## Veil

The right tools, techniques and patience are the key to creating the perfect home for your Veil. The veil flange is 85.5mm in diameter and requires an 80mm diameter cut-out to be installed correctly.

PARTS PROVIDED		Flange Insert
STEP 01		Measure the size of the flange you want to install and mark the exact spot on the desk.
STEP 02		Use a hole saw drill bit the same size as the flange and drill directly down the desk. Apply constant pressure and keep the drill bit level to avoid damaging the desk.
STEP 03	<u> </u>	Once the cut-out is drilled, insert the flange, which will be snug.
STEP 04	_	Now go and make something remarkable.
