## M E L

„A solid block“

Designed by Peter Straka  
Vienna 2007

A clean mirror-finish metal square arrayed with three or four vertical tubes of light, M E L works equally well as a suspension or wall light.

Process: The block consists of several laser cut brass plates. The brass is polished and then nickel plated. In case of the polished brass finish the plates are lacquered with a transparent lacquer in order to maintain its natural colour. The luminaire is assembled and wired.

## M E L

Wall 50/30

Type	Wall light
Material	Brass
Environment	Indoors. Zone 3
Dimensions	300/500 x 195 x 173 mm - 11,8/19,7 x 7,67 x 6,8"

110 02/04 202	brushed brass
110 02/04 402	aged brass
110 02/04 209	black matte

\* Other lamps are available on request.

\*\* On very rare occasions, these lamps may appear to have a slight buzzing or flickering. As is the case with all retro LED lamps, this is likely caused by a number of outside influences such as incorrect installation, wiring, dimming or transformers and in some instances low electrical resistance.

\*\* Please contact [sales@kaialighting.com](mailto:sales@kaialighting.com) for further information on dimmers etc. Please note KAIA Ltd cannot take any responsibility for the connection with your dimming or central control system. It is the customer's responsibility to ensure the compatibility with their systems.
