## STEP 1

Join the rails using the joining bars.  
Tighten using the supplied Allen Key.

## STEP 2

For additional support attach the  
connector blocks to the other side of  
your guide using the allen key provided.

## STEP 3

Slide the t-nut into the guide, attach the  
aluminium stop and move to the desired  
position. Once positioned tighten the  
thumbscrew.

## STEP 4

Using a joining bar attach the track adapter to the guide using the countersunk screws provided and tighten firmly.

## STEP 5

Slide the track adapter and guide into the fixing on your rail. Using the provided thumbscrew, tighten when positioned correctly
