

# STRUCTURE

## SCW 1 FOUNDATION SERIES LIMITED EDITION

Structure Cycleworks has created a completely innovative bike design that Bike Radar named the most anticipated mountain bike of 2018. The SCW 1 not only revolutionizes mountain bike design with enhanced linkage fork suspension, but creates huge performance advantages that the industry has not seen since Gary Fischer launched the RS-1 twenty-six years ago. The WTF front suspension platform solves performance issues inherent to all telescopic suspension forks. The SCW 1 offers enhanced stability, reduced dive, improved braking performance, and unparalleled bump handling.

### DRIVE TRAIN

Chain	SRAM Eagle XX1
Bottom Bracket	SRAM DUB
Crankset	SRAM Eagle XX1
Shift Lever	SRAM Eagle XX1
Cassette	SRAM Eagle XX1
Chainring	Eagle 32T, non-Boot (better chainline)
Rear Derailleur	SRAM Eagle XX1

### SUSPENSION

Front Shock	DVO Topaz T3AIR Trunnion
Rear Shock	DVO Topaz T3AIR Trunnion

### COCKPIT

Saddle	WTB Volt Pro
Seat Post	OneUp
Stem	Renthal Apex 6° drop
Handlebar	Race Face Next R
Grips	Race Face Half Nelson
Head set: Upper & Low	Cane Creek

### WHEELS & TIRES

Front Hub	DT Swiss 240
Rear Hub	DT Swiss 240, 36-spline
Tubes	Tubeless Kit
Spokes	Sapim CX-Ray
Rims	WeAreOne Carbon
Front Tire	Maxxis Minion DHF 3C, 2.6"
Rear Tire	Maxxis Aggressor 3C, 2.5"

### BRAKES

Front Brakes	Magura MT7
Rear Brakes	Magura MT7
Front Rotor	Magura Storm - 203 mm
Rear Rotor	Magura Storm - 180mm

### FRAMESET

Frame	Carbon Fiber
Bearings	Sealed Cartridge with sealed caps
Colour	Gold and Matte Black
