

Technicolour Field

Design Peter Saville

Production method Tufted

Material 100% Bamboo Viscose

Height 26 – 28 mm (1")

Weight 8000 g/m² (26.2 oz/sq ft)

Maximum size 300 cm × 1000 cm (118" × 393 ¾")

Maximum size round Ø 300 cm (118")

Size variation +/- 3%

Care Professional cleaning

Traffic Suitable for light to moderate residential use with exceptions of stairways, corridors or with the use of castors

Country of origin Portugal

Warranty

2 years

Notes

- Slight colour differences may occur
- Shifting pile height is a characteristic feature of the rug surface
- Colour gradation in direction of the width
- The gradation consists out of 18 colour blends. The transition of the blends will become slightly more visible enlarging the width
- One m² contains 1,4 million bamboo viscose threads. Therefore some may detach when the rug is in use, particularly with new rugs
- Rugs made with bamboo viscose will reduce the amount they shed but will not cease shedding completely. This will not affect the appearance or quality of the rug
- If a bamboo viscose rug gets wet it will take a few days to dry fully. Do not walk on it as it will damage the yarns. The (wet) rug should not be rubbed as the structure may change
- Round shape possible, will be calculated as a square

Production time

6 – 9 weeks, variations possible with rugs > 6 m² and custom made dimensions
