

A PRODUCT OF TWO SPARROWS LEARNING SYSTEMS

Creating learning products that are inclusive, intuitive, and environmentally conscious in design.

WATCH AN EFFORTLESS JOURNEY WITH OUR CRAYONS

Children begin developing their fine motor skills early, and can begin to experience coloring activities as early as one year old! Grasp patterns follow a typical progression of development.

May 2017
Age 2

Using our crayons the child on the left naturally uses a grasp more developed for his age.

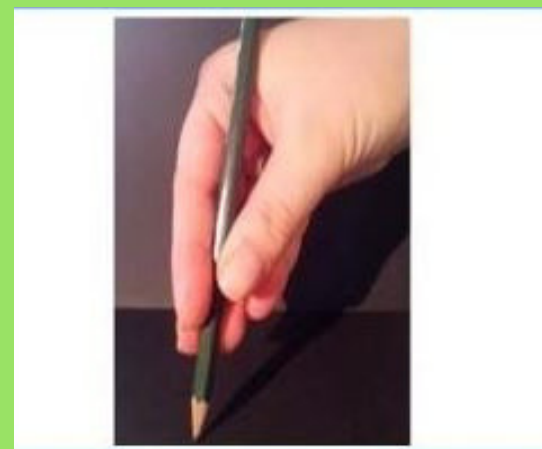

Digital Pronate Grasp
Ages 2-3

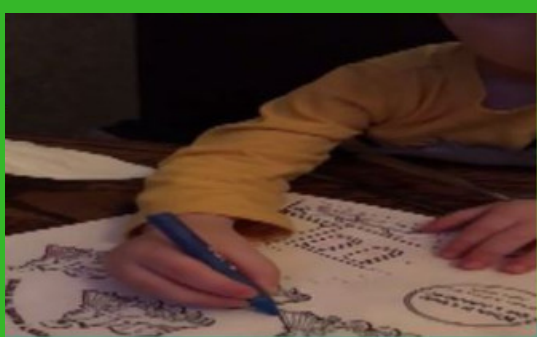

Time moves fast! By December, since using our crayons, this child has improved grasp development immensely and is using a grasp found in children ages 3 and older!

December 2017
2 1/2 years old

3-5 years old
Static Tripod 3 finger grasp

Feb. 2018
Almost 3 years old

In almost a year, using the Effortless Art Crayons early on helped to foster proper grip independently, setting this child up for success! Now he is so progressed in his skills, he uses perfect grip with a standard crayon.
