Solid & Striped The Anne-Marie, \$158, solidandstriped.com

THE SKIN DOC IS IN

CELEB PLASTIC SURGEON DR. PAUL NASSIF'S STEPS TO PERFECT SUMMER SKIN

1. KEEP IT CLEAN

"Hot and humid weather leads to sweat, which takes a longer time to evaporate off your skin," explains Dr. Nassif.

2. SLOUGH AWAY DEAD SKIN

"Gentle facial exfoliation creates a better canvas for makeup application, so you can wear less on those warm, summer evenings," says Dr. Nassif. One caveat: Exfoliate after you take a dip in the pool or ocean, not

before, to avoid sensitivity.

3. SOAK IT UP

"Keep skin hydrated against drying agents like sunburns, salt and chlorine."

4. SHIELD YOURSELF

"Repair and protect your skin's barrier with an antioxidant-laced serum," says Dr. Nassif, who recommends his Nassif MD Night Beauty Therapy Serum (\$75, hsn.com).

Dr. Paul Nassif, star of E!'s *Botched* and *Botched by Nature*, launched his skincare line Nassif MD Bio-Rhythmic Skincare at Macy's Impulse Beauty. His other line, Bio-Clock Dermaceuticals, is available on HSN.com.
