

# NECKLACE SIZING GUIDE

## FIND THE PERFECT FIT

1. Use an existing necklace and flexible tape measurer to determine the length. Be sure to measure from clasp to clasp.
2. Use the below chart and illustration as a reference. Please remember necklace lengths will sit differently on each person depending on neck and chest measurements.

LENGTH (IN)	LENGTH (CM)	FIT
14	35.6	Fits most like a choker
16	40.6	Falls perfectly around the base of the neck like a collar. On a petite woman, it will hit your collarbone while for plus size women it might feel more like a choker.
18	45.7	A common choice for women that will fall just below the throat at the collarbone. This length is popular for adding pendants which will hang over a crew neck.
20	53.3	Will fall a few inches below the collarbone and allow a little more breathing room. Perfect for a low, plunging neckline or if you want to wear it over a turtleneck.
22	61.0	Falls at or above a low neckline.
24	91.4	Falls below any neckline.
36	106.7	Falls below the bosom. They can be worn as a single strand or you can double them for an 18-inch necklace.
