MATTING SYSTEMS

For Food Processing and Preperation

Lanmat Matting Systems

Anti-fatigue mats are designed to improve the comfort, health and wellbeing of your workforce by providing a cushioned surface between hard floors and workers feet, and to alleviate the aches and pains that arise from standing still for too long in one position. These mats encourage muscle exercise which in turn activates the venous leg pump and keeps the blood flowing back to the heart.

Anti-slip mats are essential wherever liquid or food waste is present as slips and trips can happen all too easily in these situations. Our anti-slip mats are designed to allow liquid and debris to fall below the surface, whilst still maintaining maximum grip on the surface.

There are a huge amount of mats available to cater for every application, but we have selected just a few here which cover the majority of common situations. Feel free to browse our complete range on our website, and to call or email us for further information. We will be very happy to arrange samples or a visit to ensure you get the best matting system for your needs.

We look forward to hearing from you soon.

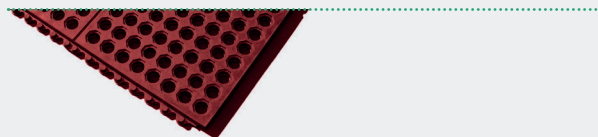

ANTI-FATIGUE AND ANTI-SLIP MATTING FOR GREASY AND WET AREAS

CHECKMAT ERGO NITRILE

High grade interlocking mat system

- Superb ergonomic comfort and safety in wet or dry applications
- Mats can be interlocked and edged to form any shape or size of mat
- Open top allows liquids to drain away effectively, leaving a safe work surface
- Manufactured from 75% nitrile rubber
- Tile size is 0.91m x 0.91m
- Overall height 19mm

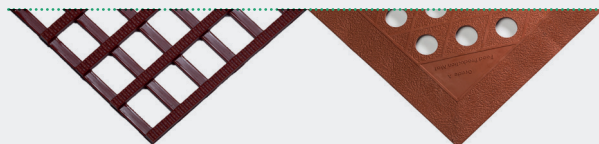

HYGIENEMAT

Vinyl matting resistant to animal fat and oils

- Specialised vinyl matting, which is hygienic and animal fat resistant
- The wide spaced open grid format allows waste and spillages to fall through
- The one piece hard wearing vinyl roll format allows for ease of rolling up during cleaning routines
- Widths: 0.6m, 0.91m, 1.22m. Lengths: 5m, 10m

HYGIENEMAT GA

- 100% anti-microbial rubber for food production and processing
- Built in handles for easy removal and cleaning
- Knob style under-structure for superior drainage and support
- Sizes: 0.76m x 0.91m, 0.76m x 1.52m
- Overall thickness 13 mm

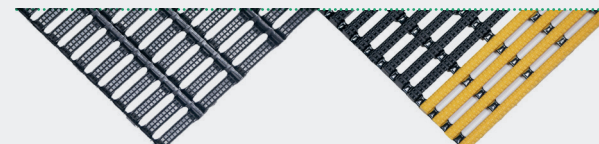

ANTI-FATIGUE MATS FOR WET AREAS

LINEARMAT

The ultimate slip resistant matting solution for industrial use

- Aggressive diamond tread surface for increased slip resistance make LinearMat especially effective wherever oil, water, liquid and debris spillages are likely
- Increase safety, comfort and productivity in the workplace with LinearMat
- Made from 2 layers of non-porous, flexible PVC that are welded together to create extra strong joints
- Available in rolls or modules with accessories to suit all needs
- Widths: 0.6m, 0.91m, 1.22m; lengths; 5m, 10m

PNEUMAT

An economical, tubular constructed matting

- PneuMat is an economical, tubular constructed matting for general purpose applications that provides excellent slip resistance and insulation
- PneuMat's hollow construction uses less material, so it is also light to move and easy to lift for cleaning purposes
- It is especially effective wherever there is a risk of water and spillages underfoot as it is also highly slip resistant
- Widths: 0.5m, 0.75m 1.0m. Length: 10m

PROCESSMAT

Perfect for food processing areas

- 100% nitrile non-slip kitchen mat
- Excellent resistance to grease, oils, fats and detergents
- Machine washable
- Ideal for food processing/manufacturing areas
- 'Cross-grip' surface for exceptional slip-resistance
- Open holes for efficient drainage
- Effective anti-fatigue properties
- Hygienic anti-microbial properties
- Easily cleaned in a commercial washing machine

ANTI-FATIGUE MATS FOR DRY AREAS

TRAFFIMAT STANDARD

The Original Anti-fatigue mat

- Single layer foam anti-fatigue workplace mat with textured surface
- Ideal for light to medium use in dry environments
- Safety version available with bright yellow borders
- Insulates against cold concrete floors
- Sizes; 0.6m x 0.9m, 0.9m x 1.5m, 0.9m x 18.3m, 0.9m x per linear m
