RING SIZE GUIDE

FROM EXISTING RING

The easiest way to size your finger is with a ring that already fits. Print out this chart (**be sure to select Print Actual Size**) and lay the ring directly over it, so that the black circle touches the ring's inner circle. Voila!

FROM SCRATCH

Don't have a ring? No problem. Wrap a piece of thread or a thin strip of paper around the base of your finger. If you have larger knuckles measure both - you may want to choose a size between the two to allow the ring to slip on comfortably. Mark the spot where the paper/thread meets and measure the distance with a ruler. Use above chart to determine the size. Voila!
