

Calista

The benchmark for canopies:
a revolutionary flat roof

Enhance your outdoor ambience with the comfort of Calista

A garden provides a sanctuary of calm and tranquillity, a refuge from the hustle and bustle of everyday life. At Skylux, we place immense importance on fully utilising this outdoor space. Thanks to our Calista canopy, you can enjoy the beauty of your garden throughout the year, surrounded by loved ones, while experiencing indoor comfort.

With Calista, you will enjoy a spacious outdoor area where you can unwind, dine, and socialise with elegance. The canopy is distinguished by:

- The perfect combination of elegance and durability;
- A complete configuration, tailored to each construction scenario;
- Easy integration of accessories, even after installation;
- The choice between Pergotop or glass;
- A quick and effortless assembly;
- A sleek and contemporary look.

More space for your home:
enjoy extended comfort and
experience outdoor living!

1 Technological excellence

Our roof has been carefully designed with an eye for detail. The seamless design perfectly adapts to all construction situations, with invisible profiles and discreetly concealed screws. The watertight installation does not require the use of silicone. Moreover, the internal electrical facilities remain conveniently accessible, irrespective of the accessories that are installed. The structural integrity is enhanced by the option to install a concealed reinforcement beam, which can double the load-bearing capacity. This allows span lengths between 6 and 7 metres without intermediate posts.

2 Sleek design

With Calista, you can add contemporary design and functionality to your home. The canopy stands out for its flexible adaptability to various construction situations and the seamless incorporation of accessories. The optional vertical screens are even fully integrated and perfectly guided. The glazing is supported by slender horizontal rafters, giving the canopy a sleek and harmonious appearance.

3 Less work on site

The canopy is designed with a high degree of pre-assembly, providing substantial advantages for those installing it. This saves time on site, which translates into less costs and working hours for the end customer. A Calista measuring 5 by 4 metres can be installed in just a single day. This leads to a lower total cost of ownership.

4 Extensive personalisation options

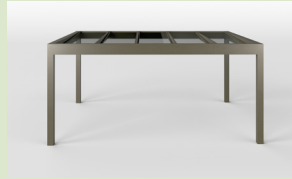

The base roof has excellent compatibility with a variety of accessories such as integrated LED strips and/or spotlights, built-in wooden and glass walls, glass sliding walls, and vertical or horizontal screens. Choose your favourite accessories and add comfort, privacy and atmosphere to your canopy.

5 Choice between glass or Pergotop panels

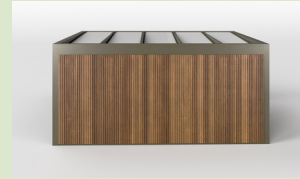

You can choose to finish the roof with 8 or 10 mm glass or 16 mm Pergotop panels. The Pergotop panels are sandwich panels made of extruded expanded polystyrene, glued between two pre-painted aluminium sheets.

Configurations

• basic roof with glazing

• wooden wall + Pergotop

• sunblind

• glass wall + post + Pergotop

• Climaglide

• sunblind + Climaglide + Pergotop

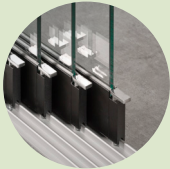

• glass wall

• wooden wall + window + post

Accessories

GLASS SLIDING WALL

The glass sliding elements protect your outdoor area from the elements, preserving your cherished moments from the unpredictability of spring or the chill of the evening air.

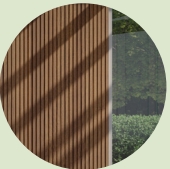

VERTICAL AND HORIZONTAL SUNBLINDS

With the aid of a sunblind, you gain complete control over the indoor environment, allowing you to create shaded areas for enhanced privacy.

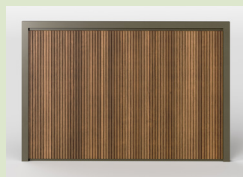

LED SPOTLIGHTS OR LED STRIP

Create a cosy atmosphere thanks to the LED spotlights or the LED strip.

KOZMA: DECORATIVE WALL

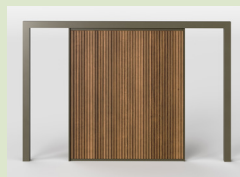

An integrated wall system that allows for a mix of wood, glass, Pergotop, or a doorway according to your preference. Perfect for creating a cosy atmosphere. The possible combinations:

• wooden wall

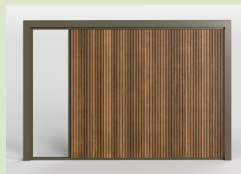

• opening + wooden wall

• opening + wooden wall + opening

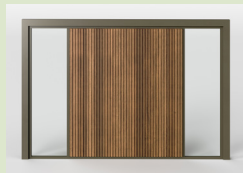

• wooden wall + opening

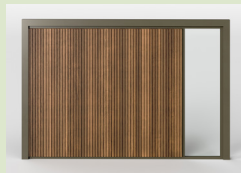

• window + wooden wall

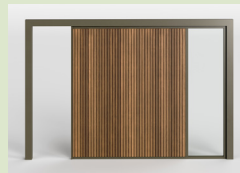

• window + wooden wall + opening

• window + wooden wall + window

• wooden wall + window

• opening + wooden wall + window
