## Useful information for quick rate use

A patio roof offers a perfect solution for extending your home. Our range consists of both non-self-supporting profiles for use on a timber structure and of self-supporting aluminium profiles.

### Self-supporting or non-self-supporting (p. 10-89)

Self-supporting profile systems (p. 10-74) require no extra support from wood or metal. We offer a wide selection through Climalux, Climalux Horizon, Climacrown, Climax and Climax Panorama.

The non-self-supporting systems (p. 75-89) are supported by timber or metal joists. Our range of Pergolux systems offers a wide selection of possibilities for any type of glazing.

### Thermal or non-thermal

Thermal profiles are ideal for closed structures. These profiles are thermally insulated and prevent condensation. Among the self-supporting systems, the Climax roof offers these thermal qualities, as do the Pergolux Therm, Pergolux Color-Therm and Pergolux Color-Therm Glass among the non-self-supporting systems.

Non-thermal profiles are suitable for open structures where there is no temperature difference between the inside and outside areas, as with verandas. The self-supporting systems Climalux, Climalux Horizon, Climacrown, Climax non-thermal and Climax Panorama can be used for this purpose. For non-self-supporting applications, the Pergolux series Alu and Color and the D series offer a good solution.

### Glazing

Our veranda roofs can be fitted with multi-walled plastic sheets – 16 or 32mm thick – in polycarbonate (Polyclear) or acrylic (PLEXIGLAS®) and/ or glass – 8 or 10mm thick laminated glass or thermal glass up to a maximum of 34mm thick – and/or sandwich panels (Pergotop-Soft).

### Broad range of options

Apart from traditional rectangular pitched roofs, our systems also offer the possibility of implementing L shaped or differently shaped roofs (roofs around a corner, a recess for a balcony, etc.) or also applications with sloping sides. Certain systems can also be used to construct a gable roof.

### Colours

Skylux patio roofs are available in different RAL colours. See pages 8-9.

### Price lists

**This price list is published yearly. Any intermediate price changes are updated in the online version of this price list (see [www.skylux.eu](http://www.skylux.eu)).**

### Components price list

You will find a complete list with names, drawings and prices for all Pergolux parts and accessories: see p. 80-89. For a more detailed list of parts and accessories for all self-supporting systems: see p. 44-63.

### Quick price calculator

This price list also contains 'quick calculators' for a number of veranda roofing systems. They enable you to quickly know the price for a number of standard sizes in a particular combination of profiles. **Please note: these prices are indicative and not binding. The plastic sheets are not included in the price.** You will find these quick price calculators on the following pages:

- Climalux: p. 12-19
- Climalux standard roofs: p. 16-17
- Climalux Horizon: p. 22-23
- Climacrown: p. 28-29
- Climax Panorama: p. 34-37
- Climax thermal: p. 42-43

### Tips

**Download our Climafast & Pergofast calculation programmes ([www.skylux.be/calculations](http://www.skylux.be/calculations)) to produce quick and accurate quotations. Use our order forms to place your orders.**

## Terms and conditions of sale

- We explicitly refer you to our general terms and conditions of sale, technical sheets and installation manuals.
- Prices are in EUR, gross and excluding VAT.
- Delivery duty paid from EUR 300 net value in Belgium, the Netherlands, Northern France and Germany (Ruhr); transport costs of EUR 50 are charged for deliveries of less than EUR 300 net value.
- This rate supersedes all previous rates.
- This price list was compiled with the utmost care. However, we cannot be held liable for any printing or calculation errors, nor for price fluctuations.
- You will always find the latest prices on our website [www.skylux.eu](http://www.skylux.eu).

# Profile systems

## Self-supporting profile systems

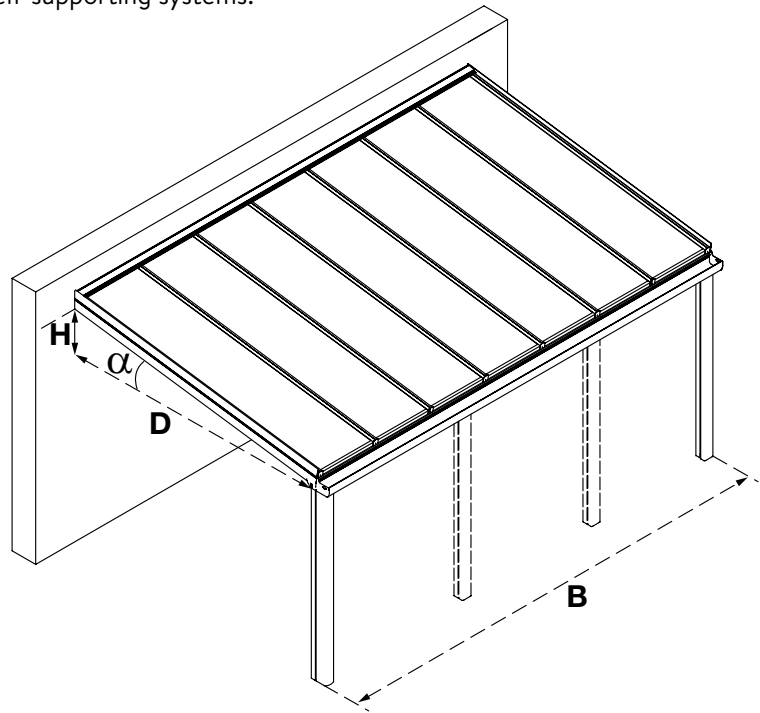

There is a wide and multi-faceted range of self-supporting systems:

- Climalux (p. 10)
- Climalux Horizon (p. 20)
- Climacrown (p. 26)
- Climax Panorama (p. 32)
- Climax thermal (warm) (p. 40)

Ask for our Climafast calculation tool to produce quick quotations

Use our order forms to place your orders.

## Non-self-supporting profile systems

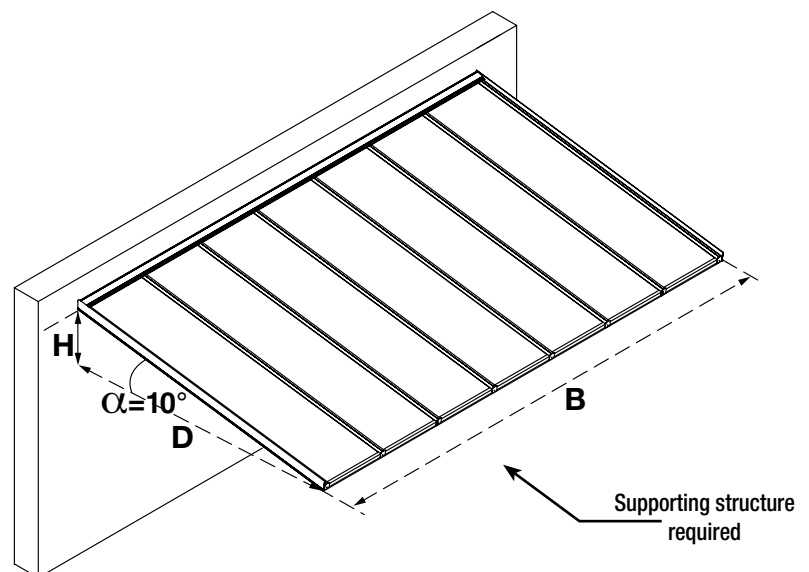

We offer a wide range of non-self-supporting profile series under the brand name Pergolux (see p. 51 to 65):

- Pergolux D-Serie (p. 76-77)
- Pergolux standard series (p. 78-79)

Ask for our Pergofast calculation tool to produce quick quotations

Use our order forms to place your orders.

SELF-SUPPORTING

COLD ROOFS  
Non-thermal profile system

CLIMALUX

- profiles made to fit
- some standard sizes are already prepacked in stock
- for 16 and 32mm plastic sheets or 8 and 10mm glass
- maximum depth of 5.5m
- the roof pitch varies between 2° and 10° and starting from 5° with multi-walled sheets
- optional roof overhang
- optional freestanding roof
- optional LED spotlights with mounting profile
- easy installation
- CE certified in accordance with EN 1090-3

CLIMALUX HORIZON

- profiles made to fit
- new gutter for pan lengths up to 6m with just two support posts
- sleek and contemporary design
- for 16 and 32mm plastic sheets or 8 and 10mm glass
- maximum depth of 5.5m
- the roof pitch varies between 2° and 10° and starting from 5° with multi-walled sheets
- optional freestanding roof
- optional LED spotlights with mounting profile
- easy installation
- CE certified in accordance with EN 1090-3

CLIMACROWN

- profiles made to fit
- elegant crown profile on the front and on the sides
- sleek and contemporary design
- for 16 and 32mm plastic sheets or 8 and 10mm glass
- maximum depth 4m
- roof pitch of 2° and starting from 5° with multi-walled sheets
- optional freestanding roof
- optional LED spotlights with mounting profile
- easy installation
- CE certified in accordance with EN 1090-3

NON-SELF-SUPPORTING

COLD ROOFS  
Non-thermal profile system

PERGOLUX ALU

A system with aluminium profiles and standard grey coextruded rubber strip

- extensive range of standard lengths
- for 16mm and 32mm thick plastic sheets
- only available in mill finished aluminium
- variable pitch
- simple construction and installation

PERGOLUX COLOR

A system with coated aluminium profiles and white coextruded rubber strips

- extensive range of standard lengths
- for 16mm and 32mm thick plastic sheets
- variable pitch
- simple construction and installation

PERGOLUX D-SERIES

A system with non-self-supporting aluminium profiles and standard grey coextruded rubber strips

- extensive range of standard lengths
- for 16mm thick plastic sheets or glass (glass only in combination with bottom rubber strips)
- only available in mill finished aluminium
- optional alu covering clips to hide screw heads (also available in white)
- variable pitch
- simple construction and installation

\* SKYLUX PATIO ROOFS ARE AVAILABLE

PROFILE SYSTEMS

HOT ROOFS  
Thermal profile system

CLIMAX PANORAMA

- gutter span up to 7m with just two support posts
- integrated LED lighting in the gutter possible
- profiles made to size and pre-assembled
- for 16 or 32mm thick plastic sheets or for 8 or 10mm thick glass
- maximum depth of 5.5m
- the roof pitch varies between 2° and 20° and starting from 5° with multi-walled sheets
- optional freestanding roof
- option for Climaled profile with LED spotlights under the supports
- various construction methods available
- CE certified in accordance with EN 1090-3

CLIMAX THERMAL

- gutter span up to 7m with just two support posts (when using the raised gutter post GD2)
- profiles made to size and pre-assembled
- for 16 or 32mm plastic sheets or glass up to 34mm thick
- maximum depth 5.5m
- variable pitch from 5° to 45°
- option for Climaled profile with LED spotlights under the supports
- various construction methods available
- CE certified in accordance with EN 1090-3

PROFILE SYSTEMS

HOT ROOFS  
Thermal profile system

PERGOLUX  
COLOR-THERM

Thermal profile system with aluminium clips in coated version

- extensive range of standard lengths
- for 16mm and 32mm thick plastic sheets
- variable pitch
- simple construction and installation

PERGOLUX  
COLOR-THERM GLASS

Thermal profile system for glass with aluminium screw clips

- extensive range of standard lengths
- for glass of 8 to 34mm thick
- variable pitch
- simple construction and installation

IN DIFFERENT RAL COLOURS. SEE PAGES 8-9.

## SELF-SUPPORTING NON-THERMAL PROFILE SYSTEM (cold roof)

### CLIMALUX

Climalux is the basic version of the Climax profile range and is primarily used as a patio roof or canopy. A roof overhang is also possible.

This self-supporting profile system is supplied made-to-measure and can be installed very quickly. The Climalux roof is self-supporting up to 5.5m in width between two posts, with 16mm plastic sheets (with a depth of 3m). It is self-supporting up to 5.5m in depth. The roof pitch varies between 2° and 10° and starting from 5° with multi-walled sheets.

Climalux can be built with or without roof overhang. A roof overhang of maximum 550mm is possible.

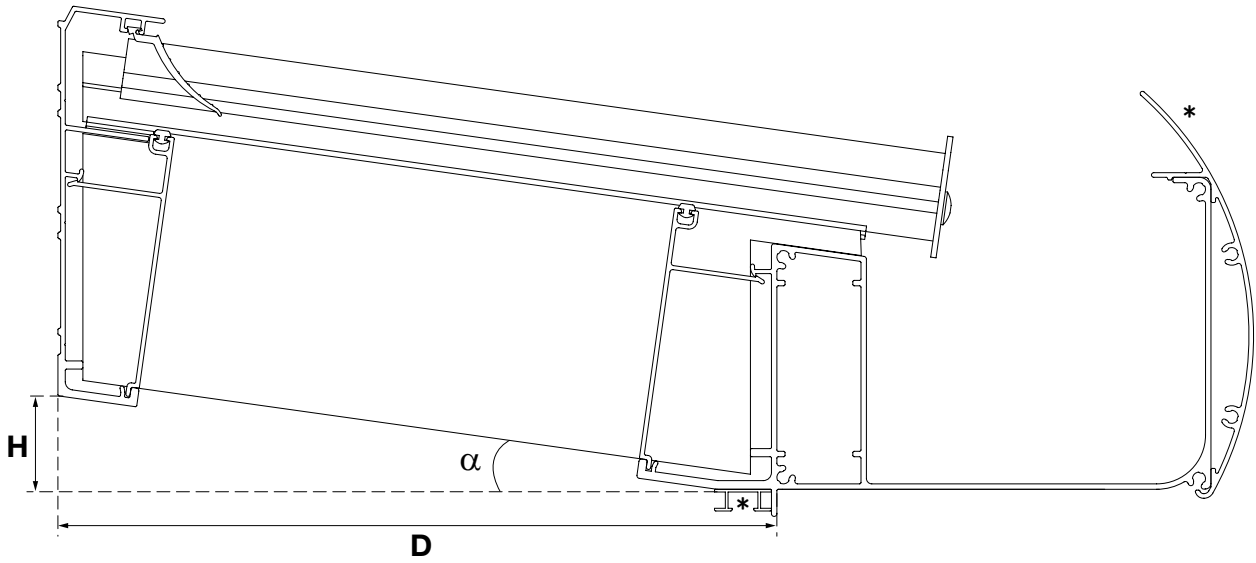

- 2 standard RAL colours: white RAL 9010 & anthracite RAL 7016 ST. Delivery time: max. 3 weeks.
- 8 “trend” RAL colours: cream white RAL 9001, black RAL 9005 ST, white aluminium RAL 9006 ST, grey aluminium RAL 9007 ST, RAL 9009 ST (DB703), RAL 9010 ST, purple red RAL 3004 ST & RAL 7039 ST. Surcharge: € 200 net. Delivery time: on request.
- Other RAL-colours: see p. 8 & 9 (price on request). Delivery time: on request.

The Climalux veranda roof can also be installed with 8 to 10mm glass (not supplied by Skylux).

Climalux can also be fitted with Climaled (see p. 74).

**Important: some standard sizes (for multi-walled plastic sheets) are already prepacked in stock and can be delivered within a week of the order date (see p. 16).**

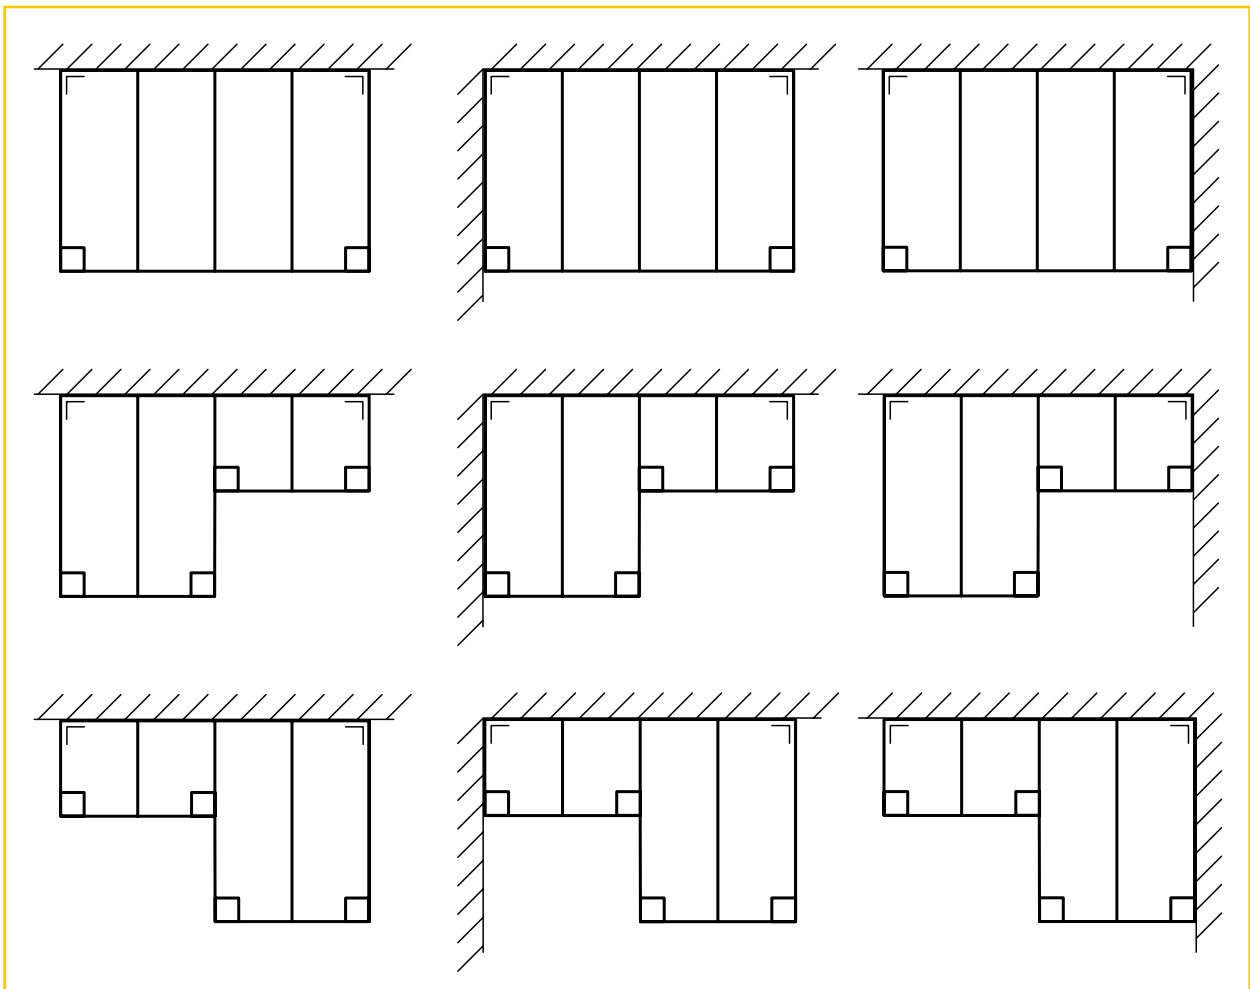

\* Softline gutter top piece and LED Strips optional

### Options

- Width B: ∞
- Depth D: max. 5.5m
- The roof pitch  $\alpha$  varies between 2° and 10° and starting from 5° with multi-walled sheets

## Quick calculator Climalux without roof overhang

Info:

- Aluminium profile system with Classic gutter and aluminium push clips
- 2, 3 or 4 posts 110 x 141 x 2500mm are included in the price
- The roof pitch varies between 2° and 10° and starting from 5° with multi-walled sheets
- 2 standard RAL colours: white RAL 9010 & anthracite RAL 7016 ST – delivery time: max. 3 weeks.
- 8 “trend” RAL colours: cream white RAL 9001, black RAL 9005 ST, white aluminium RAL 9006 ST, grey aluminium RAL 9007 ST, RAL 9009 ST (DB703), RAL 9010 ST, purple red RAL 3004 ST & RAL 7039 ST – surcharge: € 200 net – delivery time: on request.
- Other RAL colours: see p. 8 & 9 (price on request) – delivery time: on request.
- Plastic sheets or glass not included in the price
- Maximum deflection of the profiles: 1/200
- Drainpipe and accessories included

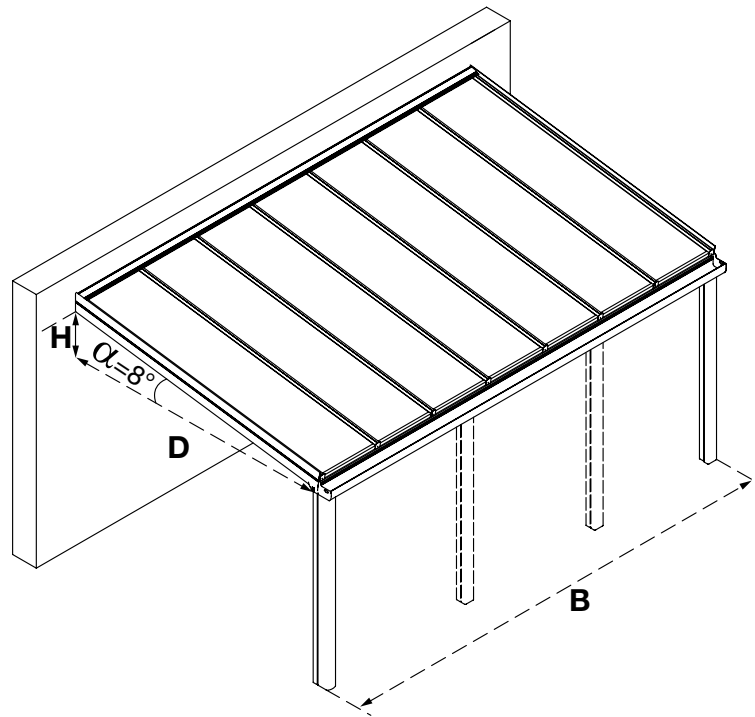

Calculate the price as follows:

- Measure the roof’s width B (mm) and depth D (mm).
- Select the next size up in the table and read off the prices of the profiles.
- Multiply the sheet or glass area, indicated in the same box, by the price/m<sup>2</sup> of the sheet or the glass (not supplied by Skylux).

Surcharge/post for post 150 x 150mm		€ 210	€ 262		

## Quick calculator Climalux without roof overhang freestanding roof

A Climalux roof system can also be installed as a freestanding patio roof instead of against a wall. A freestanding patio roof does not need any supporting walls and can be placed anywhere in your garden. As with all Climalux systems, the detached version combines with plastic sheets (16 or 32mm) or glass. To guarantee the stability of a freestanding patio roof, the posts must be concreted into the ground according to our instructions.

### For 16mm sheets without roof overhang – freestanding

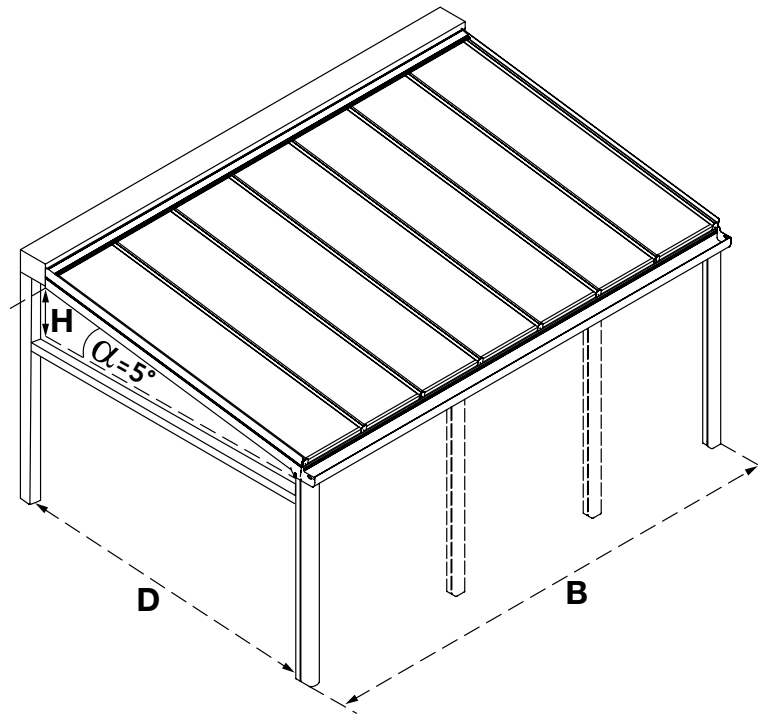

CLIMALUX CLASSIC FREESTANDING prepared for 16mm thick and 980mm wide multi-walled sheets (650N/m <sup>2</sup> snow load & 5° pitch)

## Quick calculator Climalux with roof overhang

Info:

- Aluminium profile system with Classic gutter and aluminium push clips
- 2, 3 of 4 posts 110 x 110 x 2500mm are included in the price
- 2 standard RAL colours: white RAL 9010 & anthracite RAL 7016 ST. Delivery time max. 3 weeks
- 8 “trend” RAL colours: cream white RAL 9001, black RAL 9005 ST, white aluminium RAL 9006 ST, grey aluminium RAL 9007 ST, RAL 9009 ST (DB703), RAL 9010 ST, purple red RAL 3004 ST & RAL 7039 ST. Surcharge: € 200 net – delivery time: on request
- Other RAL colours: see p. 8 & 9 (price on request) – delivery time: on request
- Plastic sheets or glass not included in the price
- Maximum deflection of the profiles: 1/200
- Drainpipe and accessories included
- A roof overhang of max. 550mm is possible

Calculate the price as follows:

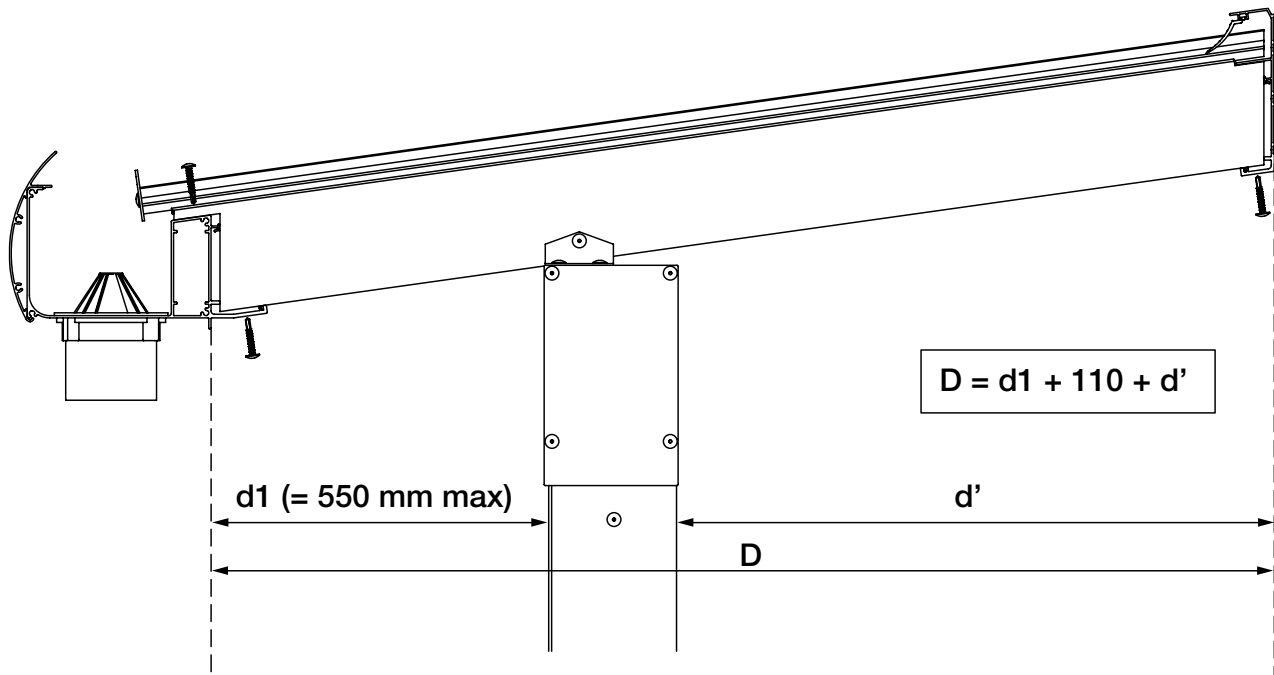

- Measure the roof’s width B (mm) and depth D (mm).
- Select the next size up in the table and read off the prices of the profiles.
- Multiply the sheet or glass area, indicated in the same box, by the price/m<sup>2</sup> of the sheet or the glass (not supplied by Skylux).

## SELF-SUPPORTING NON-THERMAL PROFILE SYSTEM (cold roof)

### CLIMALUX HORIZON

- Sleek and contemporary design
- A wide view at an affordable price
- Span length of up to 6 metres depending on the snow load, depth and chosen glazing
- No visible screws and bolts on the outside

Climalux Horizon is made to fit and easy to install. The profile system is self-supporting thanks to the integration of the GXLX gutter. Span lengths up to 6 metres are possible, depending on the snow load, depth and glazing.

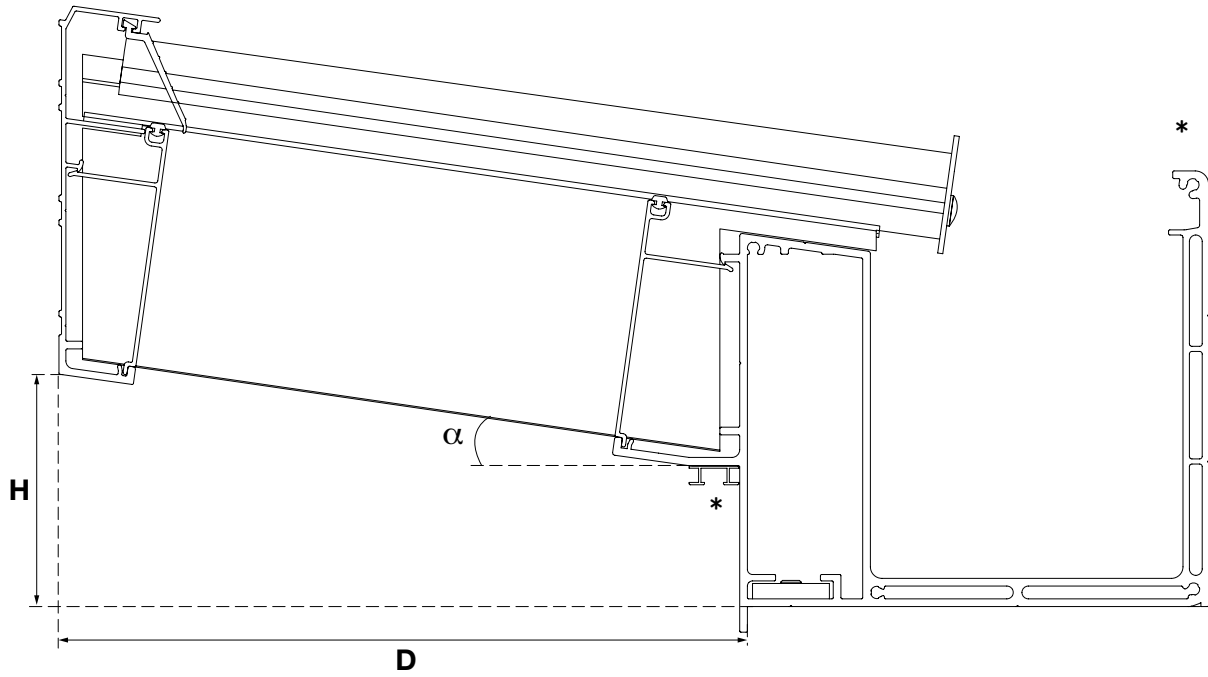

Example: the span length measures 5 metres for a glass roof of 4 metres deep with a snow load of 850N/m<sup>2</sup>. The patio roof can be even wider if you choose a smaller depth or plastic sheets.

The roof slope varies between 2° and 10° and starting from 5° with multi-walled sheets and is fitted for single glazing (8 or 10mm) or 16 or 32mm plastic sheets. Combining the Climalux Horizon with a roof overhang or Climacrown is not possible.

Having no intermediate posts, the budget-friendly Climalux Horizon offers you a great and undisturbed garden view. Additionally, the profile system itself has a sleek and contemporary design (no visible screws or bolts on the outside, modern looking gutter and post, fitted sealing plates, etc.).

- 2 standard RAL colours: white RAL 9010 & anthracite grey RAL 7016 ST. Delivery time: max. 3 weeks.
- 8 “trend” RAL colours: cream white RAL 9001, black RAL 9005 ST, white aluminium RAL 9006 ST, grey aluminium RAL 9007 ST, RAL 9009 ST, RAL 9010 ST, purple red RAL 3004 ST & RAL 7039 ST.  
Fixed surcharge: € 200 net. Delivery time: on request.
- Other RAL colours: see p. 8 & 9 (price on request). Delivery time: on request.

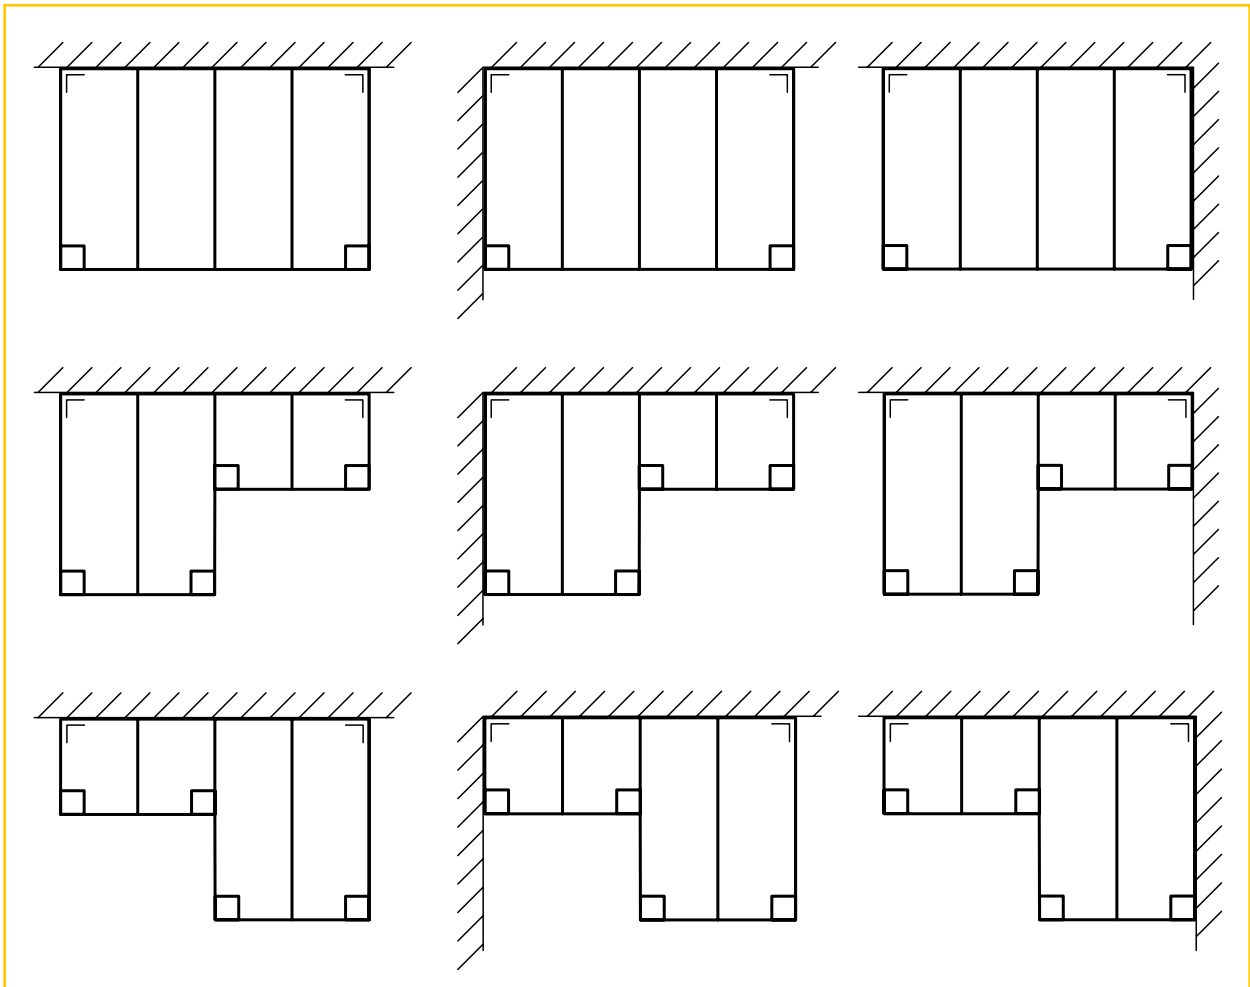

\* LED Stripes as an option

### Options

- Width B:  $\infty$
- Depth D: max. 5.5m
- The roof pitch  $\alpha$  varies between 2° and 10° and starting from 5° with multi-walled sheets

## Quick calculator Climalux Horizon

Info:

- Aluminium profile system with XL gutter and aluminium clips
- 2 or 3 posts are included in the price
- Two-piece posts 150 x 177 x 2500mm, drainpipe and accessories are included
- 2 standard RAL colours: white RAL 9010 & anthracite RAL 7016 ST – delivery time: max. 3 weeks.
- 8 “trend” RAL colours: cream white RAL 9001, black RAL 9005 ST, white aluminium RAL 9006 ST, grey aluminium RAL 9007 ST, RAL 9009 ST (DB703), RAL 9010 ST, purple red RAL 3004 ST & RAL 7039 ST – surcharge: € 200 net – delivery time: on request.
- Other RAL colours: see p. 8 & 9 (price on request) – delivery time: on request.
- Plastic sheets or glass not included in the price
- Maximum deflection of the profiles: 1/200

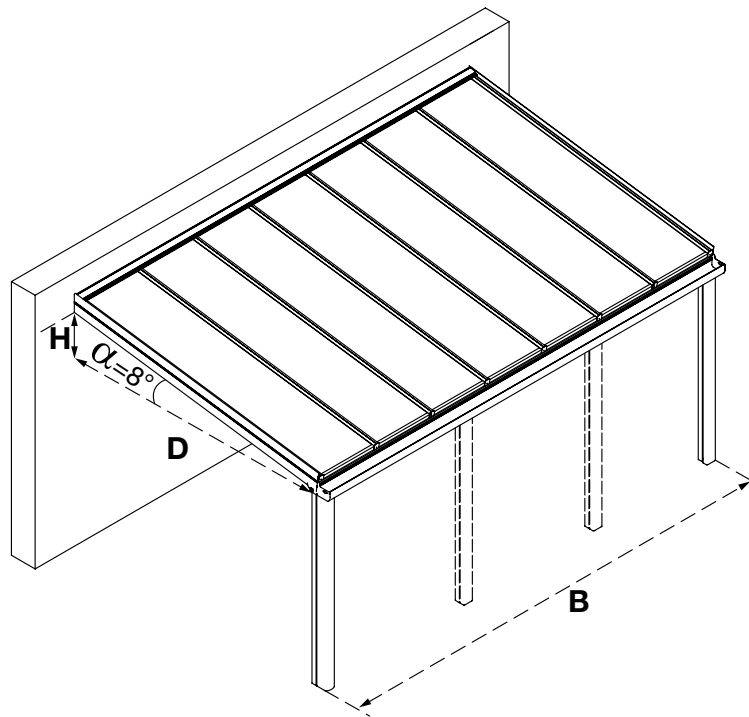

Calculate the price as follows:

- Measure the roof’s width B (mm) and depth D (mm).
- Select the next size up in the table and read off the prices of the profiles.
- Multiply the sheet or glass area, indicated in the same box, by the price/m<sup>2</sup> of the sheet or the glass (not supplied by Skylux).

Roof systems with glass are now also available with a slope of 2°. Prices can be calculated on request with Climafast.

## Quick calculator Climalux Horizon freestanding roof

A Climalux Horizon roof system can also be installed as a freestanding patio roof instead of against a wall. A freestanding patio roof does not need any supporting walls and can be placed anywhere in your garden. As with all Climalux systems, the detached version combines with plastic sheets (16 or 32mm) or glass. To guarantee the stability of a freestanding patio roof, the posts must be concreted into the ground according to our instructions.

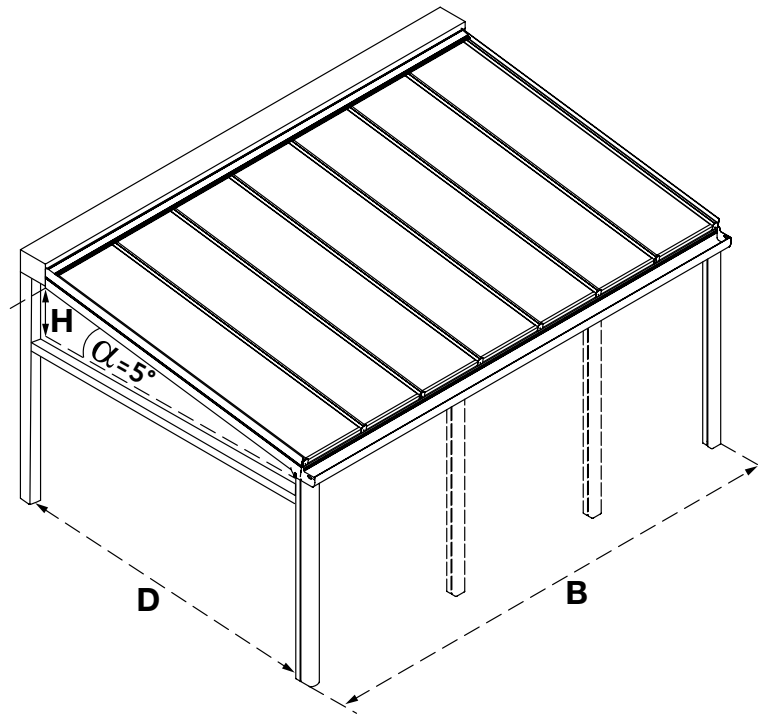

### For 16mm plastic sheets – freestanding

CLIMALUX HORIZON FREESTANDING prepared for 16mm thick and 980mm wide multi-walled sheets (650N/m <sup>2</sup> snow load & 5° pitch)

Roof systems with glass and sandwich panels are now also available with a slope of 2°. Prices can be calculated on request with Climafast.

## SELF-SUPPORTING NON-THERMAL PROFILE SYSTEM (cold roof)

### CLIMACROWN ROOF (cold roof)

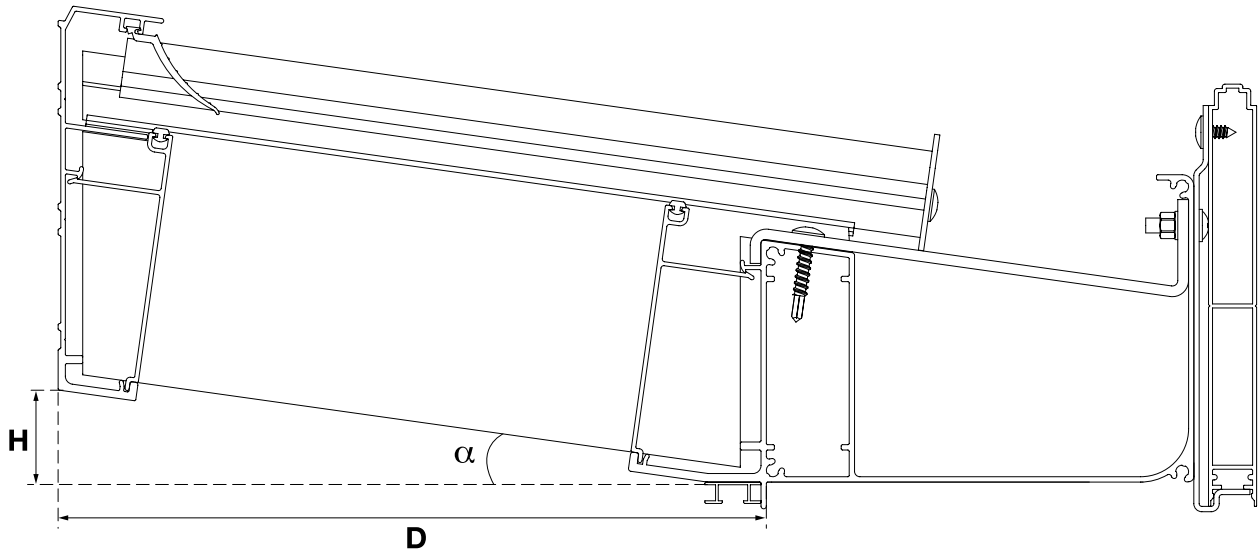

If you are drawn to the modern flat roof with the advantage of a sloping roof for water drainage, the Climacrown won't disappoint.

The Climacrown is based on the Climalux profiles, with a modular crown profile as an extra feature. The crown profile can be provided with LED lighting (optional).

This self-supporting profile system is completely made to size and is easily installed. The Climacrown roof can be provided with 16 or 32mm plastic sheets or glass of 8 or 10mm (not supplied by Skylux). Climacrown is preferably used with a pitch of 2° and starting from 5° with multi-walled sheets.

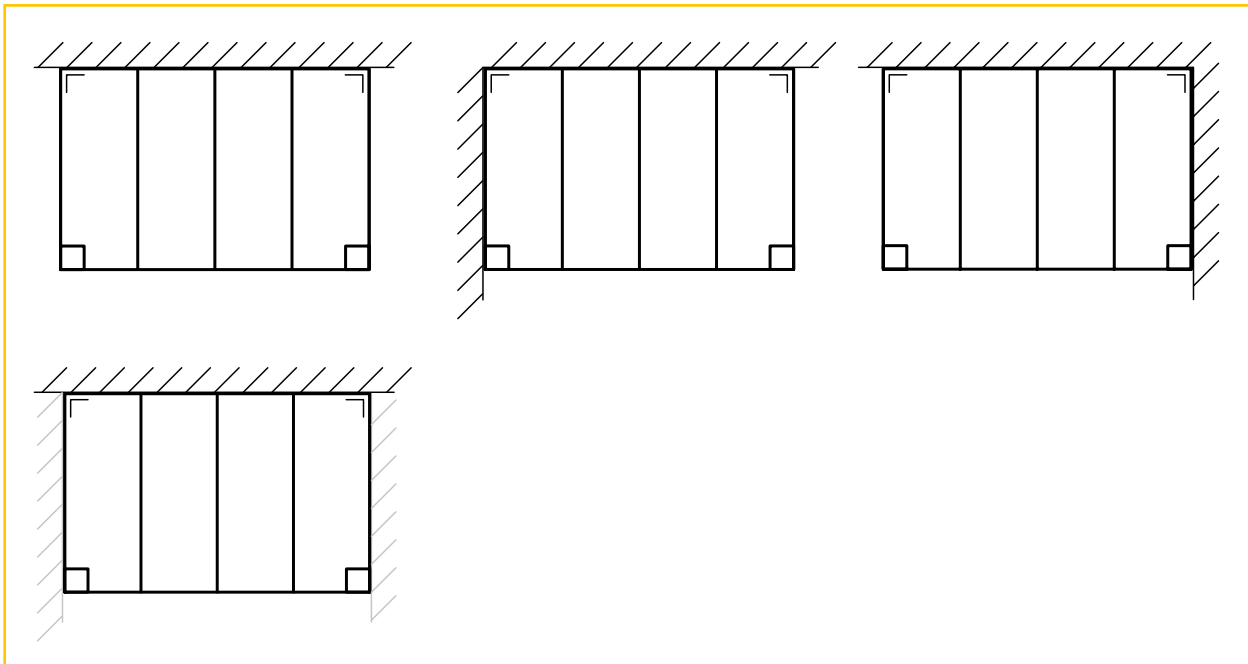

- 2 standard RAL colours: white RAL 9010 (code RWB964) and anthracite RAL 7016 ST (code 029/71334). Delivery time: max. 3 weeks.
- 8 "trend" RAL colours: cream white RAL 9001 (code AE70019220225), black RAL 9005 ST (code AE03054900520), white aluminium RAL 9006 ST (code 029/90146), grey aluminium RAL 9007 ST (code 029/90147), RAL 9009 ST (DB703) (code 029/80077), RAL 9010 ST (code AE03059901020), purple red RAL 3004 ST (code AE03053300420) & RAL 7039 ST (code AE03057703920). Surcharge: € 200 net. Delivery time: on request.
- Other RAL colours: see p. 8 & 9 (price on request). Delivery time: on request.

### Options

- Width B: max. 7m
- Depth D: max. 4m
- Roof pitch  $\alpha$  2° and starting from 5° with multi-walled sheets

## Quick calculator Climacrown

Info:

- Aluminium profile system with Classic gutter and aluminium push clips
- 2 or 3 posts 150 x 150 x 2500mm are included in the price
- Roof pitch 2° and starting from 5° with multi-walled sheets
- 2 standard RAL colours: white RAL 9010 (code RWB964) and anthracite grey RAL 7016 ST (code 029/71334) – delivery time: max. 3 weeks
- 8 “trend” RAL colours: cream white RAL 9001, black RAL 9005 ST, white aluminium RAL 9006 ST, grey aluminium RAL 9007 ST, RAL 9009 ST (DB703), RAL 9010 ST, purple red RAL 3004 ST & RAL 7039 ST – surcharge: € 200 net – delivery time: on request
- Other RAL colours: see p. 8 & 9 (price on request) – delivery time: on request
- Plastic sheets or glass not included in the price
- Maximum deflection of the profiles: 1/200
- Drainpipe and accessories included
- The crown profile is modular and the profiles are max. 7 meters long
- Height of the crown profile depends on the roof’s depth and is built in stages of 75mm
- We also deliver all profiles and assembly accessories
- There are no visible screws on the outside of the crown profile
- LED lighting can be provided in the Climacrown

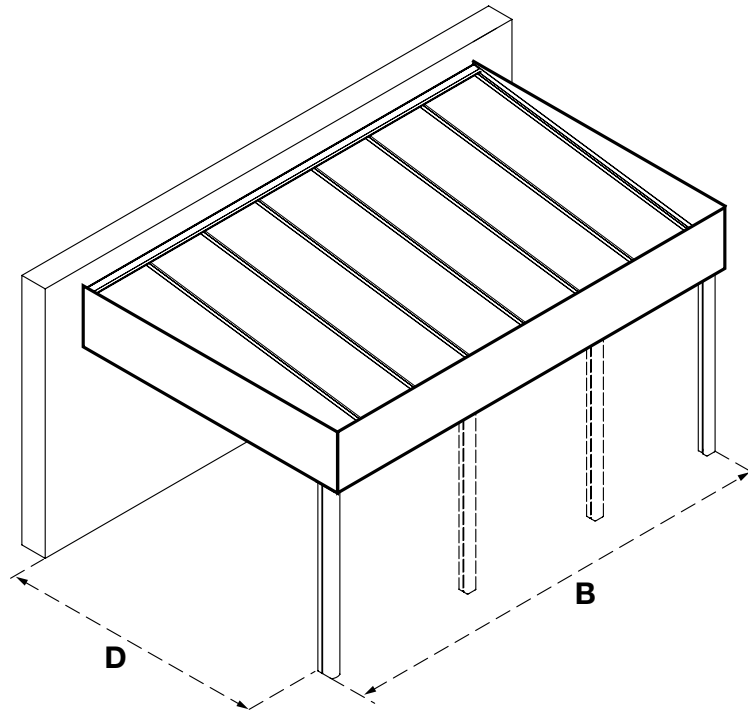

Calculate the price as follows:

- Measure the roof’s width B (mm) and depth D (mm).
- Select the next size up in the table and read off the prices of the profiles.
- Multiply the sheet or glass area, indicated in the same box, by the price/m<sup>2</sup> of the sheet or the glass (not supplied by Skylux).

### For 16mm sheets

CLIMALUX with CLIMACROWN prepared for 16mm thick and 980mm wide multi-walled sheets (650N/m <sup>2</sup> snow load & pitch 5°)						
Width ‘B’ (in mm) → ↓ Depth ‘D’ (in mm)	3000	4000	5000	6000	7000	Climacrown height

4350 (4500mm incl. support)	€ 844	€ 844	€ 931	€ 964	€ 1008	610mm

## Quick calculator Climacrown freestanding roof

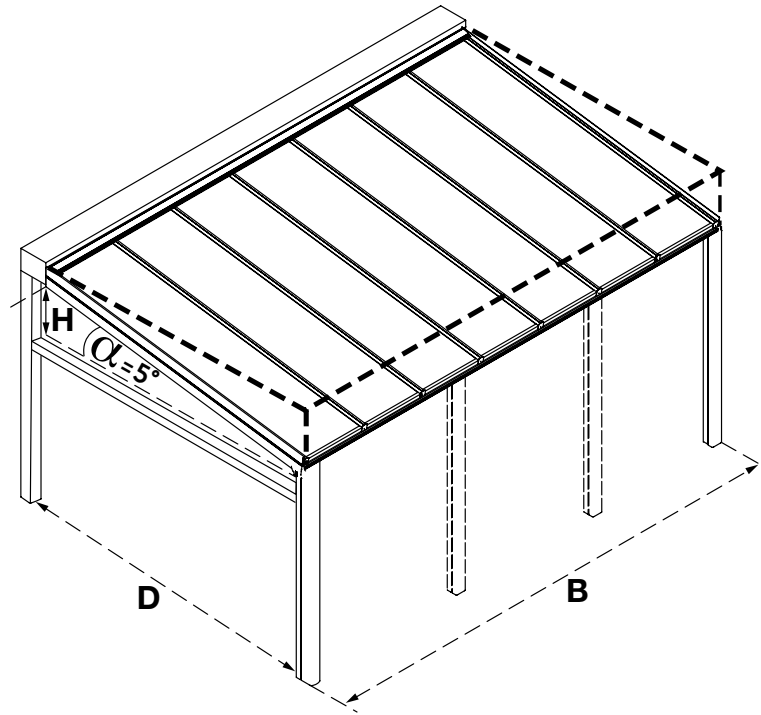

A Climacrown roof system can also be installed as a freestanding patio roof instead of against a wall. A freestanding patio roof does not need any supporting walls and can be placed anywhere in your garden. As with all Climalux systems, the detached version combines with plastic sheets (16 or 32mm) or glass. To guarantee the stability of a freestanding patio roof, the posts must be concreted into the ground according to our instructions.

### For 16mm sheets – freestanding

CLIMALUX WITH CLIMACROWN FREESTANDING prepared for 16mm thick and 980mm wide multi-walled sheets (650N/m <sup>2</sup> snow load & 5° pitch)						
Width 'B' (in mm) → ↓ Depth 'D' (in mm)	3000	4000	5000	6000	7000	Climacrown height
<b>2240 (2500mm support incl.)</b>	<b>€ 6242</b>	<b>€ 7163</b>	<b>€ 7906</b>	<b>€ 9106</b>	<b>€ 9736</b>	385mm

## SELF-SUPPORTING NON-THERMAL PROFILE SYSTEM (cold roof)

### CLIMAX PANORAMA (cold roof)

Climax Panorama offers numerous possibilities as a self-supporting patio roof or canopy.

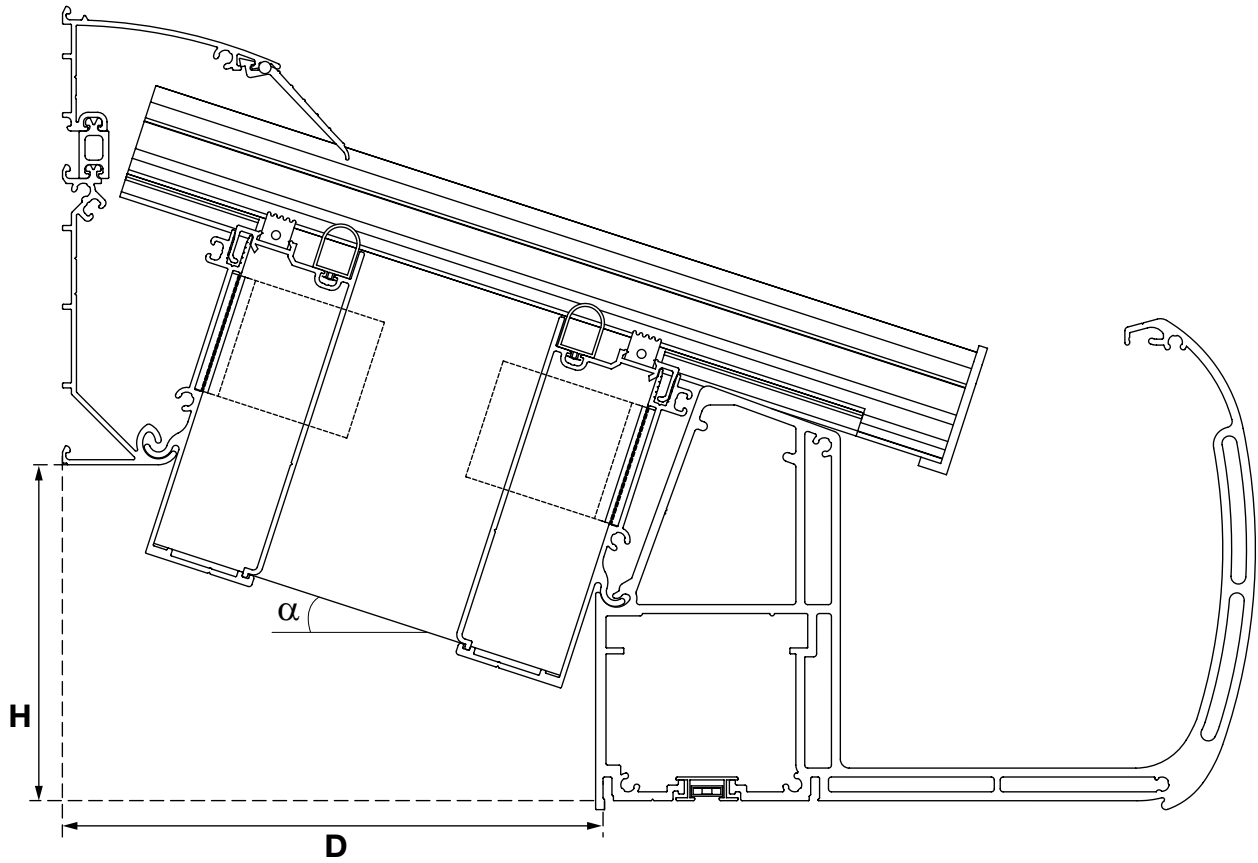

Thanks to the innovative GDG gutter profile, where the gutter and gutter support have been designed as a single unit, Climax Panorama is self-supporting up to 7m in width between two posts (with 16mm plastic sheets and a depth of 3m). This will give you an attractive 'panoramic look', without intermediate posts to spoil the view. It is self-supporting up to 6m in depth. The roof pitch varies between 2° and 20° and starting from 5° with multi-walled sheets.

- 2 standard RAL colours: white RAL 9010 & anthracite RAL 7016 ST. Delivery time: max. 3 weeks.
- 8 "trend" RAL colours: cream white RAL 9001, black RAL 9005 ST, white aluminium RAL 9006 ST, grey aluminium RAL 9007 ST, RAL 9009 ST (DB703), RAL 9010 ST, purple red RAL 3004 ST & RAL 7039 ST. Surcharge: € 200 net. Delivery time: on request.
- Other RAL colours: see p. 8 & 9 (price on request). Delivery time: on request.

Climaled can be provided in the Panorama gutter or below the rafter (see p. 74). This LED lighting emits a soft and pleasant light.

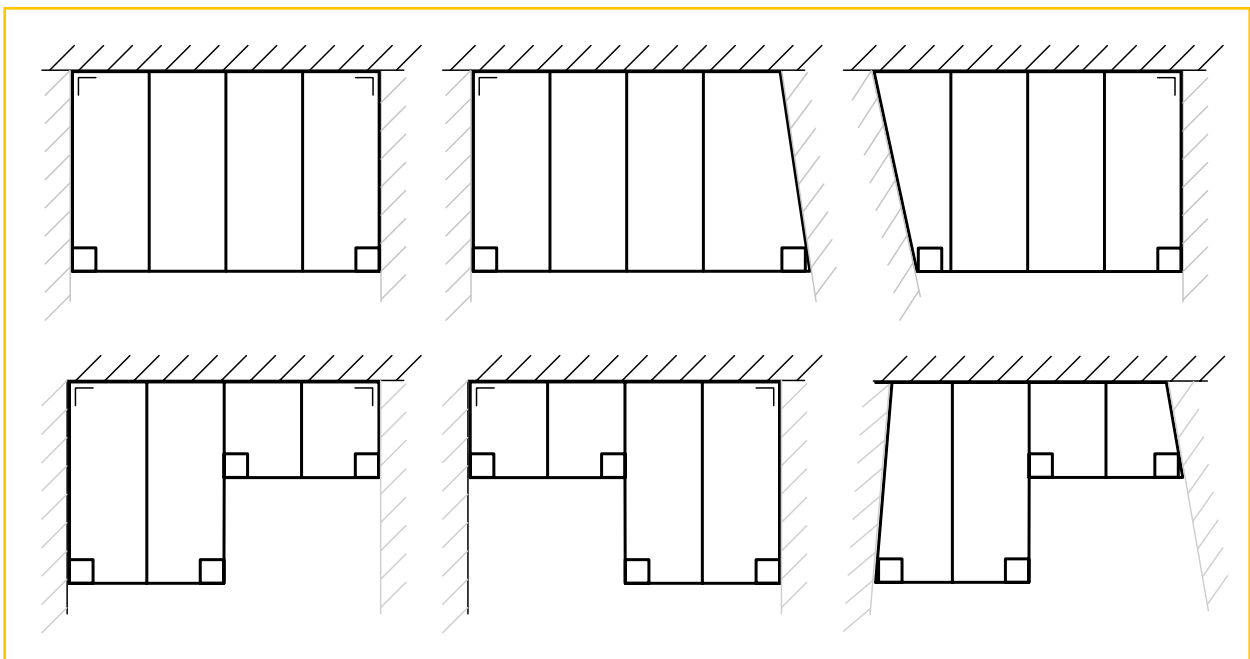

### Options

- Width B:  $\infty$
- Depth D: max. 5.5m
- Roof pitch  $\alpha$  between 2° and 20° and starting from 5° with multi-walled sheets

## Quick calculator Climax Panorama

Info:

- Aluminium profile system with Panorama gutter and aluminium clips (screwable for glass)
- 2, 3 or 4 posts 110 x 181 x 2500mm are included in the price
- 2 standard RAL colours: white RAL 9010 & anthracite RAL 7016 ST – delivery time: max. 3 weeks.
- 8 “trend” RAL colours: cream white RAL 9001, black RAL 9005 ST, white aluminium RAL 9006 ST, grey aluminium RAL 9007 ST, RAL 9009 ST (DB703), RAL 9010 ST, purple red RAL 3004 ST & RAL 7039 ST – surcharge: € 200 net – delivery time: on request.
- Other RAL colours: see p. 8 & 9 (price on request) – delivery time: on request.
- Plastic sheets or glass not included in the price
- Maximum deflection of the profiles: 1/200 for sheets and 8mm glass
- Drainpipe and accessories included

Calculate the price as follows:

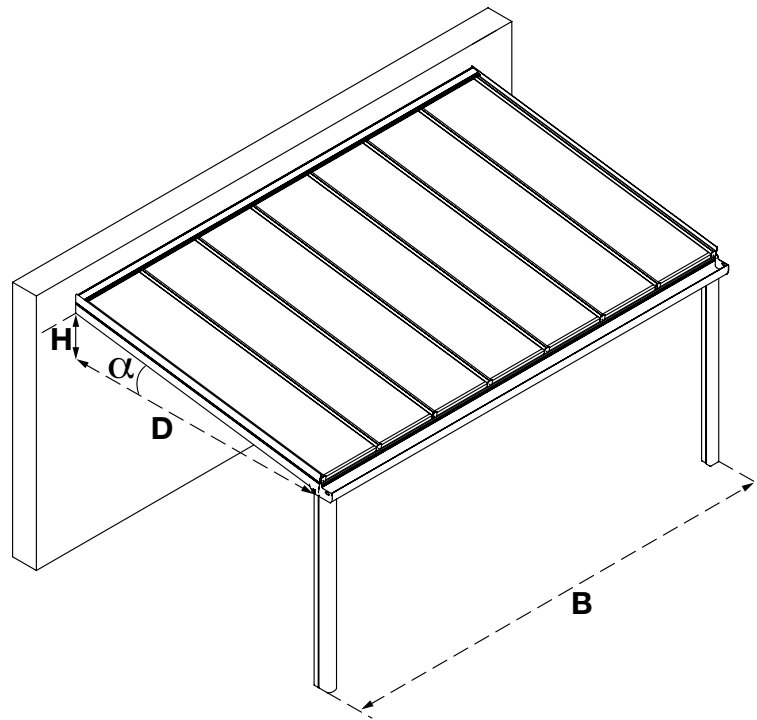

- Measure the roof’s width B (mm) and depth D (mm).
- Select the next size up in the table and read off the prices of the profiles.
- Multiply the sheet or glass area, indicated in the same box, by the price/m<sup>2</sup> of the sheet or the glass (not supplied by Skylux).

\* For larger spans: see quick calculator with steel reinforcement (p. 36 & 37)

## Quick calculator Climax Panorama with IPE120 steel reinforcement in the gutter (standard colour & 5° pitch) (IPE120 not included in the price)

Info:

- Aluminium profile system with Panorama gutter and aluminium clips (screwable for glass)
- 2 or 3 posts 110 x 181 x 2500mm are included in the price
- 2 standard RAL colours: white RAL 9010 & anthracite RAL 7016 ST – delivery time: max. 3 weeks.
- 8 “trend” RAL colours: cream white RAL 9001, black RAL 9005 ST, white aluminium RAL 9006 ST, grey aluminium RAL 9007 ST, RAL 9009 ST (DB703), RAL 9010 ST, purple red RAL 3004 ST & RAL 7039 ST – surcharge: € 200 net – delivery time: on request.
- Other RAL colours: see p. 8 & 9 (price on request) – delivery time: on request.
- Plastic sheets or glass not included in the price
- Maximum deflection of the profiles: 1/200 for sheets and 8mm glass
- Drainpipe and accessories included

Calculate the price as follows:

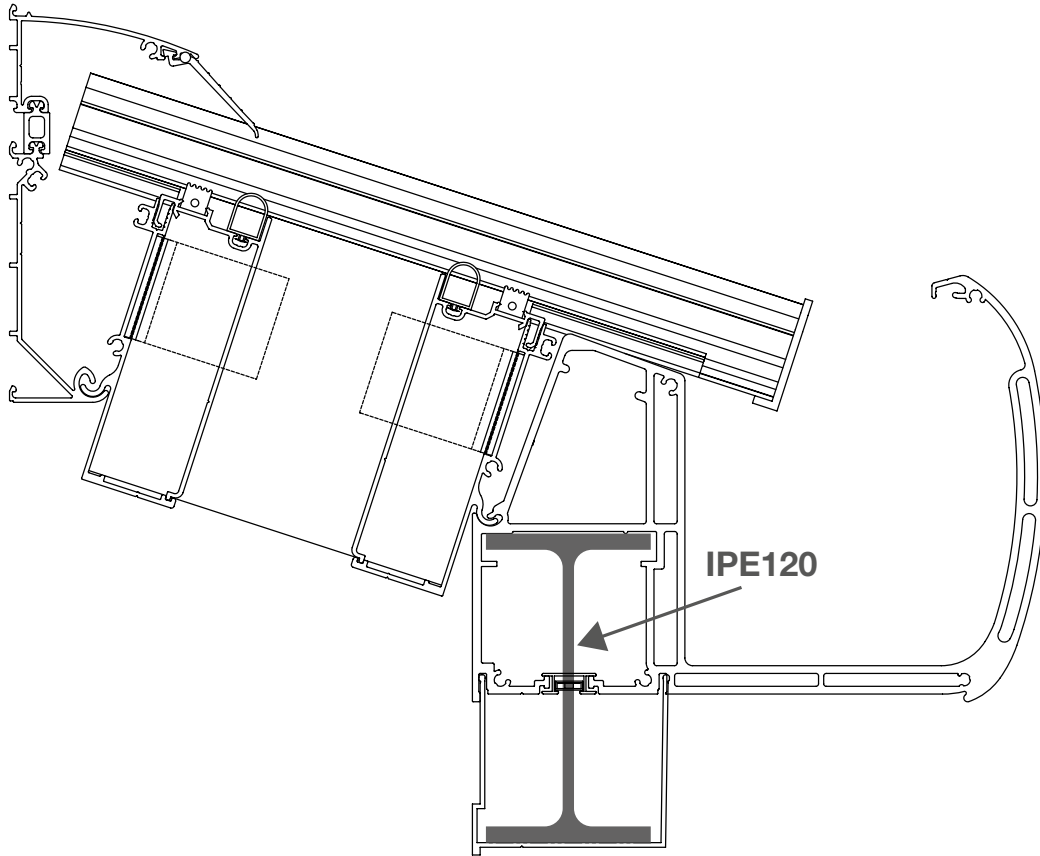

- Measure the roof's width B (mm) and depth D (mm).
- Select the next size up in the table and read off the prices of the profiles.
- Multiply the sheet or glass area, indicated in the same box, by the price/m<sup>2</sup> of the sheet or the glass (not supplied by Skylux).

Please note: these prices are indicative and not binding!

Roof systems with glass are now also available with a slope of 2°. Prices can be calculated on request with Climafast.

## Quick calculator Climax Panorama freestanding roof

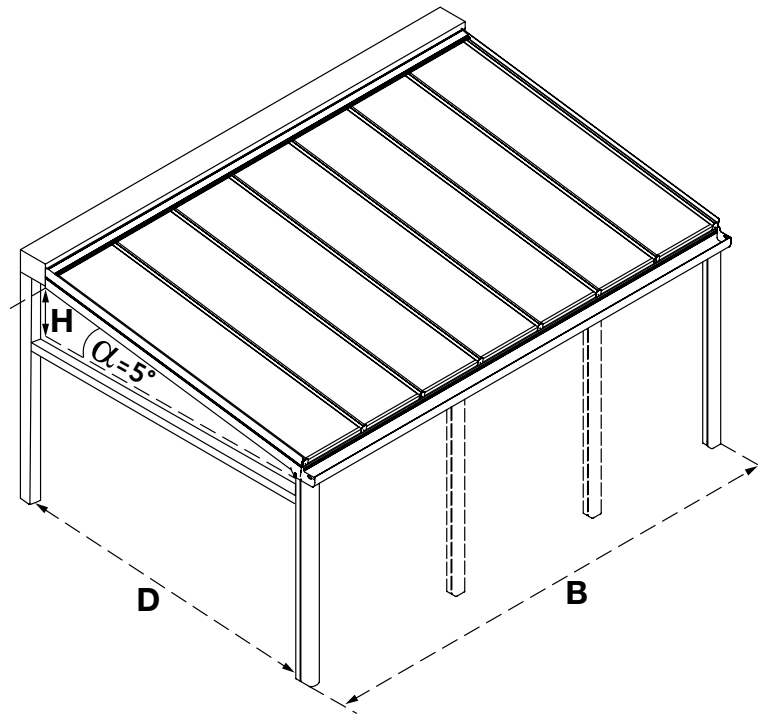

A Climax Panorama roof system can also be installed as a freestanding patio roof instead of against a wall. A freestanding patio roof does not need any supporting walls and can be placed anywhere in your garden. As with all Climalux systems, the detached version combines with plastic sheets (16 or 32mm) or glass. To guarantee the stability of a freestanding patio roof, the posts must be concreted into the ground according to our instructions.

### For 16mm sheets – freestanding

CLIMAX PANORAMA FREESTANDING prepared for 16mm thick and 980mm wide multi-walled sheets (650N/m <sup>2</sup> snow load & 5° pitch)

The front posts below the gutter are 150 x 181mm. The back posts below the GDX are 110 x 110mm. All posts must be concreted into the ground at least 40cm deep.

Roof systems with glass are now also available with a slope of 2°. Prices can be calculated on request with Climafast.

## SELF-SUPPORTING THERMAL PROFILE SYSTEM (warm roof)

### CLIMAX

The self-supporting Climax system offers numerous possibilities: a roof between two walls, various shapes, gutter and post types, with and without integrated water drainage, finish with rubber strips, clips, various side finishes, oblique closure with side walls, etc. There is always a solution that's right for you.

Provided the raised GD2 gutter support is used, the Climax roof is self-supporting up to 7m in width between two posts (with 16mm plastic sheets and a depth of 3m). is self-supporting up to 5.5m in depth. The roof pitch is variable between 5° and 45°.

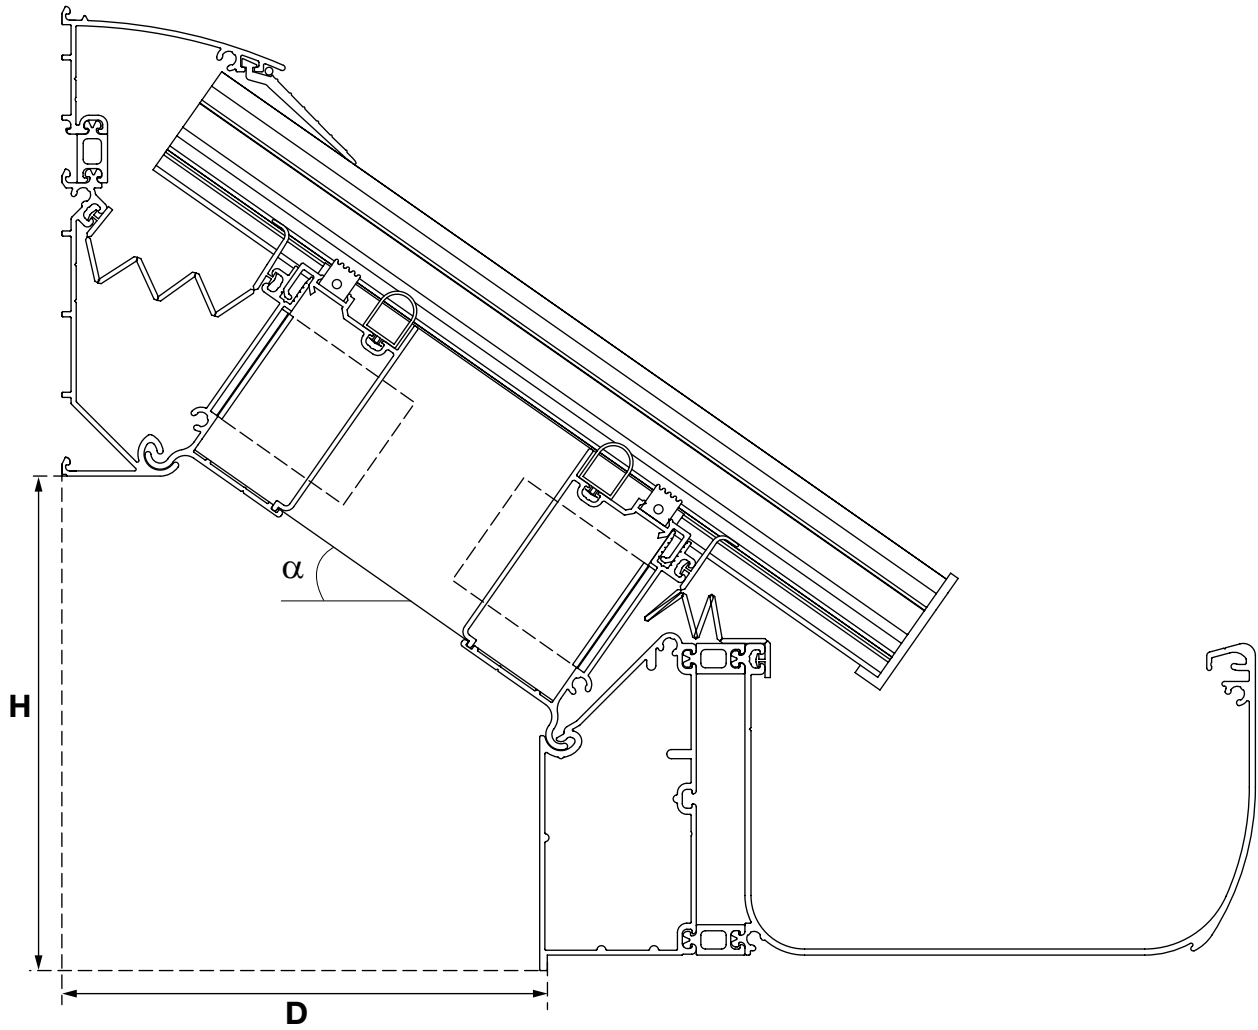

Both 16 and 32mm thick (insulating) plastic sheets or max. 34mm thick glass can be used as glazing for your thermal Climax roof.

- 2 standard RAL colours: white RAL 9010 & anthracite RAL 7016 ST. Delivery time: max. 3 weeks.
- 8 "trend" RAL colours: cream white RAL 9001, black RAL 9005 ST, white aluminium RAL 9006 ST, grey aluminium RAL 9007 ST, RAL 9009 ST (DB703), RAL 9010 ST, purple red RAL 3004 ST & RAL 7039 ST. Surcharge: € 200 net. Delivery time: on request.
- Other RAL colours: see p. 8 & 9 (price on request). Delivery time: on request.

Climax can also be provided with Climaled (see p. 74).

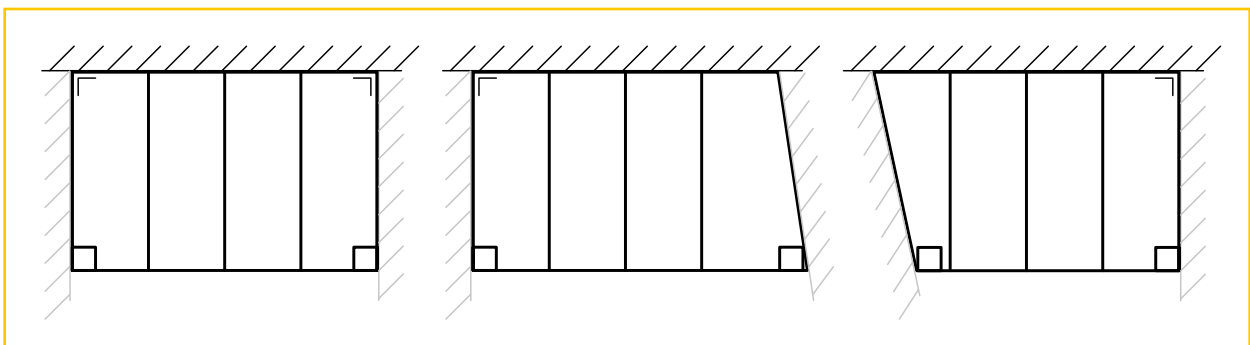

### Options

- Width B:  $\infty$
- Depth D: max. 5.5m
- Pitch  $\alpha$ : 5° to 45°

## Quick calculator Climax thermal

Info:

- Aluminium profile system with gutter G+GD2 and aluminium clips
- 2, 3 or 4 posts 110 x 197 x 2500mm are included in the price
- 2 standard RAL colours: white RAL 9010 & anthracite RAL 7016 ST – delivery time: max. 3 weeks.
- 8 “trend” RAL colours: cream white RAL 9001, black RAL 9005 ST, white aluminium RAL 9006 ST, grey aluminium RAL 9007 ST, RAL 9009 ST (DB703), RAL 9010 ST, purple red RAL 3004 ST & RAL 7039 ST – surcharge: € 200 net – delivery time: on request.
- Other RAL colours: see p. 8 & 9 (price on request) – delivery time: on request.
- Plastic sheets or glass not included in the price
- Maximum deflection of the profiles: 1/200
- Drainpipe and accessories included

Calculate the price as follows:

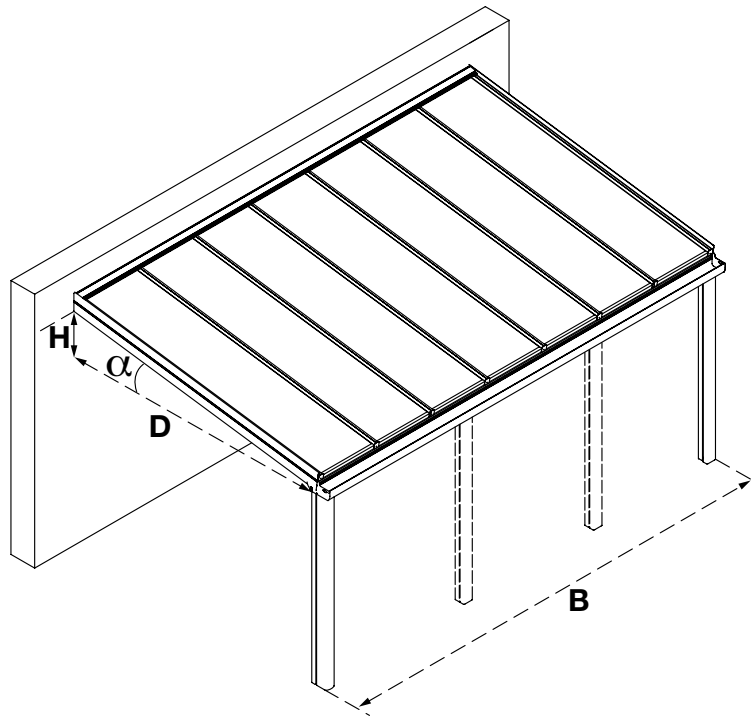

- Measure the roof’s width B (mm) and depth D (mm).
- Select the next size up in the table and read off the prices of the profiles.
- Multiply the sheet or glass area, indicated in the same box, by the price/m<sup>2</sup> of the sheet or the glass (not supplied by Skylux).

## ACCESSORIES FOR SELF-SUPPORTING PROFILE SYSTEMS

### TRIANGLE

**NEW**

The Skylux triangle profiles allow you to build a triangle- or rectangular-shaped frame in which glass or plastic can be installed. The aluminium profiles are maintenance-friendly, coated in accordance with the Qualicoat standard and available in all RAL colours and structured coating.

#### *Profile 42mm – made to fit the roof*

- Triangle formed by 2 types of non-thermal aluminium profiles: a base profile and a clip profile.
- The dimensions depend on the veranda.
- A supporting cross-beam (110/72) is necessary.
- If requested, Skylux can cut the top inclined profiles to guarantee an easy installation.
- Skylux provides a vertical U-profile to seal to opening and an H-profile for the vertical partition.
- Suitable for 10mm glass or double-sided UV-resistant 16mm plastic sheets.
- The profiles are delivered to size with all necessary accessories: screws, plugs and rubbers.

- gross price per triangle with an 8° pitch
- cross-beam P72 (110/72) included
- standard colours: 9010 white and 7016 ST anthracite
- trend colours: black 9005 ST, white aluminium 9006 ST, grey aluminium 9007 ST, 9009 ST, 9010 ST, cream white 9001, purple red 3004 ST, RAL 7039 ST: standard price + € 200 surcharge for colour change
- other RAL colours: see p. 8 & 9 (+15% + fixed surcharge : € 200 net) – delivery time: on request

# WINDBREAK

**NEW**

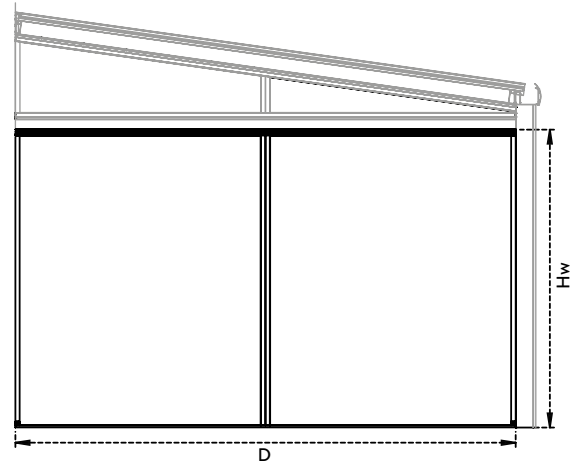

- Protects against wind, sunlight, rain and creates privacy
- Combines perfectly with the Skylux triangle profiles
- Comes in 10mm glass or 16mm plastic sheets (double-sided UV-resistant)
- The number of panels can be configured by the customer
- Vertical H-profiles for partitions

The Skylux windbreak is installed below the triangle (p. 64) and is made of non-thermal aluminium frames.

The frames are provided with 10mm glass or 16mm plastic sheets (double-sided UV-resistant) and separated by aluminium H-profiles.

A useful solution to shield yourself from wind, sunlight, rain and to add privacy.

The windbreak is easy to configure. We deliver the frames with some margin on the dimensions to allow sufficient flexibility during installation.

## CLIMAGLIDE

Climaglide is a custom-made profile system for glass sliding elements. This system, which is delivered together with your veranda roof, provides protection from wind and rain and therefore represents a significant added value. The profiles' elegant, contemporary look contributes to increased aesthetics. The aluminium profiles require minimal maintenance, are coated in accordance with the Qualicoat standard and are available in all RAL colours and structured coatings.

Combined with 8mm or 10mm tempered glass (not provided by Skylux), Climaglide ensures a tough and safe system. These sliding glass elements are made for single glazing. It can be locked from the inside and provides protection against wind and rain. You can slide the elements separately to 1 or 2 sides (depending on which version you choose) to create a large opening. Or you can choose a carrier system which carries the glass panels to the direction you slide to (only available for 10mm). Elements that slide open to 2 sides are provided with a middle panel seal.

Climaglide can be installed in patio roofs without thermal break like Climax Panorama, Climalux and Climalux Horizon.

Climaglide is available in three versions:

- 8mm Basic: 8mm tempered glass (not provided by Skylux) with pre-mounted roller blocks for glass elements that can slide separately – cannot be locked – not pre-drilled.
- 8mm lockable: 8mm tempered glass (not provided by Skylux) with pre-mounted roller blocks for glass elements that can slide separately – can be locked. The bottom rail (CGB) with 3, 4 or 5 tracks is completely pre-drilled. Available accessories: - screw-on handles D65/50 made of anodised aluminium – set of 2 self-adhesive anodised aluminium handles with cleaning cloth – glue to attach the draught strips and brush seals in the same ordered RAL colour
- 10mm lockable: 10mm tempered glass (not provided by Skylux) with pre-mounted roller blocks for carrier system and a latch on one side. The bottom rail (CGB) with 3, 4 or 5 tracks is completely pre-drilled.

Available accessories: brush seals in the same ordered RAL colour

## VERTICAL SUNBLIND

### *Add privacy, coolness and shade*

- Made to fit
- Frames perfectly match the colour of your roof
- Compatible with Skylux patio roofs
- Can be fitted to the front or the sides
- Supplied with the latest Somfy io actuators

Blinds are essential during the warm summer months. A well-fitted blind protects you from insects, from the heat of the sun and the chill of the wind. Skylux's new veranda blinds help you to stay cool and they also screen out the glare associated with winter sun. Our premium quality blinds protect your privacy and enable you to stay comfortable, all year round.

## Concept

- Enjoy flawless fitted blinds with aluminium frames that perfectly match the colour of your roof. Skylux's blinds are fully compatible with the Climax, Climalux, Climalux Horizon, Climax Panorama and Climacrown veranda systems. The ZIP system ensures excellent fit, providing superior protection against insects and the wind. Blinds can be fitted to the front or sides of the veranda, giving you the coverage options that work best for you.

Casing 103mm 90° (straight casing) for screens up to 4.5m wide

Casing 131mm 90° (straight casing) for screens up to 6m wide

- Skylux blinds are woven with high-quality PVC coated glass fibre.
- By choosing to pair your blind with an adapter profile, you can hide your screen cables and avoid wrinkles in the fabric, achieving a sleek and neat finish.
- Available in more than 50 standard colours. View the overview on p. 70 & 71.
- All Skylux blinds are supplied with the latest Somfy io actuators, enabling you to control your blinds by remote control or a wall switch. We also offer automatic motors that respond to solar or wind exposure levels.

### Remote control Somfy

The following dimensions must be specified when ordering:

- window type
- $h_1$ : height from bottom bar to window
- $h_v$ : window height (max. 1400mm)
- $b_v$ : window width (only for type 2)

## CLIMALED

### Spots

This lighting profile with pre-mounted LED spotlights provides the ideal lighting for your veranda or canopy and is mounted discreetly under the rafters. The long-lasting LED spotlights produce a warm white light that can be dimmed using the remote control, enabling you to create the required lighting ambience, from soft atmospheric to bright functional lighting. These pre-cabled lighting profiles (3 spotlights per profile) can be installed very easily and quickly.

A lighting set Climalux spots includes:

- two or more colour coated aluminium profiles with 3 built-in LED spots
- a transformer 230/24V DC 30W or 60W depending on the number of spots
- a remote control
- the wiring between the spots and the transformer
- the assembly accessories

Depth D (mm)	Colour	Number of lighting profiles						
		2	3	4	5	6	7	8
2500-4000 ( $\alpha_{max} = 20^\circ$ )	Standard	€ 692.43	€ 931.63	€ 1201.05	€ 1440.25	€ 1679.45	€ 2132.68	€ 2402.11

4001-5000 ( $\alpha_{max} = 20^\circ$ )	Standard	€ 739.54	€ 1002.28	€ 1295.26	€ 1558.01	€ 1820.76	€ 2297.54	€ 2590.52
	Special RAL*	€ 784.46	€ 1069.66	€ 1385.10	€ 1670.31	€ 1955.52	€ 2454.76	€ 2770.20
5001-6000 ( $\alpha_{max} = 20^\circ$ )	Standard	€ 771.83	€ 1050.73	€ 1359.86	€ 1638.76	€ 1917.65	€ 2410.59	€ 2719.72
	Special RAL*	€ 821.59	€ 1125.37	€ 1459.38	€ 1763.15	€ 2066.93	€ 2584.74	€ 2918.75

The standard colours are white (RAL 9010) and anthracite structured (RAL 7016 ST) and the trend RAL colours of Climalux

\* For orders without a patio roof, there is a surcharge of € 200 for the colour change

Our cable ducts offer the neat option to hide the Climalux cables. Providing a cable duct for your Skylux patio roof creates an added value, especially to facilitate the installation of Climalux if your customer wishes to have LED lighting afterwards.

The cable duct is available for Climalux/Climalux Horizon/Climax and Climax Panorama.

Please note: the roof slope is limited (max. 20°) in case of a wall-mounted Climax or Cimax Panorama with cable duct.

### Stripes

An LED light strip can also be integrated into the gutter. This LED lighting emits a beautiful, soft and pleasant warm white light.

A lighting set Climalux strip includes:

- one colour coated aluminium profile GDGL (Climalux)
- one LED strip 24V (120 LEDs /m)
- a transformer 230/24V DC 30W or 60W
- the wiring (6m) between the LED strip and the transformer
- the assembly accessories

	Length (m)	4	5	6	7
Climalux	Standard	€ 238.18	€ 319.79	€ 359.28	€ 398.68
	Special RAL*	€ 242.14	€ 324.74	€ 365.22	€ 405.61
Climax Panorama	Standard	€ 203.90	€ 278.92	€ 311.82	€ 344.63
	Special RAL*	€ 203.90	€ 278.92	€ 311.82	€ 344.63

The standard colours are white (RAL 9010) and anthracite structured (RAL 7016 ST) and the trend RAL colours of Climalux

Additional cost for model with remote control, receiver and dimmer: + € 293.53

\* For orders without a patio roof, there is a surcharge of € 200 for the colour change

## NON-SELF-SUPPORTING PROFILE SYSTEMS

### PERGOLUX

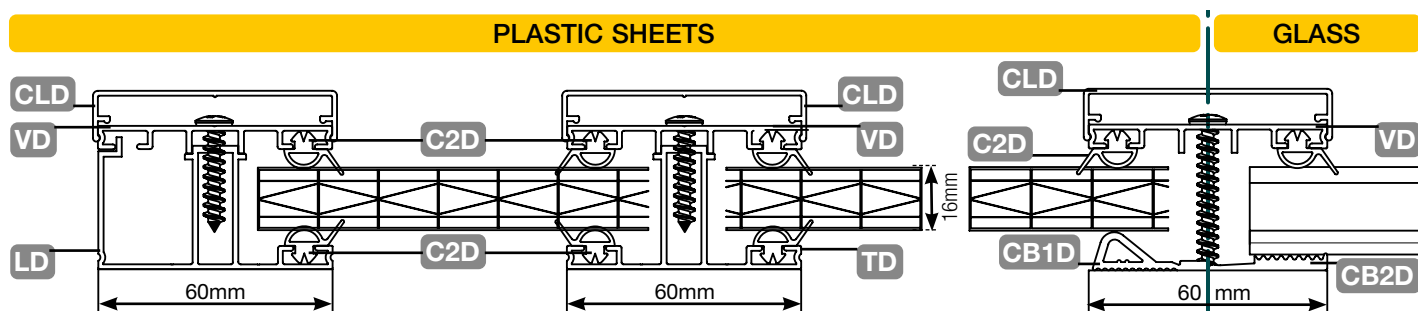

#### Profiles for a timber supporting structure

Any construction with multi-walled plastic sheets requires non-self-supporting aluminium profiles. These profiles must be mounted on timber or steel rafters before fixing the sheets into them. The multi-walled sheets are not screwed. Heat can cause the multi-walled plastics sheets to expand and can cause cracks. The aluminium profiles allow the sheets to move enough to prevent these cracks. We offer different types of profiles to click or to drill in plastic material or in aluminium. The choice is yours!

The Pergolux D-series can be assembled with “shim tape” or as a full set. Thanks to the high-quality profiles, your conservatory roof will have an elegant design.

- RESIST = improved shock resistance
- AAA = with anti-algae treatment
- (1) NO DROP = coating on one side against condensation
- (2) NO DROP = coating on two sides against condensation
- (3) HEATSTOP = infrared reflective

○ : while stocks last

The sheets are produced on the basis of ISO 9002 according to the ISO 12017 norm with raw materials according to DIN 8745.

Tolerance in sizes: see technical file

### SPECIAL SIZES:

Special sizes (to max 7000mm) can be obtained per pallet order at the price of standard lengths (delivery time will be confirmed).

If less than 10 pieces: quantity charge

CUT-TO-SIZE IS POSSIBLE

(We deliver the offcuts if needed)
