

WheelMat

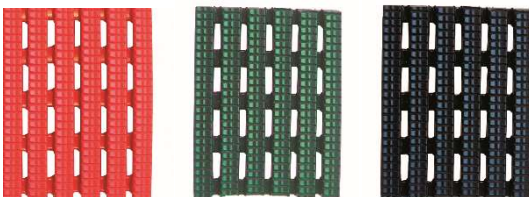

Close mesh matting for small wheeled traffic

-  For busy industrial areas where trolleys and small-wheeled vehicles are in use and liquids may be liable to be spilled.
-  WheelMat is a quality close mesh matting that is dense enough to prevent smaller components such as screws and bolts from falling through, yet is so effective at drainage it carries the highest certification. Add to that excellent slip resistance and you've got a real winner.
-  Vibration when running wheeled carts over WheelMat is kept to an absolute minimum compared to other wider spaced mat products.

PRODUCT	HEIGHT	STANDARD ROLL OPTIONS		
WheelMat	14mm	10 x 0.6m	10 x 0.91m	10 x 1.22m

BENEFITS	FEATURES
Certified slip resistance DIN 51130: R11	Diamond cut pattern
Excellent drainage DIN 51130: V10	Two layer construction
Chemical, oil and acid resistant	Non-porous PVC (impermeable to fluids)
Ideal for small wheeled traffic	Close mesh construction
Easy to cut on site, contours to uneven surfaces	Made from flexible PVC
Quick to install	Supplied in 10m rolls
Fire resistant	Certified EN 13501: Cfl - S1
Enhanced branding or styling	3 standard colours

Colour options

Red colour is not colourfast in direct sunlight
