Programming Button

NOTE: Please Consult RTS Motor Instructions for Specific Product Details.

1. Place the RTS Motor in Programming Mode as described in the individual product operating instructions.

2. Press the programming button on the RTS Interface to program it in the memory of the RTS Motor.

3. To activate an UP command, a momentary contact (relay) closure is required between the WHITE and GREEN wires.

4. To activate a DOWN command, a contact closure is required between the BLACK and GREEN wires.

5. To activate a STOP command or Intermediate Position, a contact closure is required between the RED and GREEN wires.
