

# SpillMat

## Wide space open grid slip resistant matting

-  For greasy and grimy environments. This highly slip resistant matting is very effective wherever oils or greasy materials are spilled.
-  A wide grid design allows for better drainage and fall through, keeping the surface free from potentially dangerous slip hazards.
-  SpillMat was developed for railway maintenance areas but is highly effective in most greasy and grimy environments.

### SpillMat Edge

SpillMat with the additional benefit of yellow bands to mark routes and delineate areas.

PRODUCT	HEIGHT	STANDARD ROLL OPTIONS		
SpillMat	15mm	10 x 0.6m	10 x 0.91m	10 x 1.22m
SpillMat Edge	15mm		10 x 0.91m	10 x 1.22m

BENEFITS	FEATURES
Certified slip resistance DIN 51130: R11	Diamond cut pattern
Excellent drainage	Two layer construction and extra wide spacing
Chemical, oil and acid resistant	Non-porous PVC (impermeable to fluids)
Easy to cut on site, contours to uneven surfaces	Made from flexible PVC
Quick to install	Supplied in 10m rolls
Easy to clean with high pressure hose	Made from flexible PVC
Fire resistant	Certified EN 13501: Cfl - S1
