

6120 siafleece

Extra Cut S – For fastest finish on stainless steel

6120 siafleece – Extra Cut S

For fastest finish on stainless steel

A hand pad that combines the silicon carbide cut of the Medium S with the consistency of finish from the Extra Cut A. Extra Cut S – a product, which provides a satin finish more than 20% quicker* than similar hand pads available on the market.

- ▶ Minimum 20 % faster than similar products*
- ▶ Most consistent surface finish
- ▶ High resistance to tearing

Product profile

Grit type:	Silicon carbide
Grit range:	Extra Cut S
Backing:	Nonwoven
Coating:	Mechanical
Bonding:	Resin over resin

Use

Applications

- Satin finish on stainless steel
- Cleaning of mild steel
- Deburring
- Structuring/finishing
- Removing discolouration
- Edge preparation

Materials

Stainless steel, mild steel

Dimensions

152 x 229 mm

Item No.

4132.9840.2721.01 (F 03E 014 KC4)

* Based on internal tests against various coarse and medium hand pads available on the market. Time comparison to remove permanent marker line on stainless steel plate.
