Introducing Brother's PT-E800T

Get the job done in no time with this robust industrial tube and label printer.

PT-E800T

Twin Engines

Meet the first industrial printer with twin engines. With just one machine, you can print on tubes up to 6.5mm and labels up to 36mm without the need to swop cartridges.

Zero Fuss

Switch between tube and label printing without replacing or re-inserting supplies. Need to replace worn-out parts? You can do it yourself in a few quick steps. It's that easy.

Maximum Printability

Print more on each label and ensure the legibility of your text with the benefit of additional printable height.

SUPPLIES AND ACCESSORIES

Ensure the best printing results and a hassle-free experience with these handy accessories.

Included:

Tube cutter (PA-TC-001)

Cuts the tubes into the specified length quickly and professionally.

Cleaner (PA-CL-001)

Cleans the tube to ensure surface is dirtfree before printing.

Conveyance rollers

(PA-RL-001, PA-RL-002 & PA-RL-003)

Ensures tubes move smoothly through the machine.

Ink ribbon (TR-100BK)

100m black ink ribbon used for tube printing

TZe tapes

Suitable for both office and industrial use, our TZe standard laminated tapes are weatherproof, waterproof and resistant to wear and tear.

Perfectly Portable

Get the printer working wherever, whenever with the rechargeable Li-ion battery.*

Durable Labels

The printer is compatible with TZe tapes, the toughest laminated labels in the market. Ideal for industrial use, TZe is resistant to water, chemicals and harsh weather conditions.

*The rechargeable Li-ion battery and battery base have to be purchased separately.

TZe Laminated Tape

Brother P-touch laminated TZe tapes consist of seven layers of materials, resulting in a thin yet extremely strong label. The thermal transfer ink is sandwiched between two protective layers of PET (polyester film), which protects the text against the effects of liquids, abrasion, temperature, chemicals and sunlight.

HSe Heat Shrink Tube

HSe tube is a printable heat shrink tubing designed for the PT-E300, PT-E550, PT-E800T and PT-D800W labelling machines to mark cables, fiber and wires. Will not work in other models.
