouts give full access to controls, ports and cameras and the soft textured interior provides a non-slip base for changing your viewing angle and protects your screen from scratches when the device is not in use. The semi-rigid, easy-grip exterior wrap further protects your tablet and fastens with a magnetic closure.

Every case features Military Standard drop protection

The MIL 810G 1.2m/4ft drop protection is a test standard set by the US Department of Defence and is generally accepted as the benchmark for ruggedised protection of mobile computers and equipment.

Tests include:

- 4ft/1.2m drop protection testing, 25 drops on concrete – no device damage
- Dust and water splash tests

*As tested by an independent third party applying MIL-STD-810G, Method 516.6, Procedure IV.

Pro-Tek Case

Available for all iPad® models in a range of different colours

Precision openings

Integrated holder for Apple Pencil® or stylus
(Pencil sold separately by Apple)

Improved audio experience from sound-scoops

Secure magnetic tab closure
