SELLER'S SOLE OBLIGATION AND YOUR EXCLUSIVE REMEDY under this Limited Warranty and, to the extent permitted by law, any warranty or condition implied by law, shall be the replacement of parts, without charge, which are defective in material or workmanship and which have not been subjected to misuse, alteration, careless handling, misrepair, abuse, neglect, normal wear and tear, improper maintenance, or other conditions adversely affecting the Product or the component of the Product, whether by accident or intentionally, by persons other than Seller. Damaged or defective parts and products may need to be sent to WEN before the replacements can be shipped out.

Upon the confirmation of a WEN representative, your product may qualify for repairs and service work. When returning a product for warranty service, the shipping charges must be prepaid by the purchaser. The product must be shipped in its original container (or an equivalent), properly packed to withstand the hazards of shipment. The product must be fully insured with a copy of the proof of purchase enclosed. There must also be a description of the problem in order to help our repairs department diagnose and fix the issue. Repairs will be made and the product will be returned and shipped back to the purchaser at no charge for addresses within the contiguous United States.

THIS LIMITED WARRANTY DOES NOT APPLY TO ITEMS THAT WEAR OUT FROM REGULAR USAGE OVER TIME, INCLUDING BELTS, BRUSHES, BLADES, BATTERIES, ETC. ANY IMPLIED WARRANTIES SHALL BE LIMITED IN DURATION TO TWO (2) YEARS FROM DATE OF PURCHASE. SOME STATES IN THE U.S. AND SOME CANADIAN PROVINCES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, SO THE ABOVE LIMITATION MAY NOT APPLY TO YOU.

SOME STATES IN THE U.S. AND SOME CANADIAN PROVINCES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.

ASSEMBLY & ADJUSTMENTS

1. Attach the cross beams (Fig. 1 - 1) to the end frame posts (Fig. 1 - 2). Before securing the cross beams into place, make sure that the front beams and the back beams align properly to create a level surface. Tap the beams down at both ends with a rubber mallet (not included) to help drive the tabs (Fig. 1 - 3) into the slots (Fig. 1 - 4) on the end frame posts. This will help secure the cross beams to the end frame posts.

NOTE: The levels at which the cross beams are attached to the end frame posts are adjustable, but it is recommended to evenly space the cross beams on the end frame posts to not compromise the stability of the unit.

- **Model RK7724-3** should have three evenly spaced cross beams along the front and three evenly spaced cross beams along the back of the end frame posts, six beams in total.
- **Model RK7724-4** should have four evenly spaced cross beams along the front and four evenly spaced cross beams along the back of the end frame posts, eight beams in total.

2. Use the included shelf support bars to assist with heavy loads. Evenly space three shelf support bars (Fig. 2 - 1) along each level of cross beams (Fig. 2 - 2). Secure into place using the included bolts (Fig. 2 - 3) and hex nuts (Fig. 2 - 4).

- **Model RK7724-3** should have three levels of three evenly spaced shelf support bars, nine support bars in total.
- **Model RK7724-4** should have four levels of three evenly spaced shelf support bars, twelve support bars in total.

3. Once all of the cross beams and support bars have been securely installed, place a wire shelf (Fig. 3 - 1) on each level of cross beams (Fig. 3 - 2). Make sure that the tabs on the wire shelving fit securely into the holes on the cross beams.

- **Model RK7724-3** should have three level wire shelves.
- **Model RK7724-4** should have four level wire shelves.
