GRAY NICOLLS TESTIMONIALS

'I wish you guys were here today, when the kit got delivered and we opened it! A few of the players put it on and the look on their faces was priceless, as they were so happy and proud of the result. The captain Scott Edwards said that "this is the best kit we've had to date; better than anything from before".

All the team members and KNCB are pleased with what's been delivered. I would like to say thank you to all of you and the others who aren't included in this email, please forward it to them at the office for the amazing clothing you've delivered and the time you've spent on us.'

AT NIDAMANURU

We are now in our second contract term and have been very impressed by the product they have supplied and the service they have offered. If you are looking for something unique, something that will stand out among all other kit designs, you should try using Gray-Nicolls made-to-order kits.

The world is your oyster as you work with our team to come up with the design that suits your club.

Our Iconic Mercury Collection is a superior stretchy and light-weight fabric that can be customised to any design. There are numerous collar alternatives for men and women, including V neck, V with collar, and British collar with placket. The Polyester and spandex mix is durable and lightweight, providing an endless amount of flexibility which will adapt to your every movement. To keep warm during the performance, slippers and a sweatshirt are supplied. Comfortable trousers with a smooth drop leg that allows room for pads and protectors without sacrificing performance.

CLOTHING SIZING GUIDE

ABOUT SIZING:

Sizing inconsistencies can be attributed to a number of factors and vary according to the different fabrics and cuts in our range. Our Teamwear collection is available in four fits across the entire apparel line. Each is designed to meet different needs for movement, protection and versatility depending on the activity.

HOW TO FIND YOUR SIZE:

The clothing size chart is set up in a table. One axis will lay out the size, and the other will be the measurements in inches and centimetres. Look at the row/columns that best correspond with your measurements and you'll be able to identify your size.

HOW TO FIND YOUR SIZE:

It's up to you. If you like a tight fit? Go for the smaller size. Love a loose fit? Go for a slightly larger size.

HOW TO MEASURE YOUR BODY FOR CLOTHING SIZES

CHEST:

Place one end of the tape measure at the fullest part of your bust and wrap it around your body to get the measurement, keeping the tape parallel to the floor.

WAISTE:

Place one end of the tape measure at your natural waist, you want to find the narrowest part of your waist. Don't go up too far or too low to get an accurate measurement. Don't hold the tape too tight or your clothing will be hard to move in.

HIPS:

Stand with your legs together and measure the fullest part of your hips. Be sure to go over your bottom as well. It might be challenging to keep the tape consistently level when you do it alone.

INSIDE LEG:

The inseam is the distance of your inside leg measuring from the top of your inner thigh to your ankle. It is easiest to measure the inseam based on a well-fitting pair of pants. Measure from the crotch to the cuff on the inside seam of the leg. The number of inches, to the nearest $\frac{1}{2}$ ", is the inseam length. It's best to measure your inseam with a pair of shoes on so that you can ensure the hem hits at the right point on your shoe.

OUR CLOTHING FITS

LOOSE FIT:

A roomier and relaxed fit, styles might have a longer length than a standard fit.

STANDARD FIT:

Not too tight, not too loose. Standard fitting apparel will fit over mid-layers without restricting movement.

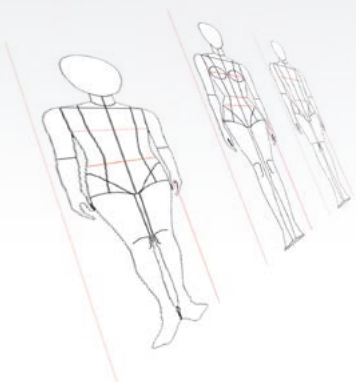

SLIM FIT:

Athletic fit, close to the body, allows the use of a baselayer when required. Ergonomically designed, performs with the body and doesn't restrict movement.

TIGHT FIT:

Garment will fit the body like a second skin.
