## **Bronze Finishes**

Finish	Description	Image
Natural Bronze	Raw silicon bronze, highly polished with no patina applied. Similar to polished copper. This is a living finish that will continue to naturally patina and age over time.	
Aged Bronze	A medium brown patina applied to achieve a rustic finish. This is a living finish that will continue to naturally patina and age over time.	
Dark Antique Bronze	A dark, deep brown patina. This is a living finish that will continue to naturally patina and age over time.	
Burnished White Bronze	A matt white bronze with no patina applied. Similar to a brushed nickel-silver finish. This is a living finish that will continue to naturally patina and age over time.	
Polished White Bronze	A white bronze, highly polished with no patina applied. Similar to a polished nickel. This is a living finish that will continue to naturally patina and age over time.
