### CART PLACEMENT *Instructions*

#### PLACEMENT *of the Carts*

Please place your carts on level ground and at least 4 feet apart from each other. Never place the carts in front of one another. The carts need to be within two feet of the street. The best placement for the carts is at the end of the driveway or on the grass within 2 feet of the road. We recommend placing carts on opposite sides of your driveway. Carts cannot be collected if they are improperly placed. In the winter, you may need to shovel out areas for your carts just like you do for mail delivery. Be sure the areas are away from obstructions like mailboxes, trees and cars. Please do not place carts in the street.

#### LOADING OF *Your Cart*

We recommend bagging your trash so it won't stick to the inside of the cart. This will also help to keep the carts clean on the inside and prevent windblown litter. Do your best to break down the items being placed inside the cart so they don't lodge themselves inside and make it impossible to dump.

#### FACE THE CART *Towards* THE STREET

Put your cart at the street so the arrows on the lid of the cart will point towards the street. The serial numbers on the front of the cart should also face the street. By placing your cart correctly it is easier to dump and it will be much less likely to have waste spill out.

#### GIVE US *Room*

With the automated collection trucks we need some room away from obstructions like trees, mailboxes and cars. Please place your carts 4 feet away from such obstructions.
