988 DIGITAL 3-CHIP CAMERA

The Difference is Digital

stryker[®]
ENDOSCOPY

Stryker Endoscopy, the world wide leader in medical video cameras, is proud to introduce the 7th generation 3-Chip Camera: The 988 Digital.

Features:

Multiple Pure Digital Outputs

- DVI - Digital Visual Interface
- SDI - Serial Digital Interface
- IEEE-1394 (Firewire)
- Analog Outputs: XGA, Composite, S-Video, RGB

Cross-Specialty Platform

- The answer to standardization for today's O.R. with multiple surgical settings, including: Arthroscopy, Cystoscopy, Laparoscopy, and Thoracoscopy.

Electronic Flexible Scope Filter

- Compatible with all flexible scopes.

Advantages:

Digital Auto Focus

- Ability to precisely set focus area.

Extremely Low Lux Rating

- Ability to see in low light situations.

Digital Zoom

- Ability to zoom from the camera head with no loss of light.

Light Level Control

- Ability to adjust light intensity from the camera head.

The Solution for Today's Visualization Needs
