**InnoStat®** *ESD Packaging*

**InnoStat®** is our ESD safe packaging products produced from multi-layered plastic laminates. We offer a wide range of products to the Electronics & Semiconductors industry to eliminate their ESD problems and assist the industry to minimize loss suffered from the Electro-Static Discharge (ESD) event that is happening in their work place.

We have good track records in supporting the Electronics & Semiconductors industry for more than 26 years and this will give the industry confidence in us. Our clients can be assured of our efficiency in technical know-how and other aspects in regards to ESD Packaging.

Our **InnoStat®** Moisture Barrier Bags are produced in compliance to Mil-81705C. Our **InnoStat®** brand of products are produced in compliance to ANSI/ESD S11.4-2012, and meeting or exceeding electrical & physical requirements of ANSI/ESD S541.

Our list of **InnoStat®** brand of products includes:

- Static Shielding Bag ( 2 Sides Seal / 3 Sides Seal )
- Static Shielding Zipper Bag ( 2SS / 3SS )
- Aluminum Moisture Barrier Bag
- Aluminized Moisture Barrier Bag
- Plain Barrier ( Non-Metal ) Transparent Bag

Printing Options:

- Gravure (Surface Print or Reverse Print)
- Up to 8 colors
- Hot Stamping - Surface Single Color Print

**InnoPak®** *Flexible Packaging*

**InnoPak®** We offer products in both Roll form and pre-made Pouches with different laminated structures. Our printing is printed with rotogravure printing machines. We strive to provide our valued customers with packaging products and services that delivers a competitive advantages through quality, performance and cost.

Our list of **InnoPak®** brand of products are offered in forms of:

- 1) Printed or Plain (Non-Printed) Laminated Film in roll.
- 2) Printed or Plain (Non-Printed) Finished Bags in different designs ranging form:
  - " L " Seal Bag
  - Air Valve Bag
  - 2 or 3 Sides Seal Bag (with / without Zipper)
  - 3 Sides Seal Bag with K-Bottom Seal (with / without Zipper)
  - 8 Sides Seal Flat Bottom / 4 Sides Seal with Gusset
  - 4 Sides Seal Bag with Side Gusset & K-Bottom Seal
  - Standing Pouch/ Bottom Gusset Bag (with / without Zipper)
  - Centre Seal Bag (with / without Gusset)
  - Special Die Cut Pouch

**Printing :**  
We provide printing (surface or reverse) service on packaging materials such as:  
- OPP Film - PET Film - Nylon Film  
- CPP Film - PE Film

**Lamination :**  
We have facilities to laminate on the following materials:  
- PET / CPP  
- OPP / CPP  
- OPP / MCPP  
- PET / LLDPE  
- Nylon / LLDPE  
- OPP / LLDPE  
- OPP / MPET / CPP  
- PET / MPET / LLDPE  
- PET / ALU Foil / LLDPE

**InnoClean™** *Cleanroom Packaging*

**InnoClean™** We offer a wide range of bag products for demanding packaging applications in cleanroom and controlled environment. Our Cleanroom Bags and Rolls are supplied in a different varieties of designs and measurements to cater for a big array of applications.

There are a lot of determining factors involved in choosing a cleanroom classification and every industry has a default standard to start with. In medical device packaging for instance, the default classification is ISO 7 (or a class 10,000) cleanroom. Our cleanroom was constructed based on class 10k standard in order to cater for pharmaceutical & medical packaging, semiconductor packaging, nutrition food packaging and etc. Besides, we have our own in-house lab facilities to perform some basic testings, including surface resistivity, thickness, tensile, elongation, seal strength, bonding strength, puncture resistance, coefficient of friction and aging & acceleration.

**InnoClean™**

of its applications used in different industries listed below:  
- For Medical & Pharmaceutical  
- Nutrition Powder  
- Electronics & Semiconductors

Standard Packing Details :

- 100 pcs of cleanroom bags into a clean PE bag and double bagged
- 20 bags of clean PE bag into a paper carton box
- Roll form with plastic core and into an outer clean PE bag and double bagged
- Customized packing according to customer's requirement can be arranged
