

AUSTRALIA **WINE & FOOD** **TOUR**

FEBRUARY 19 -
MARCH 1, 2025

**ADELAIDE
TO
MELBOURNE**

A different kind of wine tour...

Bringing you to the source of the world's best wines.

Have you ever wanted to take an insider's tour focused on wine, food, and culture? Since 2015, The Wine Feed has worked to buck the standard wine tour format of being hastily ushered in and out of sterile tasting rooms. Instead, we seek out truly authentic experiences which intimately connect our guests to world-class wines and the wonderful people who make them.

Travelling with our team is more than an opportunity to enjoy great food and sample fine wines. Walk through beautiful vineyards and touch the grapes alongside hosts who explain what it's like working with them every day. Go inside wineries and cellars where visitors rarely get to go, and watch the magical production process firsthand. Perhaps most important of all, interact directly with the passionate family members and artisans running wine programs of all sizes. Speaking with them about the work, history, and culture that goes into every bottle is what creates true appreciation and understanding. We promise these experiences offer an unparalleled view into our world, and unforgettable lifetime memories.

TOUR SUMMARY

Australia has made high quality wine for almost 200 years -- and the most exciting examples come from the southern states of Victoria and South Australia. Each state is home to a large number of sub-regions, which are known for different styles dependant on terroir and proximity to the ocean. We will see every style of wine: from white and red, to rosé and sparkling, and even port-style dessert wine. Join us for this front row seat for the country's most beautiful scenery and incredible flavors. There is also an incredible, internationally inspired food scene that is not to be missed!

PRIMARY VISIT AREAS

► Victoria

Starting in Melbourne, we'll visit neighboring regions like Yarra Valley, Geelong, and Mornington Peninsula. Victoria has close to 800 wineries, and over 600 active tasting rooms accepting visitors. Given the region's large size and proximity to the ocean, hills, and a large river, it produces several popular grape varieties including: Chardonnay, Pinot Noir, Cabernet Sauvignon, and Shiraz.

► Coonawarra

Coonawarra is the Aboriginal word for "honeysuckle", and sits farthest east in the South Australia wine region against the Victoria border. A relatively small region, it is most famous for incredibly unique Cabernet Sauvignon from the special "terra rossa" soil underneath its vineyards. Approximately 60km from the sea, the climate is not that different from Bordeaux, France.

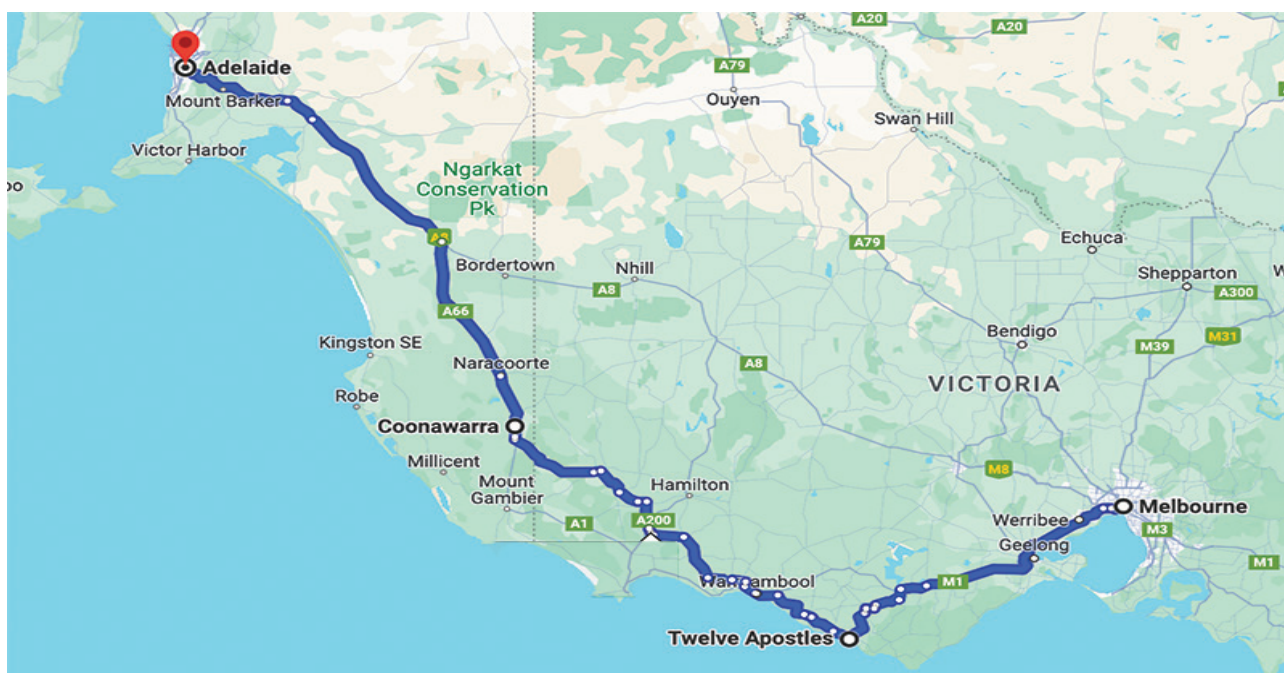

► South Australia

Adelaide truly is a great home base to experience SA's best wine production. There are five unique sub-appellations located less than an hour from the city, and several others within two hours. For this reason lucky visitors can experience a wide range of styles with minimal effort. We will visit the famous Barossa Valley, Clare Valley, McLaren Vale, Eden Valley, and Adelaide Hills areas on this tour.
