

RADIATION SHIELDED LEAD LINED HOLLOW METAL DOORS AND FRAMES

Lead Glass Pro Hollow Metal Lined Doors are manufactured with 16 gauge A60 galvaneal steel and internally steel stiffened.

The edges of our doors are hemmed. The top and bottom of the doors are reinforced with continous steel channels, spot welded to both sides of the door.

Doors designed for a continous hinge will be made with 11 gauge steel angles for hinge reinforcement.

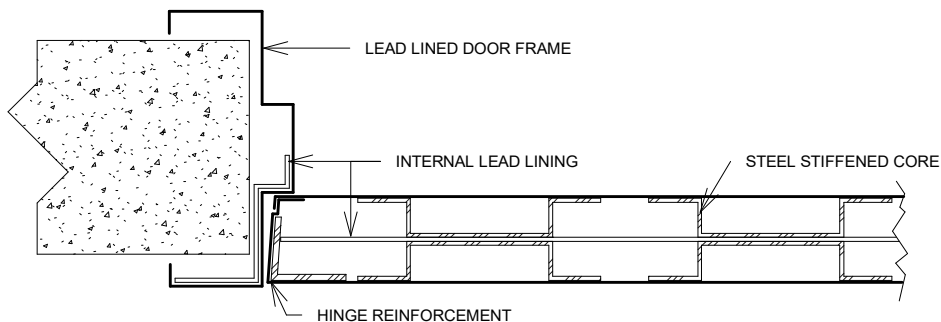

All doors can be manufactured for a door lite kit and leaded glass.

These doors can also be fire-rated for up to 2 hours.

UL Fire Ratings available upon request.

Doors meet or exceed the following :

- ASTM A526 (Galvaneal)
- ASTM A366 (Cold Rolled Steel)
- HMNA 861-00 For Commercial Hollow Metal Door and Frames
- SDI-100, Grade II, Heavy Duty Model 3
