255-000-004 Bowel Grasper (box of 6)

MiniLap™

- Unique tip closure design to prevent damage of tissue
- Access and instrumentation in one
- No surgical incision closure necessary
- Reduces scarring
- Entry-depth control through retention and pivot disc
- Ease of use
- Retention of abdominal pressure
- Available in a number of commonly used device tip configurations
- Self-sealing without compromising insufflation pressure
- No reprocessing or capital costs

The InfraVision™ Illuminator

Uses infrared technology to transilluminate Ureteral and Esophageal structures, assisting with structural identification, decreasing procedural time and increasing patient safety.

Infrared Technology

**InfraVision™ Console****220-180-521** InfraVision™ IR Illuminator

Variable infrared laser illuminator provides optimum power for identification in a fully illuminated surgical field without transmitting heat

InfraVision™ Esophageal Kit

(Quantity: box of 5)

**220-180-548** InfraVision™ 48Fr Esophageal Kit

18Fr, OG Tube
15cm Balloon Section inflates to 48Fr

220-180-540 InfraVision™ 56Fr Esophageal Kit

18Fr, OG Tube
15cm Balloon Section inflates to 56Fr

220-180-560 InfraVision™ 60Fr Esophageal Kit

18Fr, OG Tube
15cm Balloon Section inflates to 60Fr

InfraVision™ Ureteral Kit

(Quantity: box of 5)

**220-180-516** InfraVision™ Ureteral Kit

Two 6.0Fr, 70cm ureteral catheters
Two 0.75cm, 200cm emitting fibers

220-180-517 InfraVision™ Universal Ureteral Kit
