A'CAPPELLA CHOCOLATE'S BEVBOMBS, KNOTTY GRAHAMS HIT STORES SOON

The Fresno-based chocolate company's arrangements of delights will soon be available nationwide, including at most Costco stores

FRESNO, Calif. (August 31, 2022) - We're excited to announce that your favorite lineup of all-natural and kosher chocolates will soon be available at participating stores in all U.S. regions. This allows more people across the country to enjoy A'cappella's symphony of products, which were previously only available online and in select stores.

In September, you'll be able to walk into most Costco retailers around the country and purchase A'cappella's BevBombs. The product from the creators of the first ever hot chocolate bomb will be available in all U.S. Costco stores, except in San Diego and Los Angeles.

That's just the first taste! In October, the chocolate company's popular Knotty Grahams will arrive at the following retailers nationwide:

- [BJs](#) - Knotty Grahams
- [Albertsons/Safeway](#) - Knotty Grahams: Cookies & Cream, Chocolate Peanut Butter
- [Shaw's/Star Market](#) - Knotty Grahams: Cookies & Cream, Chocolate Peanut Butter

This is a great achievement for A'cappella Chocolate after finding past success at the Sweets & Snacks Tradeshow in Chicago earlier this year, being named a standout brand by [The Dieline](#). A'cappella has consistently been celebrated for its treats, including several [Candy Industry](#) polls as a top non-gifting chocolate. The company also recently received recognition as a [top child-friendly and family-friendly business](#) in Fresno County, California, for its dedication to its workplace and employees.

What Makes A'cappella Stand Out?

Do you know why A'cappella's chocolate is undeniably delectable? Made at Debbas Gourmet Chocolates/Made in Nature's Fresno chocolate factory, A'cappella products such as BevBombs, Knotty Grahams, Barks, and Caramels are made with 100% all-natural chocolate paired with locally sourced, non-bioengineered ingredients.

What sets A'cappella's lineup apart from the rest is that it DOESN'T rely on "hot cocoa" powder fillings, artificial colors or flavors, vegetable oils, or compound chocolates. No covers here, only original, crave-worthy renditions!
