▶ Installing the "Smart Life" App
1. You can download the Smart Life app from the Google Play Store™, Apple App Store™, or by scanning the QR code.
2. To register an account, input your email address or phone number. If you choose to enter your phone number, a verification code will be texted to you. No registration code is necessary via email.

– 3 –

The Smart Life app is free. It is also compatible with mobile devices that support iOS 8.0 and above, as well as Android 4.4 and above

▶ Connecting Your Smart Plug
A. Easy Mode (Recommended)
1. Make sure Easy Mode configuration is initiated: the indicator light blinks rapidly (twice per second) when in Easy Mode. If the light blinks slowly (once every two seconds), press and hold the power button on the Smart Plug for 6 seconds, until the indicator light begins to blink rapidly.
2. Tap the "+" icon in the upper right-hand corner of the Smart Life

– 4 –

app screen and choose your device type (Electrical Outlet) to add the device.
3. Follow the in-app instructions to connect the Smart Plug to your Wi-Fi network.
4. Once connected, the connection will prompt in the Smart Life app. Click "Done".
5. Now you may control the Smart Plug through the Smart Life app.

B. AP Mode
1. Make sure AP Mode configuration is initiated: the indicator light blinks slowly (once every two seconds) when in AP Mode. If not in AP Mode, press and hold the power button on the Smart Plug for 6 seconds until the indicator light blinks slowly.
2. Tap the icon "+" in the upper right-hand corner of the Smart Life app screen and select the device type (Electrical Outlet).
3. Click "AP Mode" in the top right-hand corner of the "Add Device" tab to add the device.
4. Follow the in-app instructions to connect the Smart Plug to your Wi-Fi network.

– 5 –

5. Once connected, the connection will prompt on the Smart Life app. Click "Done"
6. You may now control the Smart Plug through the Smart Life app.

▶ Getting to Know "Smart Life"
A. Devices
You can add devices to Smart Life by tapping the "+" icon in the upper right-hand corner of the screen.

1. Switches
Switches allows you to turn your device on or off from anywhere. As long as you have an internet connection, you can control the device in your home.
Tap the icon in the upper right-hand corner of the page to access the ability to modify the device's name or even create a group, if you have several smart devices, which means you can turn multiple devices on or off at the same time.
2. Timer
You can set your smart devices on or off at specific times at your convenience with this function.

– 6 –

3. Countdown
With the countdown timer feature, you can automatically turn on or off your household appliances

– 7 –

B. Scenes
With this function, you can create characteristics as you want.

C. Profile
Profile is where users can manage personal information, as shown below:

– 8 –

▶ Safety Information
The Smart Plug is recommended for use only indoors and in a dry location. The power outlet should be used within it's published outlet rating, as detailed in the instructions.

Please contact the seller for a replacement if there is any damage caused by transportation.
Please plug the Smart Plug into the outlet in proper condition, and away from children.
Please plug into the outlet fully, while using caution for safety.
Please do not disassemble the Smart Plug, as it may cause damage to the device or cause a safety concern.

– 9 –

▶ Using Amazon Alexa™
You can also choose to voice control your Smart Plug via the Amazon Alexa app. To set up, follow these steps:

1. Sign in to your Amazon Alexa account. If you do not have an account, you must first download the Alexa app from the Google Play Store™ or Apple App Store™. Once downloaded, register an account.
2. After logging in, choose the local Wi-Fi network you wish to operate from.
3. Choose the Skills option in the option bar and search for "Smart Life" in the search bar.
4. Select "Smart Life" in the results, and click "Enable"
5. Input the user name and password you registered with. A prompt will appear to tell you that Alexa™ has successfully been linked with Smart Life.

Note: For further details regarding setting up smart devices on the Alexa app, refer to the Amazon website.

– 10 –

▶ Using Google Assistant™
You can also choose to voice control your Smart Plug via the Google Assistant app. To set up, follow these steps:

1. Sign in to your Google Home™ account. If you do not have an account, you must first download the Alexa app from the Google Play Store™ or Apple App Store™. Once downloaded, register an account.
2. After logging in, choose the local Wi-Fi network you wish to operate from.
3. Choose the Skills option in the option bar and search for "Smart Life" in the search bar.
4. Select "Smart Life" in the results, and click "Enable"
5. Input the user name and password you registered with. A prompt will appear to tell you that Google Home has successfully been linked with Smart Life.

Note: For further details regarding setting up smart devices on the Google Home app, refer to the Google website.

– 11 –

▶ Controlling Your Smart Plug
After linking Amazon Alexa or Google Home to Smart Life, you will be able to control your Smart Plug using just your voice.

1. Discovering devices: First, you need to discover the device that has been linked via Smart Life on your Alexa or Google Home app.
2. Once the device has been discovered, you will be notified of a successful discovery.
3. You may now operate your plug by voice, saying "Hey Alexa" or "Ok Google".
4. Supported Skill List
You can control devices as detailed below:
"Alexa, turn on (Fridge Socket)"
"Alexa, turn off (Fridge Socket)"

– 12 –

Note: The name of the device must be consistent with the addition of the Smart Life app.

– 13 –

▶ Warranty
This Wi-Fi Smart Plug is covered by a limited warranty from NAXA for the original purchaser that covers the product from defects in workmanship and materials for 12 months from the date of purchase (damages through normal wear and tear, alteration, misuse, neglect, accident, service by anyone other than the authorized service center, or act of God are not included).

During the warranty period and upon verification of defects, this product will be replaced when returned with proper proof of purchase.
