SKY OMBRÉ

Jennifer Sampou

SKY Ombré is my love letter to makers who rejoice through color and embrace hue-liberation! With 16 new fabrics, The Reflection series adds to the 30 Original SKY bringing to market a total of 46 luscious full range ombrés. That is over a thousand colors at your fingertips!

In 2019, the Original SKY focused on the colors we see above us from dawn to midnight, capturing layered nuances of light and clouds all digitally printed in exquisite detail based on my paintings. With the 16 piece Reflection series, I focused

on how nature reflects back to the sky, like the color blend of a peony petal, the pulsing green of a California spring or the juicy glow of a freshly split pomegranate. The range varies from pale hints of color to deep darks and brilliant saturated hues. Like a seasoned artist who has a deep understanding of color, working with SKY Ombrés will inspire your inner creator and make you more color confident. I promise.

The lookbook features 12 projects. I invited designers to work with SKY and highlight their talents on the following pages. You'll love what's created. If you are a newbie to ombrés, begin with the **Modern Madras Tablerunner** or the **Ombré Tote**, perfect projects to experience the magic of SKY. I have online classes at **Creative Spark Online Learning** that dive deep into how to work with SKY (creativespark.ctpub.com). For the more seasoned maker, try the **SKY Log Cabin** or **Finger Paints Quilt**, both add Chalk and Charcoal basics to SKY.

Everyone's results will

be unique, like no two

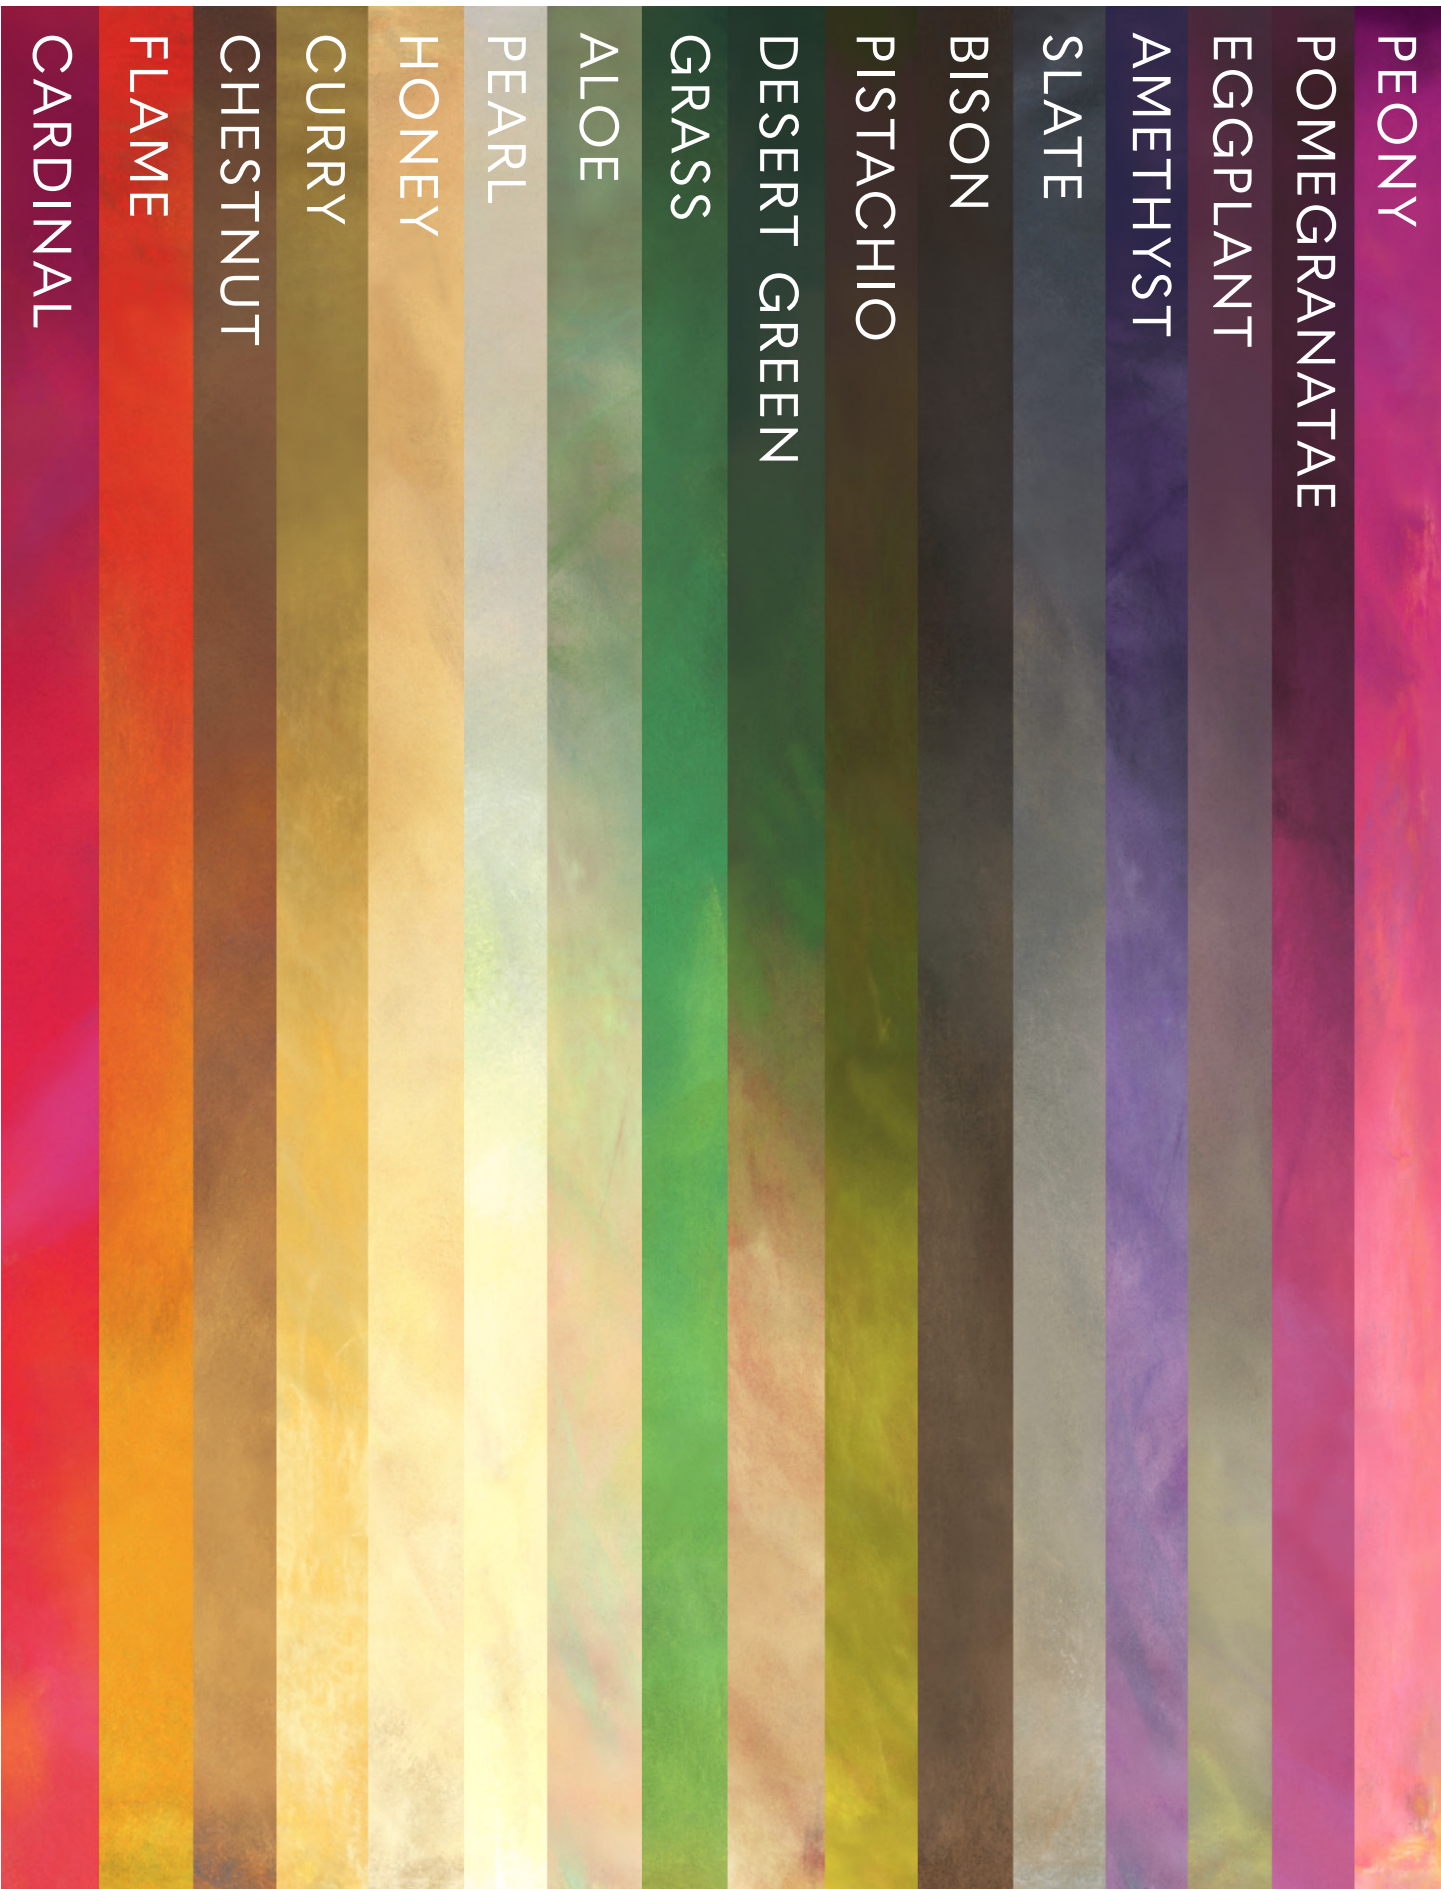

sunsets are ever the same. Get the inside scoop at Studio Sampou and sign up for my newsletter at JenniferSampou.com.

Keep that mojo poppin! ♥ JS
