

RING SIZING GUIDE

FIND THE PERFECT FIT

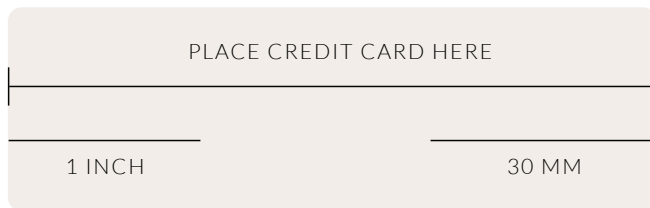

We created this guide to help you determine your size but we highly recommend getting sized by a local jeweler or purchasing a Ring Sizer

This size guide must be printed on 8.5" x 11" paper

Before printing, check that the page scaling is set to 100% or "none"

Use a credit card to ensure the guide's scale is accurate

For any questions, contact our team at info@kellybellodesign.com

MEASURE A CURRENT RING

1. Print this guide with page scaling set to 100%
2. Select a ring that properly fits the intended finger
3. Lay the ring over the size circles until you are able to match the inside edge of the ring to one of the circles on the guide
4. If the ring falls between two sizes, we recommend ordering the larger size or the quarter size between sizes

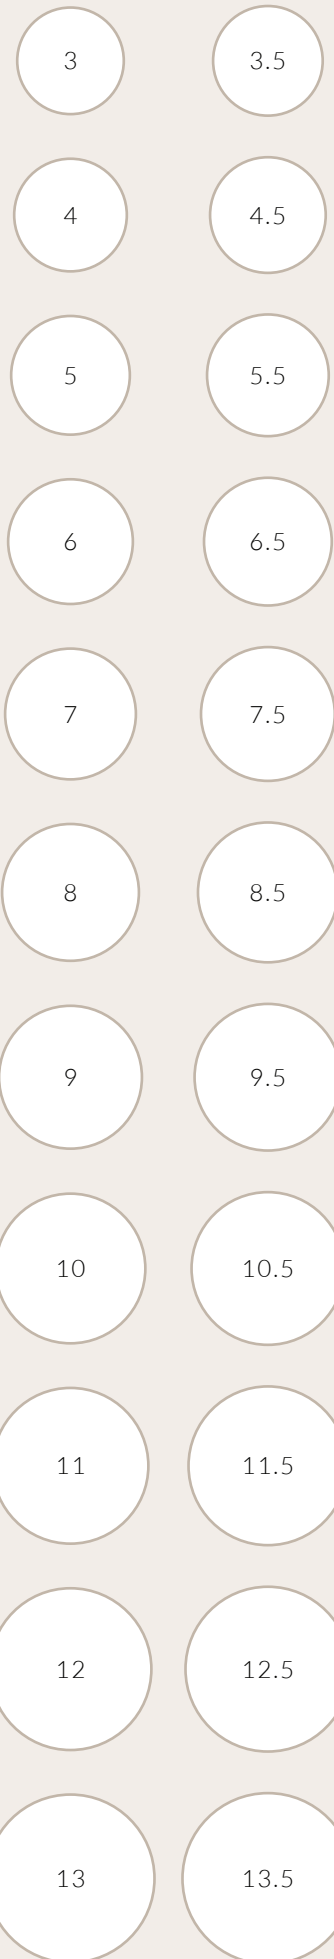

**We recommend adding .25 if you are ordering a chain ring*

CREATE A RING SIZER

1. Cut out the ring sizer and cut a slit on the vertical line
2. Wrap the sizer around the base of your finger so that the numbers are visible to you
3. Pull the angled end through the slit until the paper fits comfortably around the finger
4. Your ring size is the number that lines up with the slit!

**We recommend adding .25 if you are ordering a chain ring*
